## Forward-Looking Statements

This Report (including, but not limited to, the information contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations”) contains forward-looking statements. All statements other than statements of historical facts contained in this Report, including statements regarding our future results of operations and financial position, business strategy and plans and objectives of management for future operations, are forward-looking statements. When used, statements which are not historical in nature, including those containing words such as “anticipate,” “estimate,” “should,” “expect,” “believe,” “intend,” and similar expressions, are intended to identify forward-looking statements. We have based forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. This Report also contains estimates and other statistical data made by independent parties and by us relating to market size and growth and other industry data. This data involves several assumptions and limitations, and you are cautioned not to give undue weight to such estimates. We have not independently verified the statistical and other industry data generated by independent parties contained in this Report, and accordingly, we cannot guarantee their accuracy or completeness. In addition, projections, assumptions and estimates of our future performance and the future performance of the industries in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described under the heading “Risk Factors” in Item 1A of Greystone Housing Impact Investors LP’s Annual Report on Form 10-K for the year ended December 31, 2024.

These forward-looking statements are subject, but not limited to, various risks and uncertainties, including those relating to:

- defaults on the mortgage loans securing our MRBs and GILs
  - the competitive environment in which we operate;
  - risks associated with investing in multifamily, student, senior citizen residential properties and commercial properties;
  - general economic, geopolitical, and financial conditions, including the current and future impact of changing interest rates, inflation, and international conflicts (including the Russia-Ukraine war and conflicts in the Middle East) on business operations, employment, and financial conditions;
  - the impact of a continued partial shutdown of the U.S. government;
  - uncertain conditions within the domestic and international macroeconomic environment, including monetary and fiscal policy and conditions in the investment, credit, interest rate, and derivatives markets;
  - any effects on our business resulting from new U.S. domestic or foreign governmental trade measures, including but not limited to tariffs, import and export controls, foreign exchange intervention accomplished to offset the effects of trade policy or in response to currency volatility, and other restrictions on free trade;
  - adverse reactions in U.S. financial markets related to actions of foreign central banks or the economic performance of foreign economies, including in particular China, Japan, the European Union, and the United Kingdom;
  - the general condition of the real estate markets in the regions in which we operate, which may be unfavorably impacted by pressures in the commercial real estate sector, incrementally higher unemployment rates, persistent elevated inflation levels, and other factors;
  - changes in interest rates and credit spreads, as well as the success of any hedging strategies we may undertake in relation to such changes, and the effect such changes may have on the relative spreads between the yield on our investments and our cost of financing;
  - the potential for inflationary impacts resulting from macroeconomic conditions and policy initiatives;
  - our ability to access debt and equity capital to finance our assets;
  - current maturities of our financing arrangements and our ability to renew or refinance such financing arrangements;
  - local, regional, national, and international economic and credit market conditions;
  - recapture of previously issued LIHTCs in accordance with Section 42 of the IRC;
  - geographic concentration of properties related to our investments;
  - changes in the U.S. corporate tax code and other government regulations affecting our business.; and
  - risks related to the development and use of artificial intelligence (AI).
-

Other risks, uncertainties and factors could cause our actual results to differ materially from those projected in any forward-looking statements we make. We are not obligated to publicly update or revise any forward-looking statements, whether because of new information, future events or otherwise.

All references to “we,” “us,” “our” and the “Partnership” in this Report mean Greystone Housing Impact Investors LP, its wholly owned subsidiaries and our consolidated VIEs. See Item 2, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” of this Report for additional details.

GREYSTONE HOUSING IMPACT INVESTORS LP  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

**1. Basis of Presentation**

The Partnership was formed on April 2, 1998, under the Delaware Revised Uniform Limited Partnership Act for the purpose of acquiring, holding, selling and otherwise dealing with a portfolio of MRBs that have been issued to provide construction and/or permanent financing for affordable multifamily and student housing residential properties and commercial properties. The Partnership has also invested in GILs, which, similar to MRBs, provide financing for affordable multifamily properties. The Partnership expects and believes the interest earned on these MRBs and GILs is excludable from gross income for federal income tax purposes. The Partnership may also invest in other types of securities, including taxable MRBs and taxable GILs secured by real estate and may make property loans to multifamily residential properties which may or may not be financed by MRBs or GILs held by the Partnership and may or may not be secured by real estate. The Partnership also makes noncontrolling equity investments in unconsolidated entities for the construction, stabilization, and ultimate sale of market-rate multifamily properties. In addition, the Partnership may acquire and hold interests in MF Properties until the “highest and best use” can be determined by management.

The Partnership has issued BUCs representing assigned limited partnership interests to investors. The Partnership has designated three series of non-cumulative, non-voting, non-convertible preferred units that represent limited partnership interests in the Partnership consisting of the Series A Preferred Units, the Series A-1 Preferred Units, and the Series B Preferred Units. The outstanding Preferred Units are redeemable in the future at the option of either the holders or the Partnership (Note 17).

On December 5, 2022, America First Capital Associates Limited Partnership Two, in its capacity as the General Partner of the Partnership, and Greystone ILP, Inc., in its capacity as the initial limited partner of the Partnership, entered into the Partnership Agreement. Mortgage investments, as defined in the Partnership Agreement, consist of MRBs, taxable MRBs, GILs, taxable GILs and property loans. The Partnership Agreement authorizes the Partnership to make investments in tax-exempt securities other than mortgage investments provided that the tax-exempt investments are rated in one of the four highest rating categories by a national securities rating agency. The Partnership Agreement also allows the Partnership to invest in other securities whose interest may be taxable for federal income tax purposes. Total tax-exempt investments and other investments cannot exceed 25% of the Partnership's total assets at the time of acquisition as required under the Partnership Agreement. Tax-exempt investments and other investments primarily consist of real estate assets and investments in unconsolidated entities. In addition, the amount of other investments is limited based on the conditions to the exemption from registration under the Investment Company Act of 1940.

The General Partner is the sole general partner of the Partnership. Greystone Manager, the general partner of the General Partner, is an affiliate of Greystone.

**2. Summary of Significant Accounting Policies**

*Consolidation*

The “Partnership,” as used herein, includes Greystone Housing Impact Investors LP, its consolidated subsidiaries and consolidated variable interest entities (Note 3). All intercompany transactions are eliminated. The consolidated subsidiaries of the Partnership for the periods presented consist of:

- ATAX TEBS II, LLC, a special purpose entity owned and controlled by the Partnership, created to hold MRBs to facilitate the M31 TEBS Financing with Freddie Mac, and subsequently, to facilitate the 2024 PFA Securitization Transaction;
- ATAX TEBS III, LLC, a special purpose entity owned and controlled by the Partnership, created to hold MRBs to facilitate the M33 TEBS Financing with Freddie Mac;
- ATAX TEBS IV, LLC, a special purpose entity owned and controlled by the Partnership, created to hold MRBs to facilitate the M45 TEBS Financing with Freddie Mac;
- ATAX Vantage Holdings, LLC, a wholly owned subsidiary of the Partnership, which is committed to provide equity for the development of multifamily properties;
- ATAX Freestone Holdings, LLC, a wholly owned subsidiary of the Partnership, which is committed to provide equity for the development of multifamily properties;
- ATAX Senior Housing Holdings I, LLC, a wholly owned subsidiary of the Partnership, which is committed to provide equity for the development of seniors housing properties;

- ATAX Great Hill Holdings, LLC, a wholly owned subsidiary of the Partnership, which is committed to provide equity for the development of multifamily properties;
- GHI-BIO AC Debt JV MM, LLC, a wholly owned subsidiary of the Partnership, which will manage and is committed to provide capital to the Construction Lending JV;
- Greens Hold Co, a wholly owned corporation, which owns certain property loans and owned 100% of The 50/50 MF Property, a prior real estate asset; and
- Lindo Paseo LLC, a wholly owned limited liability company, which previously owned 100% of the Suites on Paseo MF Property.

#### *Use of Estimates and Assumptions in Preparation of Consolidated Financial Statements*

The preparation of financial statements in conformity with GAAP requires the Partnership to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying interim unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted in accordance with such SEC rules and regulations, although the Partnership believes that the disclosures are adequate to make the information presented not misleading. The most significant estimates and assumptions include those used in determining: (i) the fair value of MRBs and taxable MRBs; (ii) investment impairments; and (iii) allowances for credit losses.

The Partnership's condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2024. These condensed consolidated financial statements and notes have been prepared consistently with the 2024 Form 10-K. In the opinion of management, all adjustments (consisting of normal and recurring accruals) necessary to present fairly the Partnership's financial position as of September 30, 2025, and the results of operations for the interim periods presented, have been made. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full year. The accompanying condensed consolidated balance sheet as of December 31, 2024 was derived from the audited annual consolidated financial statements but does not contain all the footnote disclosures from the annual consolidated financial statements.

#### *Risks and Uncertainties*

The Federal Reserve reduced the federal funds rate by 25 basis points in September and October 2025 to a target range of 3.75-4.00%. The Federal Reserve has stated it will continue to monitor employment and inflation data in determining future rate targets, consistent with its dual mandate. More specifically, the Chairman of the Federal Reserve has recently stated that the labor market appears to be gradually cooling and inflation remains somewhat elevated. The downside risks to employment in the U.S. economy appear to have risen, while longer-term inflationary risk above the Federal Reserve's 2% policy goal is heightened. The Chairman noted strongly differing views on additional near term rate reductions and stated that the Federal Reserve will continue to evaluate relevant data in determining any future rate reductions. In addition, geopolitical conflicts, changing global trade and tariff policies, and uncertainty regarding the effects of these matters on U.S. and international macroeconomic conditions continue to impact the general global economic environment. Though fixed income markets have been relatively stable in recent months, these on-going factors could lead to volatility, which may impact the value of some of the Partnership's investment assets, particularly those with fixed interest rate in the future, and which may result in collateral posting requirements under our debt financing arrangements. In addition, changes in short-term interest rates will directly impact the interest cost associated with the Partnership's variable rate debt financing arrangements and for construction debt of properties underlying our investments in unconsolidated entities. The extent to which general economic, geopolitical, and financial conditions will impact the Partnership's financial condition or results of operations in the future is uncertain and actual results and outcomes could differ from current estimates.

While inflationary pressures have stabilized and moderated in the United States since the third quarter of 2023, any resurgence in inflation may adversely impact operating expenses at properties securing the Partnership's investments and general operations, which may reduce net operating results of the related properties and result in lower debt service coverage or higher than anticipated capitalized interest requirements for properties under construction. Such occurrences may negatively impact the value of the Partnership's investments. Elevated levels of general and administrative expenses of the Partnership may adversely affect the Partnership's operating results, including a reduction in net income.

Furthermore, the potential for lower levels of economic growth either globally or locally in the U.S. or other economies could further impact the valuation of our investment assets, limit the Partnership's ability to obtain additional debt financing from lenders, and limit opportunities for additional investments.

#### *Allowance for Credit Losses*

#### **Held-to-Maturity Debt Securities, Held-for-Investment Loans and Related Unfunded Commitments**

The Partnership estimates allowances for credit losses for its GILs, taxable GILs, property loans and related non-cancelable funding commitments using a WARM method loss-rate model, combined with qualitative factors that are sensitive to changes in forecasted economic conditions. The Partnership applies qualitative factors related to risk factors and changes in current economic conditions that may not be adequately reflected in quantitatively derived results, or other relevant factors to ensure the allowance for credit losses reflects the Partnership's best estimate of current expected credit losses. The WARM method pools assets sharing similar characteristics and utilizes a historical annual charge-off rate which is applied to the outstanding asset balances over the remaining weighted average life of the pool, adjusted for certain qualitative factors to estimate expected credit losses. The Partnership has minimal loss history with GILs, taxable GILs, and property loans to date and has had minimal historical credit losses to date. As such, the Partnership uses historical annual charge-off data for similar assets from publicly available loan data through the FFIEC. The Partnership adjusts for current conditions and the impact of qualitative forecasts that are reasonable and supportable. The Partnership assesses qualitative adjustments related to, but not limited to, credit quality changes in the asset portfolio, general economic conditions, changes in the affordable multifamily real estate markets, changes in lending policies and underwriting, and underlying collateral values.

The Partnership will elect to separately evaluate an asset if it no longer shares the same risk characteristics as the respective pool or the specific investment attributes do not lend to analysis with a model-based approach. For collateral-dependent assets when foreclosure is probable, the Partnership will apply a practical expedient to estimate current expected credit losses as the difference between the fair value of collateral and the amortized cost of the asset.

Charge-offs to the allowance for credit losses occur when losses are confirmed through the receipt of cash or other consideration from the completion of a sale, when a modification or restructuring takes place in which the Partnership grants a concession to a borrower or agrees to a discount in full or partial satisfaction of the asset, when the Partnership takes ownership and control of the underlying collateral in full satisfaction of the asset, or when significant collection efforts have ceased and it is highly likely that a loss has been realized.

The Partnership has elected to not measure an allowance for credit losses on accrued interest receivables related to its GILs, taxable GILs and property loans because uncollectible accrued interest receivable is written off in a timely manner pursuant to policies for placing assets on non-accrual status.

#### **Available-for-Sale Debt Securities**

The Partnership periodically determines if allowances of credit losses are needed for its MRBs and taxable MRBs under the applicable guidance for available-for-sale debt securities. The Partnership evaluates whether unrealized losses are considered impairments based on various factors including, but not necessarily limited to, the following:

- The severity of the decline in fair value;
- The Partnership's intent to hold and the likelihood of it being required to sell the security before its value recovers;
- Adverse conditions specifically related to the security, its collateral, or both;
- The likelihood of the borrower being able to make scheduled interest and principal payments; and
- Failure of the borrower to make scheduled interest or principal payments.

While the Partnership evaluates all available information, it focuses specifically on whether the estimated fair value of the security is below amortized cost. If the estimated fair value of an MRB is below amortized cost, and the Partnership has the intent to sell or may be required to sell the MRB prior to the time that its value recovers or until maturity, the Partnership will record an impairment through earnings equal to the difference between the MRB's carrying value and its fair value. If the Partnership does not expect to sell an other-than-temporarily impaired MRB, only the portion of the impairment related to credit losses is recognized through earnings as a provision for credit loss, with the remainder recognized as a component of other comprehensive income. In determining the provision for credit loss, the Partnership compares the present value of cash flows expected to be collected to the amortized cost basis of the MRB and records any provision for credit losses as an adjustment to the allowance for credit losses. The Partnership has elected to not measure an allowance for credit losses on accrued interest receivables related to its MRBs and taxable MRBs because uncollectable accrued interest receivable is written off in a timely manner pursuant to policies for placing assets on non-accrual status.

The recognition of impairments, provisions for credit loss, and the potential impairment analysis are subject to a considerable degree of judgment, the results of which, when applied under different conditions or assumptions, could have a material impact on the Partnership's consolidated financial statements. If the Partnership experiences deterioration in the values of its MRB portfolio, the Partnership may incur impairments or provisions for credit losses that could negatively impact the Partnership's financial condition, cash flows, and reported earnings. The Partnership periodically reviews any previously impaired MRBs for indications of a recovery of value. If a recovery of value is identified, the Partnership will report the recovery of prior credit losses through its allowance for credit losses as a provision for credit losses (recoveries). For MRB impairment recoveries identified prior to the adoption of the CECL model, the Partnership will accrete the recovery of prior credit losses into investment income over the remaining term of the MRB.

#### *BUCs*

The Partnership has issued BUCs representing assigned limited partnership interests to investors. Costs related to the issuance of BUCs are recorded as a reduction to partners' capital when issued.

The Partnership previously declared the First Quarter 2024 BUCs Distribution in the form of additional BUCs. All fractional BUCs resulting from the First Quarter 2024 BUCs Distribution received cash for such fraction based on the market value of the BUCs on the record date. The First Quarter 2024 BUCs Distribution has been applied retroactively to all net income per BUC, distributions per BUC and similar per BUC disclosures for all periods indicated in the Partnership's condensed consolidated financial statements.

#### *Recently Issued Accounting Pronouncements*

In November 2023, the FASB issued ASU 2023-07, which enhances the disclosures about a public entity's reportable segments and addresses requests from investors for additional, more detailed information about a reportable segment's expenses. ASU 2023-07 was effective for the Partnership for the year ended December 31, 2024 and interim periods thereafter. The adoption of ASU 2023-07 did not have a material impact on the Company's condensed consolidated financial statements for the three and nine months ended September 30, 2025. See Note 24 for related disclosures.

In November 2024, the FASB issued ASU 2024-03, which improves the disclosures about a public business entity's expenses. ASU 2024-03 is effective for the Partnership for fiscal years beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027. The Partnership is currently assessing the impact of the adoption of this pronouncement on the consolidated financial statements.

### **3. Variable Interest Entities**

See section under the heading "*Variable Interest Entities*" within Note 2 of the consolidated financial statements in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2024 for the Partnership's policies regarding accounting for Variable Interest Entities.

#### *Non-Consolidated Variable Interest Entities*

The Partnership acquires investments in the form of MRBs, taxable MRBs, GILs, taxable GILs, and property loans to finance the construction and/or operation of affordable multifamily properties that are obligations of the property-owning entity, which is considered the borrower entity. The Partnership's individual investment assets are considered debt obligations of each individual borrower entity, and the investment assets are secured by a mortgage on real and personal property of the respective borrower entity. The Partnership's associated investment asset(s) is considered a variable interest in the borrower entity as the Partnership will absorb losses of the VIEs if the borrower entities are unable to repay the outstanding principal of the respective MRBs, taxable MRBs, GILs, taxable GILs, and property loans. The Partnership evaluates whether each borrower entity is a VIE under the accounting guidance, and if so, the Partnership performs an evaluation to determine if the Partnership is the primary beneficiary of the VIE. When evaluating whether the Partnership is the primary beneficiary of a VIE, the Partnership identifies the rights that grant the power to direct the activities that most significantly impact the VIE's economic performance, which are those rights to manage regular property operations of the VIE, to sell the assets of the VIE, or to refinance the debt of the VIE. Generally, all such rights are held by the equity investors in the VIE and not the Partnership. As a result, the Partnership is not considered the primary beneficiary and does not consolidate the financial statements of these VIEs in the Partnership's condensed consolidated financial statements. The Partnership reports its investments in the MRBs, taxable MRBs, GILs, taxable GILs, and property loans on the Partnership's condensed consolidated balance sheet and the related interest income on the Partnership's condensed consolidated statement of operations.

The Partnership also makes equity investments in entities formed for the construction, operation and sale of market-rate multifamily or seniors housing properties (Note 7). The Partnership's equity investments in these VIEs are considered variable interests as the Partnership, and the respective managing members, are entitled to returns and absorb losses from the underlying properties

according to the entities' respective operating agreements. The Partnership has determined that the underlying investee entities are VIEs for financial reporting purposes and the Partnership performs an evaluation to determine if the Partnership is the primary beneficiary of the VIE. The Partnership and the respective managing members have various rights within the respective operating agreement for each VIE. When evaluating whether the Partnership is the primary beneficiary of a VIE, it identifies the rights that grant the power to direct the activities that most significantly impact the VIE's performance, which are those rights to manage regular property operations of the VIE, to sell the assets of the VIE, or to refinance the debt of the VIE. Generally, all such rights are held by the managing members of the VIE. In addition, the Partnership does not have kick-out rights or substantive participating rights. As a result, the Partnership is not considered the primary beneficiary and does not consolidate the financial statements of these VIEs in the Partnership's condensed consolidated financial statements, with one exception as disclosed in the "Consolidated Variable Interest Entities" section below. The Partnership reports its equity investments in the VIEs as "Investments in unconsolidated entities" on the Partnership's condensed consolidated balance sheet and the related preferred return, earnings (losses) from investments in unconsolidated entities, and gains on sale on the Partnership's condensed consolidated statement of operations.

The Partnership held variable interests in 22 and 31 non-consolidated VIEs as of September 30, 2025 and December 31, 2024, respectively. The following table summarizes the Partnership's carrying value by asset and maximum exposure to loss associated with the variable interests as of September 30, 2025 and December 31, 2024:

|                                                                  | September 30, 2025    |                          | December 31, 2024     |                          |
|------------------------------------------------------------------|-----------------------|--------------------------|-----------------------|--------------------------|
|                                                                  | Carrying Value        | Maximum Exposure to Loss | Carrying Value        | Maximum Exposure to Loss |
| Mortgage revenue bonds                                           | \$ 182,618,843        | \$ 180,373,829           | \$ 207,170,395        | \$ 203,929,806           |
| Taxable mortgage revenue bonds (reported within other assets)    | 9,815,618             | 9,800,793                | 4,393,869             | 4,406,024                |
| Governmental issuer loans                                        | 109,757,835           | 109,757,835              | 203,999,628           | 203,999,628              |
| Taxable governmental issuer loans (reported within other assets) | 43,879,465            | 43,879,465               | 14,157,672            | 14,157,672               |
| Property loans                                                   | 39,824,000            | 39,824,000               | 42,210,000            | 42,210,000               |
| Investments in unconsolidated entities                           | 153,441,391           | 153,441,391              | 179,409,869           | 179,409,869              |
|                                                                  | <u>\$ 539,337,152</u> | <u>\$ 537,077,313</u>    | <u>\$ 651,341,433</u> | <u>\$ 648,112,999</u>    |

The Partnership's maximum exposure to loss for non-consolidated VIEs associated with the MRBs and taxable MRBs as of September 30, 2025 and December 31, 2024 is equal to the Partnership's cost basis adjusted for paydowns. The difference between the MRB carrying value in the Partnership's condensed consolidated balance sheets and the maximum exposure to loss is due to the unrealized gains or losses. The Partnership has remaining MRB and taxable MRB funding commitments related to non-consolidated VIEs totaling \$5.9 million and \$9.6 million, respectively, as of September 30, 2025 (Note 16).

The Partnership's maximum exposure to loss for non-consolidated VIEs associated with GILs, taxable GILs, property loans and investments in unconsolidated entities as of September 30, 2025 and December 31, 2024 is equal to the Partnership's carrying value. The Partnership has future property loan and investment in unconsolidated entities funding commitments related to non-consolidated VIEs totaling \$28.8 million, and \$10.6 million, respectively, as of September 30, 2025 (Note 16).

#### *Consolidated Variable Interest Entities*

The Partnership obtains leverage on its investment assets to enhance returns and lower its net capital investment. The Partnership's leverage programs generally consist of selling MRBs, taxable MRBs, GILs, taxable GILs, and property loans into debt financing entities in the form of TOBs, a term TOB, TEBS financings, the 2024 PFA Securitization Transaction, and the TEBS Residual Financing. These debt financing entities issue senior securities and residual beneficial interests that share in the cash flows from the securitized investment assets. The senior securities are sold to third-party investors for cash and the Partnership retains the residual beneficial interest. The Partnership determined that its residual beneficial interest in a debt financing entity absorbs potential losses of the entity as the interests are in a first-loss position and subordinate to the senior securities in the distribution of cash flows of the debt financing entity. The Partnership has determined that each debt financing entity is a VIE for financial reporting purposes and the Partnership performs an evaluation to determine if the Partnership is the primary beneficiary of the VIE. In determining the primary beneficiary of each VIE, the Partnership considered which party has the power to control the activities of the VIE which most significantly impact its financial performance and the obligation to absorb losses or rights to receive benefits of the entity that could potentially be significant to the VIE. The Partnership determined that the right to direct the VIE to sell the underlying assets most significantly impacts the economic performance of the VIE, and such right is held by the Partnership through its ownership of the residual beneficial interests. The Partnership has the obligation to absorb losses that could potentially be significant to the VIE given its first-loss position noted previously. As the Partnership meets both primary beneficiary criteria, it is considered the primary beneficiary of the VIEs and reports the VIEs on a consolidated basis. The Partnership reports the underlying investment assets of the VIEs in the Partnership's assets (Notes

4, 5, 6 and 9) and the senior securities of the VIEs are reported as “Debt financing, net” (Note 13) on the Partnership’s condensed consolidated balance sheets. The interest income earned from the underlying investment assets of the VIEs is reported within “Investment income” and “Other interest income” on the Partnership’s condensed consolidated statement of operations. Interest expense and facility fees associated with the debt financing are reported within “Interest expense” on the Partnership’s condensed consolidated statement of operations.

As noted previously, the Partnership also makes equity investments in certain entities formed for the construction, operation and sale of market-rate multifamily or seniors housing properties (Note 7). The investee entities are VIEs for financial reporting purposes and the Partnership is typically not considered the primary beneficiary, making such entities non-consolidated VIEs. Within one of the Partnership’s equity investments, Vantage at San Marcos, the Partnership has additional rights compared to its other equity investments and such rights are considered in the Partnership’s assessment of the primary beneficiary of the VIE. In determining the primary beneficiary of the VIEs, the Partnership considered which party has the power to control the activities of the VIE which most significantly impact its financial performance and the obligation to absorb losses or rights to receive benefits of the entity that could potentially be significant to the VIE. For the Vantage at San Marcos investee, the Partnership can currently require the managing member of the VIE to purchase the Partnership’s equity investment in the VIE at a price equal to the Partnership’s carrying value. The only assets of the VIE are land and capitalized development costs such that if the Partnership were to require the managing member to purchase its equity investment, all underlying assets of the VIE would likely need to be sold, which would significantly impact the VIE’s economic performance. The Partnership would be exposed to gains or losses of the VIE based on the sales price of the underlying asset in relation to the Partnership’s equity investment. As the Partnership meets both the primary beneficiary criteria for the Vantage at San Marcos investee, it is considered the primary beneficiary of the VIE and reports the VIE on a consolidated basis. The Partnership reports the land and capitalized development costs of the VIE within “Real estate assets, net” and a mortgage loan on the property within “Mortgages payable, net” on the Partnership’s condensed consolidated balance sheets. The VIE has not reported any income or expenses during the three and nine months ended September 30, 2025 and 2024. If certain events occur in the future, the Partnership’s option to redeem the investment will terminate and the VIE may be deconsolidated.

The following table summarizes the assets and liabilities of the Partnership’s consolidated VIEs as of September 30, 2025 and December 31, 2024:

|                                                                         | September 30, 2025      | December 31, 2024       |

<sup>(1)</sup>Of the amounts reported, \$4,543,821 and \$5,112,036 are associated with VIEs where the creditor does not have recourse to the general credit of the Partnership as of September 30, 2025 and December 31, 2024, respectively.

<sup>(2)</sup>Of the amounts reported, \$327,693,245 and \$364,099,866 are associated with VIEs where the creditor does not have recourse to the general credit of the Partnership as of September 30, 2025 and December 31, 2024, respectively.

<sup>(3)</sup>The entire mortgages payable balance is associated with a VIE where the creditor does not have recourse to the general credit of the Partnership as of September 30, 2025 and December 31, 2024, respectively.

In certain instances, the Partnership has investment assets in the form of MRBs, taxable MRBs, GILs, taxable GILs and property loans that are variable interests in non-consolidated borrower entity VIEs which are also assets of consolidated debt financing entity

VIEs. Accordingly, such investment assets are reported within tables related to both non-consolidated VIEs and consolidated VIEs presented in this Note 3.

#### **4. Mortgage Revenue Bonds**

The Partnership's MRBs provide construction and/or permanent financing for income-producing multifamily rental, seniors housing and skilled nursing properties. MRBs are either held directly by the Partnership or are held in trusts created in connection with debt financing transactions (Note 13). The MRBs predominantly bear interest at fixed interest rates and require regular principal and interest payments on either a monthly or semi-annual basis. The Partnership had the following investments in MRBs as of September 30, 2025 and December 31, 2024:

(1) 2024 PFA Securitization Bond associated with the 2024 PFA Securitization Transaction, Note 13.

(2) MRB owned by ATAX TEBS III, LLC (M33 TEBS), Note 13. The TEBS financing has contractual limitations on the Partnership's ability to sell the MRB.

(3) MRB owned by ATAX TEBS IV, LLC (M45 TEBS), Note 13. The TEBS financing has contractual limitations on the Partnership's ability to sell the MRB.

(4) MRB held by Mizuho in a debt financing transaction, Note 13.

(5) MRB held by Barclays in a debt financing transaction, Note 13.

(6) As of the date presented, the Partnership determined that the unrealized loss on the MRB is a result of increasing market interest rates from the date of acquisition and is not considered a credit loss. As of September 30, 2025, the MRB has been in an unrealized loss position for less than 12 months.

(7) As of the date presented, the Partnership determined that the unrealized loss on the MRB is a result of increasing market interest rates from the date of acquisition and is not considered a credit loss. As of September 30, 2025, the MRB has been in an unrealized loss position for at least 12 months.

(8) The Partnership has a remaining MRB funding commitment of approximately \$1.5 million as of September 30, 2025. The MRB and the unfunded MRB commitment are accounted for as available-for-sale securities and reported at fair value. The reported unrealized loss includes the unrealized loss on the current MRB carrying value (based on current fair value) as well as the unrealized loss on the Partnership's remaining funding commitment outstanding as of September 30, 2025 (also based on current fair value). The Partnership determined the unrealized loss is a result of increasing market interest rates and that the cumulative unrealized loss is not considered a credit loss. As of September 30, 2025, the MRB has been in an unrealized loss position for more than 12 months.

(1) 2024 PFA Securitization Bond associated with the 2024 PFA Securitization Transaction, Note 13.

(2) MRB owned by ATAX TEBS III, LLC (M33 TEBS), Note 13. The TEBS financing has contractual limitations on the Partnership's ability to sell the MRB.

(3) MRB owned by ATAX TEBS IV, LLC (M45 TEBS), Note 13. The TEBS financing has contractual limitations on the Partnership's ability to sell the MRB.

(4) MRB held by Mizuho in a TOB trust financing transaction, Note 13.

(5) MRB held by Barclays in a debt financing transaction, Note 13.

(6) As of the date presented, the Partnership determined that the unrealized loss on the MRB is a result of increasing market interest rates and is not considered a credit loss. As of December 31, 2024, the MRB has been in an unrealized loss position for at least 12 months.

(7) The Partnership has a remaining MRB funding commitment of approximately \$2.9 million as of December 31, 2024. The MRB and the unfunded MRB commitment are accounted for as available-for-sale securities and reported at fair value. The reported unrealized loss includes the unrealized loss on the current MRB carrying value (based on current fair value) as well as the unrealized loss on the Partnership's remaining funding commitment outstanding as of December 31, 2024 (also based on current fair value). The Partnership determined the unrealized loss is a result of increasing market interest rates and that the cumulative unrealized loss is not considered a credit loss. As of December 31, 2024, the MRB has been in an unrealized loss position for more than 12 months.

(8) As of the date presented, the Partnership determined that the unrealized loss on the MRB is a result of increasing market interest rates and is not considered a credit loss. As of December 31, 2024, the MRB has been in an unrealized loss position for less than 12 months.

The Partnership has accrued interest receivable related to its MRBs of approximately \$5.4 million and \$5.3 million as of September 30, 2025 and December 31, 2024, respectively, that is reported as interest receivable, net in the Partnership's condensed consolidated balance sheets.

An entity that is an affiliate of the borrowers for the Residency at Empire, Residency at the Entrepreneur, and Residency at the Mayer MRBs and taxable MRBs (Note 9) has provided full payment guaranties during the construction phase prior to stabilization. The MRBs and taxable MRBs had total outstanding principal of \$165.4 million and \$9.0 million, respectively, as of September 30, 2025.

The Partnership has committed to provide funding for certain MRBs on a draw-down basis during construction and/or rehabilitation of the secured properties as of September 30, 2025. See Note 16 for additional information regarding the Partnership's MRB funding commitments.

See Note 20 for a description of the methodology and significant assumptions used in determining the fair value of the MRBs. Unrealized gains or losses on the MRBs are recorded in the Partnership's condensed consolidated statements of comprehensive income to reflect changes in their estimated fair values resulting from market conditions and fluctuations in the present value of the expected cash flows from the MRBs.

See Note 10 for information regarding the Partnership's allowance for credit losses.

#### Activity in the First Nine Months of 2025

#### Acquisitions:

The following MRBs were acquired during the nine months ended September 30, 2025:

| Property Name                             | Month<br>Acquired | Property Location | Units | Maturity Date | Interest Rate | Principal Funding    |

| Agape Helotes - Series B <sup>(2)</sup>   | May 2025          | Helotes, TX       | 288   | 1/1/2065      | 8.00%         | 7,289,945            |
|                                           |                   |                   |       |               |               | <u>\$ 13,349,945</u> |

(1) The Agape Helotes - Series A-1 MRB was acquired at a discount of approximately \$514,000 or 8.5% of par.

(2) The Agape Helotes - Series B MRB is a capital appreciation bond, is subordinate to the Series A-1 and Series A-2 (held by third-party investors), and is payable from excess revenues of the underlying property.

**Amendments:**

In March 2025, the Residency at the Mayer – Series A and Residency at the Mayer – Series M MRBs were amended to remove the Partnership's post-stabilization funding commitment to the property. In August 2025, the Residency at the Mayer - Series M MRB was fully redeemed and the Residency at the Mayer - Series A MRB was partially redeemed. The following table summarizes the paydowns:

| Property Name                     | Month Restructured | Property Location | Units | Original Maturity Date | Interest Rate | Principal Payment Received |
|-----------------------------------|--------------------|-------------------|-------|------------------------|---------------|----------------------------|
| Residency at the Mayer - Series M | August 2025        | Hollywood, CA     | 79    | 4/1/2039               | SOFR + 3.60%  | \$ 11,500,000              |
| Residency at the Mayer - Series A | August 2025        | Hollywood, CA     | 79    | 4/1/2039               | SOFR + 3.60%  | 12,800,000                 |
|                                   |                    |                   |       |                        |               | <u>\$ 24,300,000</u>       |

In August 2025, the Partnership re-committed to providing post-stabilization funding for the Residency at the Mayer - Series A MRB at a fixed interest rate and acquired the Residency at the Mayer - Series KK MRB. The following table summarizes the current terms of the Residency at the Mayer MRBs:

| Property Name                      | Month Amended/Acquired | Property Location | Units | Maturity Date | Interest Rate | Principal Outstanding |
|------------------------------------|------------------------|-------------------|-------|---------------|---------------|-----------------------|
| Residency at the Mayer - Series A  | August 2025            | Hollywood, CA     | 79    | 4/1/2039      | 7.25%         | \$ 16,700,000         |
| Residency at the Mayer - Series KK | August 2025            | Hollywood, CA     | 79    | 10/6/2026     | 7.25%         | 11,500,000            |
|                                    |                        |                   |       |               |               | <u>\$ 28,200,000</u>  |

During the nine months ended September 30, 2025, the Partnership recognized fees totaling approximately \$709,000 in other income in connection with extensions of the maturity dates of the Residency at the Entrepreneur MRBs, Residency at the Mayer MRBs, and Residency at the Entrepreneur taxable MRB.

**Redemptions:**

The following MRBs were redeemed during the nine months ended September 30, 2025:

| Property Name                        | Month Redeemed | Property Location | Units | Original Maturity Date | Interest Rate | Principal Outstanding at Date of Redemption |
|--------------------------------------|----------------|-------------------|-------|------------------------|---------------|---------------------------------------------|
| Lutheran Gardens                     | March 2025     | Compton, CA       | 76    | 2/1/2025               | 4.90%         | \$ 10,352,000                               |
| Companion at Thornhill Apartments    | June 2025      | Lexington, SC     | 180   | 1/1/2052               | 5.80%         | 10,402,953                                  |
| The Palms at Premier Park Apartments | June 2025      | Columbia, SC      | 240   | 1/1/2050               | 6.25%         | 17,443,513                                  |
| Copper Gate Apartments               | August 2025    | Lafayette, IN     | 129   | 12/1/2029              | 6.25%         | 4,715,000                                   |
|                                      |                |                   |       |                        |               | <u>\$ 42,913,466</u>                        |

The Companion at Thornhill Apartments MRB was redeemed at 102% of par value plus accrued interest. The redemption premium of approximately \$208,000 is reported as "Contingent interest income" on the Partnership's condensed consolidated statements of operations. All other MRBs were redeemed at a price that approximated the Partnership's carrying value plus accrued interest.

## Activity in the First Nine Months of 2024

### Acquisitions:

The following MRBs were acquired at a price that approximated the principal outstanding plus accrued interest during the nine months ended September 30, 2024:

| Property Name                                    | Month Acquired | Property Location | Units | Maturity Date | Interest Rate               | Initial Principal Funded |
|--------------------------------------------------|----------------|-------------------|-------|---------------|-----------------------------|--------------------------|
| Residency at the Mayer - Series M <sup>(1)</sup> | March 2024     | Hollywood, CA     | 79    | 4/1/2039      | SOFR + 3.60% <sup>(2)</sup> | \$ 11,500,000            |
| Woodington Gardens Apartments - Series A-1       | April 2024     | Baltimore, MD     | 197   | 5/1/2029      | 7.80%                       | 31,150,000               |
| Aventine Apartments                              | May 2024       | Bellevue, WA      | 68    | 6/1/2031      | 7.68%                       | 9,500,000                |
| Wellspring Apartments <sup>(3)</sup>             | August 2024    | Long Beach, CA    | 88    | 9/1/2039      | 4.85%                       | 3,900,000                |
|                                                  |                |                   |       |               |                             | <u>\$ 56,050,000</u>     |

<sup>(1)</sup>The borrower re-allocated \$11.5 million of previously provided funding from a taxable MRB to this new MRB during the acquisition and rehabilitation phase of the property.

<sup>(2)</sup>The interest rate is subject to an all-in floor of 3.85%.

<sup>(3)</sup>The investment was previously reported as the Anaheim & Walnut bond purchase commitment and has converted to an MRB.

### Sales:

The following MRB was sold at a price that approximated the Partnership's carrying value plus accrued interest during the nine months ended September 30, 2024:

| Property Name | Month Sold | Property Location | Units | Original Maturity Date | Interest Rate | Principal Outstanding at Date of Sale |
|---------------|------------|-------------------|-------|------------------------|---------------|---------------------------------------|
| Brookstone    | May 2024   | Waukegan, IL      | 168   | 5/1/2040               | 5.45%         | \$ 8,221,234                          |

The Partnership realized a gain on sale of the Brookstone MRB of approximately \$1.0 million related to collection of an unamortized discount upon sale.

### Redemptions:

The following MRBs were redeemed at a price that approximated the outstanding principal balance plus accrued interest during the nine months ended September 30, 2024:

| Property Name | Month Redeemed | Property Location | Units | Original Maturity Date | Interest Rate | Principal Outstanding at Date of Redemption |
|---------------|----------------|-------------------|-------|------------------------|---------------|---------------------------------------------|
| Southpark     | July 2024      | Austin, TX        | 192   | 12/1/2049              | 6.13%         | \$ 12,300,000                               |
| Runnymede     | August 2024    | Austin, TX        | 252   | 10/1/2024              | 6.00%         | 9,315,000                                   |
|               |                |                   |       |                        |               | <u>\$ 21,615,000</u>                        |

Upon redemption of the Southpark MRB, the Partnership recognized investment income of \$1.1 million related to its previously unamortized discount on the MRB.

In connection with the final settlement of the bankruptcy estate of the Provision Center 2014-1 MRB in July 2024, the Partnership received approximately \$365,000 and recovered approximately \$169,000 of its previously recognized allowance for credit loss (see Note 10).

### 5. Governmental Issuer Loans

The Partnership invests in GILs that are issued by state or local governmental authorities to finance the construction of affordable multifamily properties. The Partnership expects and believes the interest earned on the GILs is excludable from gross income for federal income tax purposes. GILs do not constitute an obligation of any government, agency or authority and no government, agency or authority is liable for them, nor is the taxing power of any state government pledged to the payment of principal or interest on the GILs. Each GIL is secured by a mortgage on all real and personal property of the affordable multifamily property. The GILs share first

mortgage lien positions with property loans and/or taxable GILs owned by the Partnership (Notes 6 and 9). Sources of the funds to pay principal and interest on a GIL consist of the net cash flow or the sale or refinancing proceeds from the secured property and limited-to-full payment guaranties provided by affiliates of the borrower.

All GILs were held in trust in connection with TOB trust financings as of September 30, 2025 and December 31, 2024 (Note 13), with the exception of the Natchitoches Thomas Apartments GIL. At the closing of each GIL, Freddie Mac, through a servicer, has forward committed to purchase the GIL at maturity at par if the property has reached stabilization and other conditions are met.

The Partnership had the following GIL investments as of September 30, 2025 and December 31, 2024:

| Property Name                         | Month Acquired | Property Location | Units      | Maturity Date | Interest Rate | As of September 30, 2025 |                       |
|---------------------------------------|----------------|-------------------|------------|---------------|---------------|--------------------------|-----------------------|

<sup>(1)</sup>The Freddie Mac servicer that has forward committed to purchase the GIL at maturity is an affiliate of the Partnership (Note 19).

<sup>(2)</sup>The Partnership has agreed to provide a subordinate GIL after the execution of Freddie Mac's forward purchase commitment if needed by the property. The potential subordinate GIL amounts are up to \$3.8 million, \$2.2 million, and \$4.2 million for Poppy Grove I, Poppy Grove II, and Poppy Grove III, respectively.

<sup>(1)</sup>The borrowers may elect to extend the maturity dates by six months upon meeting certain conditions, which may include payment of a non-refundable extension fee.

<sup>(2)</sup>The variable index interest rate components are typically subject to floors that range from 0.25% to 0.50%.

<sup>(3)</sup>The Freddie Mac servicer that has forward committed to purchase the GIL at maturity is an affiliate of the Partnership (Note 19).

<sup>(4)</sup>The Partnership has agreed to provide a subordinate GIL after the execution of Freddie Mac's forward purchase commitment if needed by the property. The potential subordinate GIL amounts are up to \$3.8 million, \$2.2 million, and \$4.2 million for Poppy Grove I, Poppy Grove II, and Poppy Grove III, respectively.

<sup>(5)</sup>The interest rate will convert to a variable rate of Term SOFR + 2.80% on February 1, 2025.

<sup>(6)</sup>The Natchitoches Thomas Apartments GIL was considered to be available-for-sale sale and reported at fair value, which approximated amortized cost as of December 31, 2024. The Partnership expects to sell the GIL into the Construction Lending JV in the future.

The Partnership has accrued interest receivable related to its GILs of approximately \$691,000 and approximately \$1.4 million as of September 30, 2025 and December 31, 2024, respectively, that is reported as interest receivable, net in the Partnership's condensed consolidated balance sheets.

Two entities that are affiliates of the Sandy Creek Apartment GIL and Sandoval Flats property loan borrowers have provided limited-to-full payment guaranties for GILs and property loans (Note 6) with total outstanding principal of \$12.1 million and \$1.0 million, respectively, as of September 30, 2025. The same affiliates also provide guaranties for The Safford MRB.

An entity that is an affiliate of the borrowers for the Poppy Grove GILs, Poppy Grove taxable GILs (Note 9), and Gateway and Yarbrough Predevelopment Project taxable MRB (Note 9) has provided payment guaranties with total outstanding principal of approximately \$109.8 million, \$43.9 million, and \$800,000, respectively, as of September 30, 2025.

See Note 10 for information regarding the Partnership's allowance for credit losses.

#### *Activity in the First Nine Months of 2025*

During the nine months ended September 30, 2025, the following GILs were purchased by Freddie Mac through a servicer and all principal and accrued interest amounts due were paid in full:

| Property Name                        | Month Redeemed | Principal Proceeds    |
|--------------------------------------|----------------|-----------------------|
| Osprey Village                       | January 2025   | \$ 60,000,000         |

<sup>(1)</sup>The property loans are held in trust in connection with TOB trust financings (Note 13). The property loans and associated GILs are on parity and share a first mortgage lien position on all real and personal property associated with the underlying property. Affiliates of the borrowers have guaranteed limited-to-full payment of principal and accrued interest on the property loans. The borrowers may elect to extend the maturity dates by six months upon meeting certain conditions, which may include payment of a non-refundable extension fee.

<sup>(2)</sup>The interest rate will convert to a variable rate of Term SOFR + 3.35% on February 1, 2025.

<sup>(3)</sup>The property loan is held in trust in connection with a TOB trust financing (Note 13).

<sup>(4)</sup>The Sandoval Flats property loan was considered to be held-for-sale and reported at fair value, which approximated amortized cost as of December 31, 2024. The Partnership expects to sell the property loan into the Construction Lending JV in the future.

The Partnership has accrued interest receivable related to its property loans of approximately \$361,000 and approximately \$354,000 as of September 30, 2025 and December 31, 2024, respectively, that is reported as interest receivable, net in the Partnership's condensed consolidated balance sheets.

The Partnership has remaining commitments to provide additional funding of certain property loans on a draw-down basis during construction of the secured properties as of September 30, 2025. See Note 16 for further information regarding the Partnership's remaining property loan funding commitments.

See Note 10 for additional information regarding the Partnership's allowance for credit losses related to its property loans.

#### Activity in the First Nine Months of 2025

The following property loan principal payments were received during the nine months ended September 30, 2025:

| Property Name                     | Month Repaid | Principal Proceeds  |
|-----------------------------------|--------------|---------------------|
| Sandy Creek Apartments            | January 2025 | \$ 7,241,754        |

During the nine months ended September 30, 2025, the Partnership advanced funds of approximately \$1.2 million to Opportunity South Carolina to finance the funding of reserves, operating deficits and other operating expenses. Opportunity South Carolina is the borrower associated with The Park at Sondrio MRBs, The Park at Vietti MRBs, and the Windsor Shores Apartments MRBs. The property loan is in non-accrual status as of September 30, 2025 because interest payments under the loan are not required until maturity and operations at the related properties are stressed.

In June 2025, the Partnership advanced additional funds of \$6.0 million to the SoLa Impact Opportunity Zone Fund and the interest rate was changed to 9.00%. There were no additional changes to terms or fees associated with the additional loan proceeds and interest rate update.

#### Activity in the First Nine Months of 2024

In June 2024, the Partnership executed a property loan to The Centurion Foundation, Inc. in the amount of \$7.3 million to facilitate the purchase of a portfolio of nine essential healthcare support buildings located in eastern Pennsylvania that were then leased to an investment grade rated non-profit healthcare system. The Partnership's loan is subordinate to the senior debt of the borrower which is secured by a first priority security interest in master lease payments guaranteed by the healthcare system.

The following property loan principal payments were received during the nine months ended September 30, 2024:

| Property Name                        | Month Redeemed | Principal Proceeds   |
|--------------------------------------|----------------|----------------------|
| Legacy Commons at Signal Hills       | February 2024  | \$ 32,233,972        |

| Magnolia Heights                     | September 2024 | 8,118,546            |
|                                      |                | <u>\$ 80,895,334</u> |

In June 2024, the Partnership recognized a fee of approximately \$20,000 in other income in connection with an extension of the maturity date of the Magnolia Heights property loan to October 1, 2024.

#### 7. Investments in Unconsolidated Entities

The Partnership has non-controlling investments in unconsolidated entities. The Partnership applies the equity method of accounting by initially recording these investments at cost, subsequently adjusted for accrued preferred returns, the Partnership's share of earnings (losses) of the unconsolidated entities, cash contributions, and distributions. The carrying value of the equity investments represents the Partnership's maximum exposure to loss. The Partnership is entitled to a preferred return on invested capital in each unconsolidated entity. The Partnership's preferred return is reported as "Investment income" on the Partnership's condensed consolidated statements of operations.

An affiliate of the Vantage Properties guarantees a preferred return on the Partnership's invested capital through a date approximately five years after commencement of construction in connection with each Vantage Property.

The following table provides the details of the investments in unconsolidated entities as of September 30, 2025 and December 31, 2024:

<sup>(1)</sup>Valage Senior Living Carson Valley is a seniors housing property with 102 beds in 88 units.

<sup>(2)</sup>The Construction Lending JV invests in loans to finance the construction and/or rehabilitation of affordable multifamily housing properties across the United States, similar to the Partnership's current GIL, taxable GIL and property loan investments

In October 2024, the Partnership entered into the Construction Lending JV to invest in loans to finance the construction and/or rehabilitation of affordable multifamily housing properties across the United States, similar to the Partnership's current GIL, taxable GIL and property loan investments. The Partnership has committed to provide 10% of the total capital for the Construction Lending JV with the remainder funded by third-party investors with each party contributing their respective proportionate capital contributions upon funding of future investments. The Partnership's maximum capital contribution to the Construction Lending JV is approximately \$15.0 million as of September 30, 2025. A wholly owned subsidiary of the Partnership is the Construction Lending JV's managing member responsible for identifying, evaluating, underwriting, and closing investments, subject to the conditions of the joint venture and third-party investor evaluation and approval. The Partnership earns proportionate returns on its invested capital plus promote income if the joint venture meets certain earnings thresholds. The Partnership accounts for its investment in the Construction Lending JV using the equity method. The Partnership made its first capital contribution to the Construction Lending JV in April 2025.

The Partnership has remaining commitments to provide additional equity funding for certain unconsolidated entities as of September 30, 2025. See Note 16 for further details regarding the Partnership's remaining funding commitments.

The Partnership has remaining commitments to provide additional funding of taxable MRBs during construction of the secured properties as of September 30, 2025. See Note 16 for further information regarding the Partnership's remaining taxable GIL and taxable MRB funding commitments.

See Note 10 for information regarding the Partnership's allowance for credit losses related to its taxable GILs and taxable MRBs.

See Note 20 for a description of the methodology and significant assumptions for determining the fair value of derivative instruments, taxable MRBs, taxable GILs, and bond purchase commitments. Unrealized gains or losses on derivative instruments are reported as "Net result from derivative transactions" in the Partnership's condensed consolidated statements of operations. Unrealized gains and losses on taxable MRBs and bond purchase commitments are recorded in the Partnership's condensed consolidated statements of comprehensive income to reflect changes in their estimated fair values resulting from market conditions and fluctuations in the present value of the expected cash flows from the assets.

As of September 30, 2025, nine taxable MRBs and three taxable GILs with reported carrying values totaling approximately \$77.4 million were held in trust in connection with TOB trust financings (Note 13).

#### Activity in the First Nine Months of 2025

The following table includes details of the taxable MRBs acquired during the nine months ended September 30, 2025:

<sup>(1)</sup>The borrower re-allocated \$11.5 million of previously provided funding from a taxable MRB to a new MRB during the acquisition and rehabilitation phase of the property.

<sup>(2)</sup>The interest rate is subject to an all-in floor of 3.95%.

#### 10. Allowance for Credit Losses

##### Held-to-Maturity Debt Securities, Held-for-Investment Loans and Related Unfunded Commitments

The Partnership considers key credit quality indicators when estimating expected credit losses for assets recorded at amortized cost. Such assets primarily finance the construction or rehabilitation of affordable multifamily properties. The GILs are primarily repaid through a conversion to permanent financing pursuant to a forward commitment from Freddie Mac dependent on completion of construction and various other conditions that each property must meet. The property loans related to GILs are primarily to be repaid from future equity contributions by investors and other forward financing commitments provided by various parties. If Freddie Mac is not required to purchase the GIL and payment of the property loans from available sources is not made, the GIL and associated property loan will have defaulted, and the Partnership has the right to foreclose on the underlying property, the associated LIHTCs, and enforce the guaranty provisions against affiliates of the individual property borrower. Accordingly, the Partnership's key credit quality indicators include, but are not limited to, construction status of the property, financial strength of borrowers and guarantors, adequacy of capitalized interest reserves, lease up and occupancy of the property, the status of other conversion conditions, and operating results of the underlying property. The property loans secured by other multifamily properties are repaid through property operations or future sales proceeds.

The following table summarizes the changes in the Partnership's allowance for credit losses for the three and nine months ended September 30, 2025:

The Partnership recorded a provision for credit losses of approximately \$534,000 and a recovery of provision for credit losses of approximately \$226,000 for the three months ended September 30, 2025 and 2024, respectively. The net provision for credit losses for the three months ended September 30, 2025 includes an asset-specific allowance of approximately \$596,000 related to the Opportunity South Carolina property loan partially offset by a recovery due to a decrease in the weighted average life of the remaining investment portfolio. The decrease in the provision for credit losses for the three months ended September 30, 2024 is primarily due to GIL and

property loan redemptions, a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in the Partnership's model to estimate the allowance for credit losses.

The Partnership recorded a provision for credit losses of approximately \$708,000 and a recovery of provision for credit losses of approximately \$843,000 for the nine months ended September 30, 2025 and 2024, respectively. The provision for credit losses for the nine months ended September 30, 2025 includes an asset-specific allowance of approximately \$1.2 million related to the Opportunity South Carolina property loan, partially offset by a recovery due to GIL and property loan redemptions and a decrease in the weighted average life of the remaining investment portfolio. The decrease in the provision for credit losses for the nine months ended September 30, 2024 is primarily due to GIL and property loan redemptions, a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in the Partnership's model to estimate the allowance for credit losses. The provision for credit losses for the nine months ended September 30, 2024 also includes the recovery of approximately \$169,000 of prior credit losses in connection with final settlement of the bankruptcy estate of the Provision Center 2014-1 MRB.

### **Risk Ratings**

The Partnership evaluates all GILs, taxable GILs and property loans on a quarterly basis and assigns a risk rating based upon management's assessment of the borrower's ability to pay debt service and the likelihood of repayment through the GIL's conversion to Freddie Mac financing and the property loan's payment from future equity contribution commitments. The assessment is subjective and based on multiple factors, including but not limited to, construction status of the property, financial strength of borrowers and guarantors, adequacy of capitalized interest reserves, lease up and occupancy of the property, the status of other conversion conditions, and operating results of the underlying property. The credit risk analysis and rating assignment is performed quarterly in conjunction with the Partnership's assessment of its allowance for credit losses. The Partnership uses the following definitions for its risk ratings:

- Performing – The underlying property currently meets or exceeds management's performance expectations and metrics. There are currently no material indicators that current debt service or repayment of the GILs, taxable GILs, and property loans is at risk.
- Watch – The underlying property associated with the GILs, taxable GILs, and property loans currently has certain performance or other risk factors that require specific attention from management. The Partnership could experience loss if these factors are not resolved in a timely or satisfactory manner. The Partnership currently estimates that such factors will be adequately resolved and that current debt service and final repayment of the GILs, taxable GILs, and property loans is not at material risk.
- Nonperforming – The underlying property associated with the GILs, taxable GILs, and property loans is not current on debt service payments and/or has material performance or other risk factors. The Partnership currently believes that full collection of debt service and final repayment is questionable and/or improbable.

The following tables summarize the Partnership's carrying value by acquisition year, grouped by risk rating as of September 30, 2025 and December 31, 2024:

The Partnership evaluates its outstanding principal and interest receivable balances associated with its GILs, taxable GILs, and property loans for collectability. If collection of these balances is not probable, the loan is placed on non-accrual status and either an asset-specific allowance for credit loss will be recognized or the outstanding balance will be written off. There are no GILs, taxable GILs, or property loans that are currently past due on contractual debt service payments and the Partnership considered all GILs, taxable GILs and property loans to be performing as of September 30, 2025, except as noted below. The Partnership currently has three property loans on nonaccrual status.

During the nine months ended September 30, 2025 and 2024, the interest to be earned on the Live 929 Apartments property loan was in nonaccrual status. The discounted cash flow method used by management to establish the net realizable value of the property

loan determined the collection of the interest accrued was not probable and the loan is considered to be nonperforming. The Live 929 Apartments property loan has outstanding principal of approximately \$495,000 as of September 30, 2025 and December 31, 2024, which was fully reserved with an asset-specific allowance.

In December 2022, the Partnership received a property loan in exchange for the sale of its 100% interest in The 50/50 MF Property. The property loan is unsecured, will be repaid from net cash flows of the property, and is subordinate to the mortgage debt of the property which was assumed by the buyer. The property loan is in non-accrual status as of September 30, 2025 because payments under the loan are not required immediately and are expected to be paid from future net cash flows of the property. As such, the loan is considered to be performing. The property loan associated with the 50/50 MF Property had outstanding principal of approximately \$7.1 million as of September 30, 2025 and December 31, 2024.

During the nine months ended September 30, 2025, the Partnership advanced funds of approximately \$1.2 million to Opportunity South Carolina to finance the funding of reserves, operating deficits and other operating expenses. Opportunity South Carolina is the borrower associated with The Park at Sondrio MRBs, The Park at Vietti MRBs, and Windsor Shores Apartments MRBs. The property loan is in non-accrual status as of September 30, 2025 because interest payments under the loan are not required until maturity and it is uncertain if the underlying properties will generate sufficient cash flows to pay accrued interest. The loan is considered to be nonperforming and was fully reserved with an asset-specific allowance as of September 30, 2025.

#### Available-for-Sale Debt Securities

The Partnership records impairments for MRBs and taxable MRBs through an allowance for credit losses for the portion of the difference between the estimated fair value and amortized cost that is related to expected credit losses. The following table summarizes the changes in the Partnership's allowance for credit losses for the three and nine months ended September 30, 2025 and 2024:

<sup>(1)</sup>During the nine months ended September 30, 2025, the Partnership recognized a provision for credit loss of approximately \$8.7 million related to The Park at Sondrio MRB and taxable MRB, The Park at Vietti MRB and taxable MRB, and Windsor Shores Apartments MRB and taxable MRB. The credit loss was driven primarily by worse than projected operating results, financial conditions of the borrowers, and estimated underlying collateral values.

<sup>(2)</sup>In connection with the final settlement of the bankruptcy estate of the Provision Center 2014-1 MRB in July 2024, the Partnership recovered approximately \$169,000 of its previously recognized allowance for credit loss and the remainder of the allowance associated with the MRB was written off.

<sup>(3)</sup>The Partnership compared the present value of cash flows expected to be collected to the amortized cost basis of the Live 929 Apartments Series 2022A MRB, which indicated a recovery of value. As the recovery was identified prior to the effective date of the CECL standard, the Partnership will accrete the recovery of prior credit loss into investment income over the term of the MRB.

<sup>(4)</sup>The allowance for credit losses as of September 30, 2025 was related to the Live 929 Apartments – 2022A MRB, The Park at Sondrio MRB and taxable MRB, The Park at Vietti MRB and taxable MRB, and Windsor Shores Apartments MRB and taxable MRB. The allowance for credit losses as of September 30, 2024 was related to the Live 929 Apartments – 2022A MRB.

#### 11. Accounts Payable, Accrued Expenses and Other Liabilities

### General LOC

The Partnership has entered into a Secured Credit Agreement with a commitment of up to \$50.0 million for the General LOC. The aggregate available commitment cannot exceed a borrowing base calculation, that is equal to 35% multiplied by the aggregate value of a pool of eligible encumbered assets. Eligible encumbered assets consist of 100% of the Partnership's capital contributions to equity investments, seniors housing investments, and other real estate investments, subject to certain restrictions. The proceeds of the General LOC will be used by the Partnership to purchase additional investments and to meet general working capital and liquidity requirements. The Partnership may borrow, prepay and reborrow amounts at any time through the maturity date, subject to the limitations of the borrowing base. As of September 30, 2025, the borrowing base exceeded \$50.0 million.

The General LOC is currently secured by first priority security interests in the Partnership's investments in unconsolidated entities. In addition, an affiliate of the Partnership, Greystone Select, has provided a deficiency guaranty of the Partnership's obligations under the Secured Credit Agreement. Greystone Select is subject to certain covenants and was in compliance with such covenants as of September 30, 2025. No fees were paid to Greystone Select related to the deficiency guaranty agreement.

The Partnership is subject to various affirmative and negative covenants under the Secured Credit Agreement that, among others, require the Partnership to maintain a minimum liquidity of not less than \$6.3 million and maintain a minimum consolidated tangible net worth of \$200.0 million. The Partnership may increase the maximum commitment from \$50.0 million to \$60.0 million in total, subject to the identification of lenders to provide the additional commitment, the payment of certain fees, and other conditions. The minimum liquidity covenant will increase from the current \$6.3 million requirement to up to \$7.5 million upon increases in the maximum commitment amount. The Partnership was in compliance with all covenants as of September 30, 2025.

### Acquisition LOC

The Acquisition LOC has a commitment of up to \$80.0 million that may be used to fund purchases of Financed Assets consisting of multifamily real estate, tax-exempt or taxable MRBs, and tax-exempt or taxable loans issued to finance the acquisition, rehabilitation, or construction of affordable housing or which are otherwise secured by real estate, mortgage-backed securities, or master lease agreements guaranteed by investment grade tenants. The Financed Assets acquired with the proceeds of the Acquisition LOC will be held in a custody account and the outstanding balances of the Acquisition LOC will be secured by a first priority interest in the Financed Assets and will be maintained in the custody account until released by the administrative agent.

Advances on the Acquisition LOC are due on the 270<sup>th</sup> day following the advance date but may be extended for up to three additional 90-day periods, but in no event later than the maturity date by providing the administrative agent with a written request for such extension together with a principal payment of 5% of the principal amount of the original acquisition advance for the first such extension, 10% for the second such extension, and 20% for the third such extension. Advances made for tax-exempt or taxable loans secured by master lease agreements guaranteed by investment grade tenants are due on the 45th day following such advance. The Partnership is subject to various affirmative and negative covenants related to the Acquisition LOC, with the principal covenant being that the Partnership's Leverage Ratio (as defined by the Partnership) will not exceed a specific percentage. The Partnership was in compliance with all covenants as of September 30, 2025.

<sup>(1)</sup> The tax treatment of interest paid to the trust senior trust securities is dependent on the structure of the debt financing. Debt financings designated as "tax-exempt" in the table above are such that the Partnership expects and believes the interest on the senior securities is exempt from federal income taxes, which typically requires a lower remarketing rate to place the senior securities at each weekly reset.

<sup>(2)</sup> The remarketing senior securities rate is the market interest rate determined by the remarketing agent to ensure all senior securities tendered by holder for weekly remarketing are purchased at par.

<sup>(3)</sup> The Partnership has restricted cash totaling approximately \$8.5 million related to its ISDA master agreement with Mizuho based on Mizuho's valuations of the underlying assets and the Partnership's derivative financial instruments.

(4)The TOB trust is securitized by three MRBs and nine taxable MRBs.

(5)The TOB trust is securitized by the Poppy Grove I taxable GIL, Poppy Grove II taxable GIL and Poppy Grove III taxable GILs.

(1)The tax treatment of interest paid to the trust senior trust securities is dependent on the structure of the debt financing. Debt financings designated as “tax-exempt” in the table above are such that the Partnership expects and believes the interest on the senior securities is exempt from federal income taxes, which typically requires a lower remarketing rate to place the senior securities at each weekly reset.

(2)The remarketing senior securities rate is the market interest rate determined by the remarketing agent to ensure all senior securities tendered by holder for weekly remarketing are purchased at par.

(3)The Partnership has restricted cash totaling approximately \$15.8 million related to its ISDA master agreement with Mizuho based on Mizuho’s valuations of the underlying assets and the Partnership’s derivative financial instruments.

(4)The TOB trust is securitized by three MRBs, nine taxable MRBs, and one property loan.

(5)The TOB trust is securitized by the Willow Place GIL & Supplemental GIL, Poppy Grove I taxable GIL, Poppy Grove II taxable GIL and Poppy Grove III taxable GIL.

The TOBs, term TOB, TEBS Financings, TEBS Residual Financing, and 2024 PFA Securitization Transaction are consolidated VIEs of the Partnership (Note 3). The Partnership is the primary beneficiary due to its rights to the underlying assets. Accordingly, the Partnership consolidates the TOB, term TOB, TEBS Financings, TEBS Residual Financing, and 2024 PFA Securitization Transaction on the Partnership's condensed consolidated financial statements. See information regarding the MRBs, GILs, property loans, taxable MRBs and taxable GILs securitized within the TOB, term TOB, TEBS Financings, TEBS Residual Financing, and 2024 PFA Securitization Transaction in Notes 4, 5, 6 and 9, respectively.

As the residual interest holder in the TOBs, term TOB, and TEBS Financings, the Partnership may be required to make certain payments or contribute certain assets to the VIEs if certain events occur. Such events include, but are not limited to, a downgrade in the investment rating of the senior securities issued by the VIEs, a ratings downgrade of the liquidity provider for the VIEs, increases in short term interest rates beyond pre-set maximums, an inability to re-market the senior securities, or an inability to obtain liquidity for the senior securities. If such an event occurs in an individual VIE, the Partnership may be required to deleverage the VIE by repurchasing some or all of the senior securities. Otherwise, the underlying collateral will be sold and, if the proceeds are not sufficient to pay the principal amount of the senior securities plus accrued interest and other trust expenses, the Partnership will be required to fund any such shortfall. If the Partnership does not fund the shortfall, the default and liquidation provisions will be invoked against the Partnership. The shortfall on each TEBS financing is limited to the Partnership's residual interest. The Partnership has never been, and does not expect in the future, to be required to reimburse the VIEs for any shortfall.

As the residual interest holder in the TEBS Residual Financing and 2024 PFA Securitization Transaction, the Partnership may make certain payments or contribute certain assets to the VIE to prevent a default under the arrangement or related credit enhancement. If the Partnership does not or is unable to cure the default, the default and liquidation provisions will be invoked and the underlying assets will be sold, which may result in the Partnership's residual interest not being recovered.

The Partnership has entered into various TOB trust financings with Mizuho and Barclays secured by various investment assets. The TOB trusts with Mizuho and Barclays are subject to respective ISDA master agreements that contain certain covenants and requirements. The TOB trust financings with Mizuho and Barclays require that the Partnership's residual interests must maintain a certain value in relation to the total assets in each TOB trust. The Mizuho and Barclays master agreements also require the Partnership's partners' capital, as defined, to maintain a certain threshold and that the Partnership remain listed on a national securities exchange. The master agreement with Barclays also puts limits on the Partnership's Leverage Ratio (as defined by the Partnership). In addition, both Mizuho and Barclays master agreements specify that default(s) on the Partnership's other senior debts above a specified dollar amount, in the aggregate, will constitute a default under the master agreement. If the Partnership is not in compliance with any of these covenants, a termination event of the financing facilities would be triggered. The Partnership was in compliance with these covenants as of September 30, 2025.

The Partnership is subject to mark-to-market collateral posting provision for positions under the ISDA master agreements with Mizuho and Barclays related to the TOB Trusts. The amount of collateral posting required is dependent on the valuation of the securitized assets and interest rate swaps (Note 15) in relation to thresholds set by Mizuho and Barclays at the initiation of each transaction. The Partnership had posted approximately \$8.5 million and \$15.8 million of cash collateral with Mizuho as of September 30, 2025 and December 31, 2024, respectively. There was no required cash collateral posted with Barclays as of September 30, 2025 or December 31, 2024.

As of September 30, 2025 and December 31, 2024, the Partnership posted restricted cash as contractually required under the terms of the TEBS Financings.

The Partnership's variable rate debt financing arrangements include maximum interest rate provisions that prevent the debt service on the debt financings from exceeding the cash flows from the underlying securitized assets.

## Activity in the First Nine Months of 2025

In February 2025, the Partnership deposited the re-allocated GIL principal of Poppy Grove I, Poppy Grove II, and Poppy Grove III (Note 5) into the TOB financing Trust 2021-XF2953 and received debt financing proceeds of approximately \$10.2 million. The proceeds were used to paydown debt associated with the Poppy Grove I, Poppy Grove II, and Poppy Grove III taxable GILs that were also within the TOB financing Trust 2021-XF2953.

In March 2025, the Partnership transferred the re-allocated GIL principal of Poppy Grove I, Poppy Grove II, and Poppy Grove III (Note 5) from TOB financing Trust 2021-XF2953 to the respective Poppy Grove I GIL, Poppy Grove II GIL, and Poppy Grove III GIL TOB Trust financings for proceeds of \$10.2 million.

The values of the Partnership's interest rate swaps are subject to mark-to-market collateral posting provisions in conjunction with the Partnership's respective ISDA master agreements with Mizuho and Barclays. See Note 20 for a description of the methodology and significant assumptions for determining the fair value of the derivatives. The derivative instruments are presented within "Other assets" and "Accounts payable, accrued expenses and other liabilities" in the Partnership's condensed consolidated balance sheets.

### Interest Rate Swap Agreements

The Partnership has entered into multiple interest rate swap agreements to mitigate interest rate risk associated with variable rate TOB trust financings. No fees were paid to the counterparties upon closing of the interest rate swaps. The Partnership previously entered into an interest rate cap agreement to mitigate its exposure to interest rate risk associated with a variable rate debt financing facility.

The following tables summarize the Partnership's interest rate derivative agreements as of September 30, 2025 and December 31, 2024:

## 16. Commitments and Contingencies

### Legal Proceedings

The Partnership, from time to time, is subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are frequently covered by insurance. If it has been determined that a loss is probable to occur and the amount of the loss can be reasonably estimated, the estimated amount of the loss is accrued in the Partnership's condensed consolidated financial statements. If the Partnership determines that a loss is reasonably possible, the Partnership will, if material, disclose the nature of the loss contingency and the estimated range of possible loss, or include a statement that no estimate of loss can be made. While the resolution of these matters cannot be predicted with certainty, the Partnership currently believes there are no pending legal proceedings in which the Partnership is currently involved the outcome of which will have a material effect on the Partnership's financial condition, results of operations, or cash flows.

### Bond Purchase Commitments

The Partnership may enter into bond purchase commitments related to MRBs to be issued and secured by properties under construction. Upon execution of the bond purchase commitment, the proceeds from the MRBs will be used to pay off the construction related debt. The Partnership bears no construction or stabilization risk during the commitment period. The Partnership accounts for its bond purchase commitments as available-for-sale securities and reports the asset or liability at fair value. Changes in the fair value of bond purchase commitments are recorded as gains or losses on the Partnership's condensed consolidated statements of comprehensive income (loss). The Partnership had no bond purchase commitments as of December 31, 2024. The following table summarizes the Partnership's bond purchase commitments as of September 30, 2025:

| Bond Purchase Commitments | Commitment Date | Maximum Committed Amounts Remaining | Interest Rate | Estimated Closing Date | Fair Value as of September 30, 2025 |
|---------------------------|-----------------|-------------------------------------|---------------|------------------------|-------------------------------------|
| Kindred Apartments        | March 2025      | \$ 21,921,000                       | 6.875%        | December 2027          | \$ 2,576,081                        |

### Investment Commitments

The Partnership has remaining contractual commitments to provide additional funding of certain MRBs, taxable MRBs, and property loans while the secured properties are under construction, rehabilitation, or predevelopment. See Note 10 for additional information on the allowance for credit losses on such commitments. The Partnership also has outstanding contractual commitments to contribute additional equity to unconsolidated entities. The following table summarizes the Partnership's total and remaining commitments as of September 30, 2025:

<sup>(1)</sup>Upon stabilization, the MRB will convert to a fixed rate of 10.00% and become subordinate to the other senior MRBs of the borrower.

<sup>(2)</sup>The borrowers may elect to extend the maturity date for a period ranging between six and twelve months upon meeting certain conditions, which may include payment of a non-refundable extension fee.

<sup>(3)</sup>The property became a consolidated VIE effective during the fourth quarter of 2021 (Note 3).

<sup>(4)</sup>A development site has been identified for this property but construction had not commenced as of September 30, 2025.

In addition, the Partnership is committed to funding 10% of the capital for the Construction Lending JV with the remainder to be funded by a third-party investor with each party contributing its proportionate capital contributions upon funding of future investments. The Partnership's capital is contributed on a draw-down basis over the term of the underlying investments of the Construction Lending JV. As of September 30, 2025, the Partnership had contributed approximately \$329,000 of its maximum capital commitment of

approximately \$15.0 million. The Partnership's maximum commitment may increase if additional third-party capital commitments are made to the Construction Lending JV.

#### Construction Loan Guaranties

The Partnership entered into limited guaranty agreements for bridge loans related to certain investments in unconsolidated entities. The Partnership will only have to perform on the guaranties if a default by the borrower were to occur. The Partnership has not accrued any amount for these contingent liabilities because the Partnership believes the likelihood of guaranty claims is remote. The following table summarizes the Partnership's maximum exposure under these guaranty agreements as of September 30, 2025:

| Borrower                  | Guaranty Maturity | Maximum Balance Available on Loan | Loan Balance as of September 30, 2025 | Partnership's Maximum Exposure as of September 30, 2025 | Guaranty Terms |

| Vantage at Loveland       | 2026              | 47,000,000                        | 47,000,000                            | \$ 23,500,000                                           | (1)            |

(1) The Partnership's guaranty is for 50% of the loan balance. The Partnership has guaranteed up to 100% of the outstanding loan balance upon the occurrence of fraud or other willful misconduct by the borrower or if the borrower voluntarily files for bankruptcy. The guaranty agreement requires the Partnership to maintain a minimum net worth of not less than \$100.0 million and maintain liquid assets of not less than \$6.3 million at the end of each quarter. The Partnership was in compliance with these requirements as of September 30, 2025. The Partnership has also provided indemnification to the lender for various costs including interest expenses, environmental non-compliance and remediation during the term. The Partnership has also provided indemnification to the lender for Vantage at McKinney Falls and Vantage at Loveland for certain operating costs.

#### Other Guaranties and Commitments

The Partnership has entered into guaranty agreements with unaffiliated entities under which the Partnership has guaranteed certain obligations of the general partners of certain limited partnerships upon the occurrence of a "repurchase event." Potential repurchase events include LIHTC recapture and foreclosure. The Partnership's maximum exposure is limited to 75% of the equity contributed by the limited partner to each limited partnership. No amount has been accrued for these guaranties because the Partnership believes the likelihood of repurchase events is remote. The following table summarizes the Partnership's maximum exposure under these guaranty agreements as of September 30, 2025:

| Limited Partnership(s)  | End of Guaranty Period | Partnership's Maximum Exposure as of September 30, 2025 |
|-------------------------|------------------------|---------------------------------------------------------|
| Ohio Properties         | 2026                   | \$ 1,609,695                                            |
| Greens of Pine Glen, LP | 2027                   | 1,278,767                                               |

In December 2022, the Partnership sold 100% of its ownership interest in The 50/50 MF Property to an unrelated non-profit organization. The buyer assumed two mortgages payable associated with the property and the Partnership agreed to provide certain recourse support for the assumed mortgages. The TIF Loan was paid off in June 2024, and the Partnership does not have exposure as of September 30, 2025. The mortgage support is in the form of a forward loan purchase agreement upon maturity of the mortgage. The reported value of the credit guaranty was approximately \$312,000 and \$319,000 as of September 30, 2025 and December 31, 2024, respectively, and are included within other liabilities in the Partnership's condensed consolidated balance sheets. No additional contingent liability has been accrued because the likelihood of claims is remote. The Partnership's remaining forward loan purchase agreement expires in 2027 and its maximum exposure as of September 30, 2025 was approximately \$20.8 million.

The Partnership has entered into various forward loan purchase agreements associated with construction loans for its investments in unconsolidated entities. Under these agreements, the Partnership will purchase a loan from the construction lender at maturity of the construction loan, which is typically five to seven years from closing, if not otherwise repaid by the borrower entity. The Partnership has the right to cure any defaults under the construction loan agreement that otherwise could accelerate the maturity of the construction loan. In addition, if the Partnership is required to perform under a forward loan purchase agreement, then it has the right to remove the managing member of the borrower entity, take ownership of the underlying property, and either sell the property or obtain replacement financing. Certain forward loan purchase agreements are only effective upon the receipt by the property of a certificate of occupancy by the borrower entity while others are effective as of the construction loan closing. The Partnership has recourse to the managing member of the borrower entity and/or the project's general contractor for those agreements that are effective prior to the receipt of a certificate of occupancy. Total construction loan balances associated with effective forward loan purchase agreements are \$87.6 million as of September 30, 2025. The Partnership has not recorded any non-contingent or contingent liabilities related to the forward loan purchase agreements as such amounts are deemed minimal.

## 17. Redeemable Preferred Units

The Partnership has designated three series of non-cumulative, non-voting, non-convertible Preferred Units that represent limited partnership interests in the Partnership consisting of the Series A Preferred Units, the Series A-1 Preferred Units, and the Series B Preferred Units. The Preferred Units have no stated maturity, are not subject to any sinking fund requirements, and will remain outstanding indefinitely unless redeemed by the Partnership or by the holder. If declared by the General Partner, distributions to the holders of Series A Preferred Units, Series A-1 Preferred Units, and Series B Preferred Units, are paid quarterly at annual fixed rates of 3.0%, 3.0% and 5.75%, respectively. The Partnership did not have any outstanding Series A Preferred Units as of September 30, 2025 and does not expect to issue any new Series A Preferred Units in the future.

The Partnership filed a registration statement on Form S-3 for the registration of up to 10,000,000 of Series B Preferred Units, which was declared effective by the SEC on September 27, 2024. The Partnership has issued 2,000,000 Series B Preferred Units under this offering as of September 30, 2025.

The following table summarizes the Partnership's outstanding Preferred Units as of September 30, 2025 and December 31, 2024:

## 18. Restricted Unit Awards

The Partnership's Equity Incentive Plan permitted the grant of restricted units and other awards to the employees of Greystone Manager, the Partnership, or any affiliate of either, and members of the Board of Managers for up to 1.0 million BUCs. The Partnership's Equity Incentive Plan expired in June 2025 and, as of the date of this report, there are no restricted units or other awards available for future issuance under the Equity Incentive Plan. RUAs were granted with vesting conditions ranging from three months to up to four and a half years. Unvested RUAs are entitled to receive distributions during the restriction period. The Equity Incentive Plan provides for accelerated vesting of the RUAs if there is a change in control related to the Partnership, the General Partner, or the general partner of the General Partner, or upon death or disability of the Equity Incentive Plan participant. According to the terms of the Equity Incentive Plan, awards granted prior to the expiration of the plan extend beyond such expiration date.

The fair value of each RUA was estimated on the grant date based on the Partnership's exchange-listed closing price of the BUCs. The Partnership recognizes compensation expense for the RUAs on a straight-line basis over the requisite vesting period. The compensation expense for RUAs totaled approximately \$748,000 and \$565,000 for the three months ended September 30, 2025 and 2024, respectively. The compensation expense for RUAs totaled approximately \$1.5 million for the nine months ended September 30, 2025 and 2024. Compensation expense is reported within "General and administrative expenses" on the Partnership's condensed consolidated statements of operations.

The following table summarizes the RUA activity for the nine months ended September 30, 2025 and for the year ended December 31, 2024:

|                                   | Restricted Units<br>Awarded | Weighted average<br>Grant-date<br>Fair Value |

| Forfeited                         | (17,816)                    | 14.44                                        |
| Unvested as of September 30, 2025 | 411,227                     | \$ 13.30                                     |

The unrecognized compensation expense related to unvested RUAs granted under the Equity Incentive Plan was approximately \$3.2 million as of September 30, 2025. The remaining compensation expense is expected to be recognized over a weighted average period of 1.6 years. The total intrinsic value of unvested RUAs was approximately \$4.2 million as of September 30, 2025.

## 19. Transactions with Related Parties

The Partnership incurs costs for services and makes contractual payments to the General Partner, Greystone Manager, and their affiliates. The costs are reported either as expenses or capitalized costs depending on the nature of each item. The following table summarizes transactions with related parties that are reported in the Partnership's condensed consolidated financial statements for the three and nine months ended September 30, 2025 and 2024:

|                                                                                                  | For the Three Months Ended September<br>30, |              | For the Nine Months Ended September<br>30, |              |

<sup>(1)</sup>The General Partner is entitled to receive an administrative fee from the Partnership equal to 0.45% per annum of the outstanding principal balance of any of its investment assets for which the owner of the financed property or other third party is not obligated to pay such administrative fee directly to the General Partner. The disclosed amounts represent administrative fees paid or accrued during the periods specified and are reported within "General and administrative expenses" on the Partnership's condensed consolidated statements of operations.

<sup>(2)</sup>The Partnership pays franchise margin taxes on revenues in Texas related to its investments in unconsolidated entities. Such taxes are paid by the Partnership as the unconsolidated entities are required by tax regulations to be included in the Partnership's group franchise tax return. Since the Partnership is reimbursed for the franchise margin taxes paid on behalf of the unconsolidated entities, these taxes are not reported on the Partnership's condensed consolidated statements of operations.

<sup>(3)</sup>The Partnership has an agreement with an affiliate of Greystone, in which the Greystone affiliate is entitled to receive a referral fee up to 0.25% of the original principal amount of executed tax-exempt loan or tax-exempt bond transactions introduced to the Partnership by the Greystone affiliate. The term of the agreement

ends December 31, 2025, unless the parties mutually agree to extend the term. The Partnership accounts for referral fees as bond acquisition costs that are deferred and amortized as a yield adjustment to the related investment asset.

<sup>(4)</sup> Greystone Servicing, an affiliate of the Partnership, is the servicer for the 2024 PFA Securitization Bonds.

The General Partner receives fees from the borrowers and sponsors of the Partnership's investment assets for services provided to the borrower and based on the occurrence of certain investment transactions. These fees were paid by the borrowers or sponsors and are not reported in the Partnership's condensed consolidated financial statements. The following table summarizes transactions between borrowers of the Partnership's affiliates for the three and nine months ended September 30, 2025 and 2024:

|                                                                                 | For the Three Months Ended September 30, |         | For the Nine Months Ended September 30, |              |

<sup>(1)</sup> The General Partner received placement fees in connection with the acquisition of certain MRBs, taxable MRBs, GILs, taxable GILs and property loans and investments in unconsolidated entities.

As of September 30, 2025, Greystone Servicing, an affiliate of the Partnership, has forward committed to purchase four of the Partnership's GILs (Note 5), once certain conditions are met, at a price equal to the outstanding principal plus accrued interest. Greystone Servicing is committed to then immediately sell the GILs to Freddie Mac pursuant to a financing commitment between Greystone Servicing and Freddie Mac. Greystone Servicing purchased the following GILs during the nine months ended September 30, 2025, including principal and accrued interest:

- Willow Place GIL for approximately \$20.8 million in January 2025;
- Osprey Village GIL for approximately \$60.4 million in January 2025; and
- Legacy Commons at Signal Hills for approximately \$34.8 million in May 2025.

An affiliate of the Partnership, Greystone Bridge Lending Fund Manager LLC, entered into an investment management agreement in October 2024 to provide various investment management services for the Construction Lending JV. Investment management fees of approximately \$3,000 and \$6,000 by the Construction Lending JV were paid to Greystone Bridge Lending Fund Manager LLC during the three and nine months ended September 30, 2025, respectively.

The Partnership invests in certain GILs, taxable GILs, and property loans with the expectation that the related investments will be sold to the Construction Lending JV at a future date. The Partnership also executes interest rate swap agreements in which it expects to novate the swap to the Construction Lending JV upon the sale of the related investment asset. During the nine months ended September 30, 2025, the Partnership sold approximately \$7.5 million of assets to the Construction Lending JV consisting of a GIL (Note 5) and taxable GIL (Note 9) at par plus accrued interest. The Partnership also novated one interest rate swap to the Construction Lending JV with a notional value of \$5.6 million for nominal proceeds.

Greystone Select, an affiliate of the Partnership, has provided a deficiency guaranty of the Partnership's obligations under the Secured Credit Agreement related to the Partnership's General LOC (Note 12). The guaranty is enforceable if an event of default occurs, the administrative agent takes certain actions in relation to the collateral and the amounts due under the Secured Credit Agreement are not collected within a certain period of time after the commencement of such actions. No fees were paid to Greystone Select related to the deficiency guaranty agreement.

The Partnership reported receivables due from unconsolidated entities of approximately \$154,000 and \$98,000 as of September 30, 2025 and December 31, 2024, respectively. These amounts are reported within "Other assets" in the Partnership's condensed consolidated balance sheets. The Partnership had outstanding liabilities due to related parties totaling approximately \$596,000 and \$1,182,000 as of September 30, 2025 and December 31, 2024, respectively. These amounts are reported within "Accounts payable, accrued expenses and other liabilities" on the Partnership's condensed consolidated balance sheets.

## 20. Fair Value of Financial Instruments

Current accounting guidance on fair value measurements establishes a framework for measuring fair value and provides for expanded disclosures about fair value measurements. The guidance:

- Defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date; and
- Establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability on the measurement date.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. To increase consistency and comparability in fair value measurements and related disclosures, the fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The three levels of the hierarchy are defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 inputs are unobservable inputs for assets or liabilities.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for the assets and liabilities measured at fair value on a recurring basis.

### *Investments in MRBs, Taxable MRBs and Bond Purchase Commitments*

The fair value of the Partnership's investments in MRBs, taxable MRBs and bond purchase commitments as of September 30, 2025 and December 31, 2024, is based upon prices obtained from third-party pricing services, which are estimates of market prices. There is no active trading market for these securities, and price quotes for the securities are not available. The valuation methodology of the Partnership's third-party pricing services incorporates commonly used market pricing methods. The valuation methodology considers the underlying characteristics of each security as well as other quantitative and qualitative characteristics including, but not limited to, market interest rates, illiquidity, legal structure of the borrower, collateral, seniority to other obligations, operating results of the underlying property, geographic location, and property quality. These characteristics are used to estimate an effective yield for each security. The security fair value is estimated using a discounted cash flow and yield to maturity or call analysis by applying the effective yield to contractual cash flows. Significant increases (decreases) in the effective yield would have resulted in a significantly lower (higher) fair value estimate. Changes in fair value due to an increase or decrease in the effective yield do not impact the Partnership's cash flows.

The Partnership evaluates pricing data received from the third-party pricing services by evaluating consistency with information from either the third-party pricing services or public sources. The fair value estimates of the MRBs, taxable MRBs and bond purchase commitments are based largely on unobservable inputs believed to be used by market participants and requires the use of judgment on the part of the third-party pricing services and the Partnership. Due to the judgments involved, the fair value measurements of the Partnership's investments in MRBs, taxable MRBs and bond purchase commitments are categorized as Level 3 assets.

The range of effective yields and weighted average effective yields of the Partnership's investments in MRBs, taxable MRBs and bond purchase commitments as of September 30, 2025 and December 31, 2024 are as follows:

## Derivative Instruments

The effect of the Partnership's interest rate swap agreements is to change a variable rate debt obligation to a fixed rate for that portion of the debt equal to the notional amount of the derivative agreement. The Partnership uses a third-party pricing service that incorporates commonly used market pricing methods to value the interest rate swaps. The fair value is based on a model that considers observable indices and observable market trades for similar arrangements and therefore the interest rate swaps are categorized as Level 2 assets or liabilities.

The effect of the Partnership's interest rate cap was to set a cap, or upper limit, subject to performance of the counterparty, on the base rate of interest paid on the Partnership's variable rate debt financings equal to the notional amount of the derivative agreement. The Partnership used a third-party pricing service to value the interest rate cap. The inputs into the interest rate cap agreements valuation model included SOFR rates, unobservable adjustments to account for the SIFMA index, as well as any recent interest rate cap trades with similar terms. The fair value was based on a model with inputs that are not observable and therefore the interest rate cap is categorized as a Level 3 asset.

Assets and liabilities measured at fair value on a recurring basis as of September 30, 2025 are summarized as follows:

The Partnership considered the Natchitoches Thomas Apartments GIL and taxable GIL to be available-for-sale securities as of December 31, 2024. The Partnership also considered the Sandoval Flats property loan to be held-for-sale as of September 30, 2025 and December 31, 2024. These assets are reported at fair value as of each reporting date, which in all cases, approximated the carrying value with no unrealized gains or losses.

Total gains and losses included in earnings for the derivative instruments are reported within "Net result from derivative transactions" in the Partnership's condensed consolidated statements of operations.

As of September 30, 2025 and December 31, 2024, the Partnership utilized a third-party pricing service to determine the fair value of the Partnership's GILs, taxable GILs, and construction financing property loans that share a first mortgage lien with the GILs, which is an estimate of their market price. The valuation methodology of the Partnership's third-party pricing service incorporates commonly used market pricing methods. The valuation methodology considers the underlying characteristics of the GILs and property loans as well as other quantitative and qualitative characteristics including, but not limited to, the progress of construction and operations of the

underlying properties, and the financial capacity of guarantors. The valuation methodology also considers the probability that conditions for the execution of forward commitments to purchase the GILs will be met. Due to the judgments involved, the fair value measurements of the Partnership's GILs, taxable GIL, and construction financing property loans are categorized as Level 3 assets. The estimated fair value of the GILs and taxable GILs was \$122.5 million and \$43.8 million as of September 30, 2025, respectively. The estimated fair value of the GILs and taxable GILs was \$226.7 million and \$13.9 million as of December 31, 2024, respectively. The fair value of the construction financing property loans approximated amortized cost as of September 30, 2025 and December 31, 2024.

As of September 30, 2025 and December 31, 2024, the Partnership utilized a third-party pricing service to determine the fair value of the Partnership's financial liabilities, which are estimates of market prices. The valuation methodology of the Partnership's third-party pricing service incorporates commonly used market pricing methods. The valuation methodology considers the underlying characteristics of each financial liability as well as other quantitative and qualitative characteristics including, but not limited to, market interest rates, legal structure, seniority to other obligations, operating results of the underlying assets, and asset quality. The financial liability values are then estimated using a discounted cash flow and yield to maturity or call analysis.

The Partnership evaluates pricing data received from the third-party pricing service, including consideration of current market interest rates, quantitative and qualitative characteristics of the underlying collateral, and other information from either the third-party pricing service or public sources. The fair value estimates of these financial liabilities are based largely on unobservable inputs believed to be used by market participants and require the use of judgment on the part of the third-party pricing service and the Partnership. Due to the judgments involved, the fair value measurements of the Partnership's financial liabilities are categorized as Level 3 liabilities. The TEBS financings and the 2024 PFA Securitization Transaction are credit enhanced by Freddie Mac. The TOB trust financings are credit enhanced by either Mizuho or Barclays. The table below summarizes the fair value of the Partnership's financial liabilities as of September 30, 2025 and December 31, 2024:

|                         | September 30, 2025 |                  | December 31, 2024 |                  |

## 21. Income Taxes

The Partnership recognizes income tax expense for federal, state, and local income taxes incurred by the Greens Hold Co, which owned The 50/50 MF Property until December 2022, and also owns certain property loans and real estate. The following table summarizes income tax expense (benefit) for the three and nine months ended September 30, 2025 and 2024:

|                                       | For the Three Months Ended September 30, |                   | For the Nine Months Ended September 30, |                   |

The Partnership evaluated whether it is more likely than not that its deferred income tax assets will be realizable. There was no valuation allowance recorded as of September 30, 2025 and December 31, 2024.

## 22. Partnership Income, Expenses and Distributions

The Partnership Agreement contains provisions for the distribution of Net Interest Income, Net Residual Proceeds and Liquidation Proceeds, for the allocation of income or loss from operations, and for the allocation of income and loss arising from a repayment, sale, or liquidation of investments. Income and losses will be allocated to each Unitholder on a periodic basis, as determined by the General Partner, based on the number of Preferred Units and BUCs held by each Unitholder as of the last day of the period for which such allocation is to be made. Distributions of Net Interest Income and Net Residual Proceeds will be made to each Unitholder of record on the last day of each distribution period based on the number of Preferred Units and BUCs held by each Unitholder on that date. Cash distributions are currently made on a quarterly basis. The holders of the Preferred Units are entitled to distributions at a fixed rate per annum prior to payment of distributions to other Unitholders.

For purposes of the Partnership Agreement, income and cash received by the Partnership from its investments in MF Properties, investments in unconsolidated entities, and property loans will be included in the Partnership's Net Interest Income, and cash distributions received by the Partnership from the sale or redemption of such investments will be included in the Partnership's Net Residual Proceeds.

Net Interest Income (Tier 1) is allocated 99% to the limited partners and BUC holders as a class and 1% to the General Partner. Net Interest Income (Tier 2) and Net Residual Proceeds (Tier 2) are allocated 75% to the limited partners and BUC holders as a class and 25% to the General Partner. Net Interest Income (Tier 2) and Net Residual Proceeds (Tier 2) in excess of the maximum allowable amount as set forth in the Partnership Agreement are considered Net Interest Income (Tier 3) and Net Residual Proceeds (Tier 3) and are allocated 100% to the limited partners and BUC holders as a class.

### **23. Net income per BUC**

The Partnership has disclosed basic and diluted net income per BUC in the Partnership's condensed consolidated statements of operations. The unvested RUAs issued under the Equity Incentive Plan are considered participating securities and are potentially dilutive. There were no dilutive BUCs for the nine months ended September 30, 2025 and 2024.

### **24. Segments**

As of September 30, 2025, the Partnership had four reportable segments: (1) Affordable Multifamily Investments, (2) Seniors and Skilled Nursing Investments, (3) Market-Rate Joint Venture Investments, and (4) MF Properties. The Partnership separately reports its consolidation and elimination information because it does not allocate certain items to the segments. The Partnership's chief operating decision maker (the "CODM") is the Chief Executive Officer, who uses net income (loss) to monitor segment performance against budgeted results and to allocate resources. In this regard, the CODM uses net income (loss) to evaluate income generated from each segment's assets and investments in deciding whether to reinvest income and available capital into such segment or into other investment classes of the Partnership. The CODM has considered recent underperformance in the Market-Rate Joint Venture Investments in conjunction with future market expectations in his decision to reduce the capital allocation to the Market-Rate Joint Venture Investments in the future.

#### *Affordable Multifamily Investments Segment*

The Affordable Multifamily Investments segment consists of the Partnership's portfolio of MRBs, GILs and related taxable MRBs, taxable GILs, and property loans that have been issued to provide construction and/or permanent financing for multifamily residential and commercial properties in their market areas. Such MRBs and GILs are held as investments and the taxable MRBs, taxable GILs, and property loans, net of loan loss allowances, are reported as such on the Partnership's condensed consolidated balance sheets. As of September 30, 2025, the Partnership reported 82 MRBs and four GILs in this segment. As of September 30, 2025, the multifamily residential properties securing the MRBs and GILs contain a total of 10,581 and 527 multifamily rental units, respectively. The Affordable Multifamily Investments segment also includes the Construction Lending JV. All "General and administrative expenses" on the Partnership's condensed consolidated statements of operations are reported within this segment.

#### *Seniors and Skilled Nursing Investments Segment*

The Seniors and Skilled Nursing Investments segment consists of two MRBs that have been issued to provide acquisition, construction and/or permanent financing for seniors housing and skilled nursing properties and a property loan associated with a lease of essential healthcare support buildings. Seniors housing consists of a combination of independent living, assisted living and memory care units. As of September 30, 2025, the two properties securing the MRBs contain a total of 294 beds.

#### *Market-Rate Joint Venture Investments Segment*

The Market-Rate Joint Venture Investments segment consists of the operations of ATAX Vantage Holdings, LLC, ATAX Freestone Holdings, LLC, ATAX Senior Housing Holdings I, LLC, and ATAX Great Hill Holdings LLC, which make noncontrolling investments in unconsolidated entities for the construction, stabilization, and ultimate sale of market-rate multifamily and seniors housing properties (Note 7). The Market-Rate Joint Venture Investments segment also includes the consolidated VIE of Vantage at San Marcos (Note 3).

#### *MF Properties Segment*

The MF Properties segment consists primarily of student housing residential properties that were previously owned by the Partnership. As of September 30, 2025, the Partnership did not own any MF Properties. The Partnership previously sold The 50/50 MF

Property to an unrelated non-profit organization in December 2022 in exchange for a seller financing property loan which is included in the MF Properties Segment. Income tax expense for the Greens Hold Co is reported within this segment.

The following tables detail certain financial information for the Partnership's reportable segments for the periods indicated:

## 25. Subsequent Events

In October 2025, the Sandy Creek Apartments GIL with outstanding principal of \$12.1 million was redeemed in full. Proceeds of approximately \$9.7 million were used to repay the related TOB trust financing.

In October 2025, the Partnership issued 500,000 Series B Preferred Units to a financial institution, resulting in \$5,000,000 in aggregate proceeds to the Partnership. These Series B Preferred Units were issued in a registered offering pursuant to a registration statement on Form S-3, which was declared effective by the Commission on September 27, 2024.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

In this Management's Discussion and Analysis, all references to "we," "us," and the "Partnership" refer to Greystone Housing Impact Investors LP, its consolidated subsidiaries, and consolidated VIEs for all periods presented. The Partnership includes the assets, liabilities, and results of operations of the Partnership, our wholly owned subsidiaries and consolidated VIEs. All significant transactions and accounts between the Partnership, its subsidiaries, and consolidated VIEs have been eliminated in consolidation. See Note 2 and Note 3 to the Partnership's condensed consolidated financial statements for further disclosures.

### Executive Summary

The Partnership was formed in 1998 for the purpose of acquiring a portfolio of MRBs that are issued by state and local housing authorities to provide construction and/or permanent financing for affordable multifamily, seniors housing and commercial properties. We also invest in GILs, which, similar to MRBs, provide financing for affordable multifamily and seniors housing properties. We expect and believe the interest received on these MRBs and GILs is excludable from gross income for federal income tax purposes. We also invest in other types of securities and investments that may or may not be secured by real estate and may make property loans to multifamily properties which may or may not be financed by MRBs or GILs held by us and may or may not be secured by real estate. We also make JV Equity Investments for the construction, stabilization, and ultimate sale of market-rate multifamily and seniors housing properties. In addition, the Partnership may acquire and hold interests in multifamily, student or senior citizen residential MF Properties.

### Business Environment and Current Outlook

The macroeconomic environment remains challenging. The Federal Reserve approved 25-basis point reductions in the Federal Funds rate in September and October 2025, though it indicated that future rate setting decisions will continue to be dependent on relevant data and the balance of employment and inflationary risks. As such, the likelihood of any additional rate reductions in 2025 and 2026 is uncertain. Lower short-term interest rates will lower our borrowing costs in the near term. Longer term interest rates have been volatile in recent quarters due to shifting tariff policies, weak employment data, the partial shutdown of the Federal government, and national debt concerns. We continue to employ our hedging strategies to reduce our exposure to changes in the interest cost on debt financing related to our fixed rate investments.

The borrowers of our MRBs and GILs were all current on contractual debt service payments and we have received no requests for forbearance of contractual debt service payments as of September 30, 2025. However, we have recorded asset-specific provisions for credit losses for affordable multifamily investments totaling approximately \$9.9 million for the nine months ended September 30, 2025 across three MRBs, three taxable MRBs and one property loan related to certain multifamily properties in South Carolina.

We believe there continues to be significant unmet demand for affordable multifamily and seniors residential housing in the United States. Government programs that provide direct rental support to residents have not kept up with demand. Therefore, investment programs that promote private sector development and support for affordable housing through MRBs, GILs, tax credits and grant funding to developers, have become more prominent. The types of MRBs and GILs in which we invest offer developers of affordable multifamily housing a low-cost source of construction and/or permanent debt financing.

Current market dynamics related to our market rate multifamily JV Equity Investments are challenging. The San Antonio, TX, Austin, TX, and Huntsville, AL markets experienced record new multifamily unit supply in recent years, peaking in 2024. Rental rates and occupancy have declined as these markets absorb new units, which is putting downward pressure on leasing velocity and net operating income for these properties. We expect rental rates and occupancy to remain under pressure throughout 2025. However, we expect this trend to lessen in 2026 due to limited new construction starts in these markets in 2024 and 2025.

The leasing market pressures noted above have made it more difficult for the respective managing members of our stabilized market rate multifamily JV Equity Investments to sell the properties, resulting in longer than expected investment holding periods and lower sales prices than in 2022 and 2023. In addition, less available and more expensive debt capital have had pronounced effects on property acquisitions by making it harder for potential buyers to obtain attractive financing. Accordingly, we have observed increasing capitalization rates in recent periods resulting in lower property valuations. Historically, the majority of our income from our JV Equity Investments is recognized at the time of sale and is dependent on the sales prices of the related properties. There were no JV Equity Investment property sales in 2024 and we have recognized significantly less investment income and gains on sale from the two JV Equity Investments sold in 2025 as compared to 2022 and 2023. After the current elevated level of new multifamily supply peaks, we expect net rents and occupancy to increase, capitalization rates to decline, and property valuations to increase.

We remain positive on the market rate senior housing segment of the market. We believe market rate seniors housing industry trends, potential resident demographics, and expected returns remain encouraging, so we will continue to evaluate joint venture equity

investment opportunities in the seniors housing segment, though in lower volume than our historical capital allocation to market rate multifamily investments.

Because of the challenges in the market rate multifamily markets, we will be implementing a strategy to reduce our capital allocation to market rate multifamily JV Equity Investments going forward. We and the respective managing members will manage the remaining portfolio of market rate multifamily investments to maximize sales prices and returns to the extent possible, with our return of capital from the sale of these investments to be redeployed into primarily tax-exempt MRB investments. We believe this reallocation of capital will result in increased stability of earnings from the net interest spread on new MRB investments as compared to the transaction-driven income from JV Equity Investments. We also expect the additional MRB investments to increase the proportion of tax-advantaged income allocated to Unitholders in the long term. We expect to continue leveraging Greystone's strong lending relationships across affordable housing, seniors housing, and skilled nursing business lines in identifying MRB investment opportunities.

#### Summary Financial Results

As of September 30, 2025, we had four reportable segments: (1) Affordable Multifamily Investments, (2) Seniors and Skilled Nursing Investments, (3) Market-Rate Joint Venture Investments and (4) MF Properties. We separately report our consolidation and elimination information because we do not allocate certain items to the segments. All "General and administrative expenses" on the Partnership's condensed consolidated statements of operations are reported within the Affordable Multifamily Investments segment. See Notes 2 and 24 to the Partnership's condensed consolidated financial statements for additional details. The following table presents summary information regarding activity of our segments for the three and nine months ended September 30, 2025 and 2024 (dollar amounts in thousands):

During the nine months ended September 30, 2025 and 2024, our net income was significantly impacted by unrealized losses on our derivative instrument portfolio, which primarily consists of interest rate swaps. Under the applicable accounting guidance, we report our derivatives at fair value as of each reporting date. The fair value is based on a model that considers observable indices and observable market trades for similar arrangements, such as publicly available current SOFR rates and forward SOFR swap rates. The period-over-period change in the fair value of each derivative that is not directly related to net cash settlements are recorded as unrealized (gains) losses within “Net result from derivative transactions” on our condensed consolidated statements of operations and is included as a component of our reported net income. Unrealized (gains) losses can be significant in periods of significant interest rate volatility. The following table summarizes unrealized (gains) losses for the three and nine months ended September 30, 2025 and 2024 by segment:

Differences between the respective periods is primarily due to market interest rate changes between reporting dates. The 3-year SOFR swap rate is a reasonable proxy for our interest rate swap portfolio as a whole as our derivatives are primarily SOFR-denominated interest rate swaps and the weighted average life of our interest rate swap portfolio is typically between three and four years. The 3-year SOFR swap rate declined 0.70% from 4.05% as of December 31, 2024 to 3.35% as of September 30, 2025, resulting in significant unrealized losses on our interest rate swap portfolio for the nine months ended September 30, 2025. The 3-year SOFR swap rate declined 0.44% from 3.75% as of December 31, 2023 to 3.31% as of September 30, 2024, resulting in significant unrealized losses on our interest rate swap portfolio for the three and nine months ended September 30, 2024.

Though unrealized (gains) losses may impact our reported net income period-to-period, the net cash settlements on our interest rate swaps are less variable. Our interest rate swaps are designed such that changes in the monthly net cash settlements will offset the changes in monthly interest costs on our variable-rate debt financings. Our interest rate swaps are subject to monthly net cash settlements whereby we pay a stated fixed rate and our counterparty pays a variable rate equal to the compounded SOFR rate for the settlement period. If short-term interest rates decline, the interest cost of our variable-rate debt financings will typically decline. Meanwhile, the variable rate payment by the counterparty on our interest rate swap will decline such that our benefit from the monthly net settlement payment will decline. The change in interest cost on our variable-rate debt financing generally offsets the reduced monthly net cash settlement payments associated with the related interest rate swap, such that our net cash flow for the period is not materially impacted by changes in short term interest rate changes. For this reason, we adjust net income for unrealized losses on our derivative instruments when calculating CAD, a non-GAAP performance measure discussed later in this Item 2, which we consider to be a useful measure of our operating performance.

In addition, we recognized asset-specific provisions for credit losses totaling approximately \$9.9 million in the Affordable Multifamily Investments segment for the nine months ended September 30, 2025, which significantly impacted our reported net income. These provisions are not realized losses but are based on expectations of credit losses after our evaluation of several factors including current and expected operating results of the underlying properties, borrower financial conditions, and estimated collateral values. See the operational matters section of the Affordable Multifamily Investments section discussion in this Item 2.

#### *Recent Legislative Developments*

On July 4, 2025, President Trump signed into law the legislation commonly referred to as the One Big Beautiful Bill Act (“OBBBA”), which is a sweeping federal reconciliation package that permanently extends and expands key provisions of the 2017 Tax Cuts and Jobs Act, introduces new tax benefits (including elevated standard deductions, higher state-and-local tax (SALT) caps, and no taxation on tips and overtime income for certain workers), and enacts broad reductions in government spending. The OBBBA contains provisions that may affect the Partnership and its unitholders. For example, the OBBBA affects the LIHTC program by permanently increasing the state allocation for 9% LIHTC properties by 12% and lowering the private activity bond financing threshold from 50% to 25% for 4% LIHTC projects. In sum, the OBBBA is a complex revision to the U.S. federal income tax laws with potentially far-reaching consequences. The OBBBA will require subsequent rulemaking in a number of areas. The long-term impact of the OBBBA on the Partnership, our unitholders, the developers and owners of the properties underlying our MRBs, GILs, and market-rate joint venture investments, and the multifamily real estate industry in general cannot be reliably predicted at this early stage of the new law’s implementation. Unitholders are urged to consult with their own tax advisors regarding the impact of the OBBBA to them and their acquisition, ownership, and disposition of the Partnership’s units. The Partnership’s management continues to evaluate the impact of the OBBBA on the Partnership and its business, financial condition, and results of operations.

## Corporate Responsibility

We are committed to corporate responsibility and the importance of developing environmental, social, and governance policies and practices consistent with that commitment. We believe the implementation and maintenance of such policies and practices benefit the employees that serve the Partnership, support long-term performance for our Unitholders, and have a positive impact on society and the environment.

### *Environmental Responsibility*

Achieving positive environmental and sustainability impacts in connection with our affordable housing investment activity is important to us. Opportunities for positive environmental investments are open to us because private activity bond volume cap and LIHTC allocations are key components of the capital structure for most new construction or acquisition/rehabilitation affordable housing properties financed by our MRB and GIL investments. These resources are allocated by individual states to our property sponsors through a competitive application process under a state-specific QAP as required under Section 42 of the IRC. Each state implements its public policy objectives through an application scoring or ranking system that rewards certain property features. Some of the common features rewarded under individual state QAPs are transit amenities (proximity to various forms of public transportation), proximity to public services (parks, libraries, full scale supermarkets, or a senior center), and energy efficiency/sustainability. Some state-specific QAPs have minimum energy efficiency standards that must be met, such as the use of low water need landscaping, Energy Star appliances and hot water heaters, and GREENGUARD Gold certified insulation. Since we can only finance properties with successful applications, we work with our sponsor clients to maximize these environmental features such that their applications can earn the most points possible under the individual state's QAP. The following table summarizes our total funding commitments related to properties that were awarded both private activity bond cap and LIHTC allocations through state-specific QAPs (inclusive of investments of our Construction Lending JV):

| Asset Type                            | For the Period from January 1, 2022, through September 30, 2025 |             |

In 2021, we acquired an MRB investment secured by Meadow Valley, a to-be-constructed 174-bed seniors housing facility in Traverse City, MI. Part of the construction financing is provided through a C-PACE program, which is a state policy-enabled financing mechanism that allows developers to access the capital needed to make renewable energy accessible and cost-effective. In the case of Meadow Valley, C-PACE financing of \$24.8 million will be provided to finance energy conservation features including high efficiency windows, roof, walls, heating, cooling, indoor and outdoor lighting, water heating and low-flow fixtures. The C-PACE financing is repaid through a property tax assessment over the life of the property. Many lenders are averse to financing properties with C-PACE financing as the tax assessment is a senior obligation of the property. We have developed underwriting procedures that allow for the borrower to obtain C-PACE financing and still meet our security and underwriting requirements. We will continue to evaluate investment opportunities related to properties that utilize C-PACE financing for future investment as we want to encourage our borrowers to utilize clean energy design and construction practices.

We are committed to minimizing the overall environmental impact of our corporate operations. The Partnership's operations are primarily managed by 17 employees of Greystone Manager, so we have a relatively modest environmental impact and have adequate facilities to grow our employee base without acquiring additional physical space.

### *Social Responsibility*

Our MRB and GIL investments directly support the construction, rehabilitation, and stabilized operation of decent, safe, and sanitary affordable multifamily housing across the United States. The development of affordable multifamily housing has relatively broad legislative support at the federal and state levels. Each of the properties securing our MRB and GIL investments is required to maintain a minimum percentage of units set aside for a combination of very low-income (50% or less of AMI) and low-income (80% or less of AMI) tenants in accordance with IRC guidelines, and the owners of the properties often agree to exceed the minimum IRC requirements. The rent charged to income qualified tenants at MRB or GIL properties is often restricted to a certain percentage of the tenants' income, making them more affordable. For any new MRB or GIL investments associated with a low-income housing tax credit property, restrictions regarding tenant incomes and rents charged to those low-income households are required. In addition, certain borrowers related to our MRB investments are non-profit entities that provide affordable multifamily housing consistent with their charitable purposes. These properties provide valuable housing and support services to both low-income and market-rate tenants and create housing diversity in the geographic and social communities in which they are located.

The following table summarizes, by investment asset class, the number of residential rental units associated with the affordable multifamily properties financed by the Partnership that have some form of tenant income or rent restrictions as evidenced by a regulatory agreement recorded on the local government land records as of September 30, 2025:

Certain investments may be eligible for regulatory credit under the CRA to help meet the credit needs of the communities in which they exist, including low- and moderate-income neighborhoods. See “Community Investments” in this Item 2 below for further information regarding assets of the Partnership the General Partner believes are eligible for regulatory credit under the CRA.

We and Greystone are committed to supporting our workforce. Greystone has implemented evaluation and compensation policies designed to attract, retain, and motivate employees that provide services to the Partnership to achieve superior results. Greystone also provides formal and informal training programs to enhance the skills of employees providing services to the Partnership and to instill Greystone’s corporate policies and practices. We are also committed to ensuring the safety of personnel that work for third-party contractors that perform services at properties that underlie our investment assets. Specifically for properties under construction, we consider the safety record of contractors and monitor safety incidents through reviews of independent construction monitoring reports.

Greystone and the Partnership are committed to building a workplace that allows all employees to feel supported and valued, regardless of any identity, by focusing on our culture of ‘where people matter’ to build belonging. Specific initiatives include training and employee resources groups to support our workforce as well as a formal Culture and Community Committee and Culture and Community Executive Advisory Council to lead and advise all belonging related work, events, and learning. Of the 17 employees of Greystone Manager responsible for the Partnership’s operations, three are women and two employees identify as ethnically diverse.

#### *Corporate Governance*

Greystone Manager, as the general partner of the Partnership’s general partner, is committed to corporate governance that aligns with the interests of our Unitholders and stakeholders. We set high ethical standards for our related employees and partners. We regularly review and update, as appropriate, our policies governing ethical conduct and responsible behavior in order to support our sustainable and continued success. Our Code of Business Conduct and Ethics is applicable to all Greystone personnel that provide services to the Partnership and is available on the Partnership’s website. All employees are required to annually affirm that they have read and understood the Code of Business Conduct and Ethics. Employees are encouraged to share any ethics or compliance concerns with their supervisors or confidentially through our third-party managed hotline. We maintain a formal compliance policy to investigate ethics or compliance concerns and to protect whistleblowers. Our policy is designed to meet the requirements and standards of the Sarbanes Oxley Act of 2002 and the Securities and Exchange Act of 1934.

The Board of Managers of Greystone Manager brings a diverse set of skills and experiences across industries in the public, private and not-for-profit sectors. The composition of the Board of Managers is in compliance with the NYSE listing rules and SEC rules applicable to the Partnership. The majority of the members of the Board of Managers meet the independence standards established by the New York Stock Exchange listing rules and the rules of the SEC. All the members of the Audit Committee are independent under the applicable SEC and NYSE independence requirements, two of whom qualify as “audit committee financial experts.” Of the seven Managers of Greystone Manager, one Manager is female.

The Board of Managers is highly engaged in the governance and operations of the Partnership. Our non-independent Managers are employees of Greystone that regularly monitor developments in our operating environment and capital markets and discuss such developments with management on a regular basis. One of our Managers is a member of our investment committee that pre-approves all new investments. We regularly monitor and assess risks to achieving our business objectives and such risk assessments are discussed with both the Audit Committee and the full Board of Managers at regularly held meetings and in regular informal discussions. The Audit Committee had 100% attendance at meetings during 2024 and to date in 2025. The Board of Managers had 100% and 95% attendance during 2024 and to date in 2025, respectively.

## Results of Operations

The tables and following discussions of our changes in results of operations for the three and nine months ended September 30, 2025 and 2024 should be read in conjunction with the Partnership's condensed consolidated financial statements and notes thereto included in Item 1 of this report, as well as the Partnership's Annual Report on Form 10-K for the year ended December 31, 2024.

*Total Revenues and Other Income comparison for the three months ended September 30, 2025 and 2024*

*Investment income.* The decrease in investment income for the three months ended September 30, 2025 as compared to the same period in 2024 was due to the following factors:

- A decrease of approximately \$2.2 million in interest income due to MRB redemptions and principal repayments, offset by an increase of approximately \$1.8 million in interest income from recent MRB advances;
- A decrease of approximately \$3.0 million in interest income due to recent GIL redemptions, offset by an increase of approximately \$589,000 in interest income from recent GIL investments;
- A decrease of approximately \$328,000 in interest income due to lower interest rates on variable-rate MRBs;
- A decrease of approximately \$284,000 of investment income related to unconsolidated entities consisting of:
  - o A decrease of approximately \$723,000 of investment income due to certain investments meeting the maximum guaranteed preferred return during 2024 and 2025; and
  - o An increase of approximately \$439,000 in investment income related to preferred returns on equity contributions during 2024 and 2025.

*Other interest income.* Other interest income is comprised primarily of interest income on our property loan, taxable MRB, and taxable GIL investments. The increase in other interest income for the three months ended September 30, 2025 as compared to the same period in 2024 was primarily due to:

- A net increase of approximately \$1.0 million from overall higher average property loan, taxable MRB and taxable GIL investment balances of approximately \$53.6 million; and
- A decrease of approximately \$169,000 in other interest income due to less interest earned on cash balances.

*Other income.* Other income for the three months ended September 30, 2025 and 2024 related to the receipt of non-refundable fees for the extension of various MRB and GIL maturity dates.

*Earnings (losses) on investments in unconsolidated entities.* The Partnership reports its proportionate share of earnings (losses) on investments in unconsolidated entities using the equity method of accounting. Our JV Equity Investments typically incur operating losses during development and lease-up, particularly from depreciation, consistent with development plans. The increase in losses for the three months ended September 30, 2025 as compared to the same period in 2024 is primarily due to general and administrative expenses at the Jessam at Hays Farm and non-capitalized interest expense at Freestone Greenville, Freestone Cresta Bella, and Freestone Ladera as the properties have begun operations.

*Total Revenues and Other Income comparison for the nine months ended September 30, 2025 and 2024*

*Investment income.* Investment income increased slightly for the nine months ended September 30, 2025 as compared to the same period in 2024. The individual factors consisted of the following:

- An increase of approximately \$6.7 million in interest income from recent MRB advances, offset by a decrease of approximately \$3.6 million in interest income due to MRB redemptions and principal repayments;
- A decrease of approximately \$7.7 million in interest income due to recent GIL redemptions, offset by an increase of approximately \$2.4 million in interest income from recent GIL investments;
- A decrease of approximately \$683,000 in interest income due to lower interest rates and accretion on certain MRBs;
- An increase of approximately \$3.0 million of investment income related to unconsolidated entities consisting of:
  - An increase of approximately \$1.9 million of investment income due to a preferred return distribution from Vantage at Loveland in March 2025;
  - An increase of approximately \$1.8 million of investment income related to preferred return recognized upon the sale of Vantage at Helotes in May 2025;
  - An increase of approximately \$1.5 million in investment income related to preferred returns on equity contributions during 2024 and 2025; and
  - A decrease of approximately \$2.2 million of investment income due to certain investments meeting the maximum guaranteed preferred return during 2024 and 2025.

*Other interest income.* Other interest income is comprised primarily of interest income on our property loan, taxable MRB, and taxable GIL investments. The increase in other interest income for the nine months ended September 30, 2025 as compared to the same period in 2024 was primarily due to:

- An increase of approximately \$3.4 million from recent property loan, taxable MRB and taxable GIL investment advances, offset by a decrease of approximately \$2.0 million due to recent property loan, taxable MRB and taxable GIL investment redemptions and principal repayments; and
- A decrease of approximately \$800,000 in other interest income due to less interest earned on cash balances.

*Contingent interest income.* Contingent interest income for the nine months ended September 30, 2025 related to a premium received upon redemption of the Companion at Thornhill Apartments MRB in June 2025. There was no contingent interest income for the nine months ended September 30, 2024.

*Other income.* Other income for the nine months ended September 30, 2025 and 2024 related to the receipt of non-refundable fees for the extension of various MRB and GIL maturity dates.

*Gain on sale of real estate assets.* There was no gain on sale of real estate assets for the nine months ended September 30, 2025. The gain on sale of real estate assets for the nine months ended September 30, 2024 related to final purchase price adjustments for the Suites on Paseo MF Property that was sold in December 2023.

*Gain on sale of mortgage revenue bonds.* There was no gain on sale for the nine months ended September 30, 2025. The gain on sale of mortgage revenue bond for the nine months ended September 30, 2024 related to the sale of the Brookstone MRB in May 2024.

*Gain on sale of investments in unconsolidated entities.* The gain on sale for the nine months ended September 30, 2025 related to the sale of Vantage at Helotes in May 2025 for a gain of approximately \$163,000 and final settlement of the Vantage at O'Connor and Vantage at Coventry sales that occurred in July 2022 and January 2023, respectively. The gain on sale of investments in unconsolidated entities for the nine months ended September 30, 2024 related to final settlement of the Vantage at Coventry and Vantage at Westover Hills sales that occurred in January 2023 and May 2022, respectively.

*Earnings (losses) on investments in unconsolidated entities.* The Partnership reports its proportionate share of earnings (losses) on investments in unconsolidated entities using the equity method of accounting. Our JV Equity Investments typically incur operating losses during development and lease-up, particularly from depreciation, consistent with development plans. The increase in losses for the nine months ended September 30, 2025 as compared to the same period in 2024 is primarily due to general and administrative expenses at Valage Senior Living Carson Valley and the Jessam at Hays Farm and non-capitalized interest expense at Freestone Greenville, Freestone Cresta Bella, and Freestone Ladera as the properties have begun operations.

*Total Expenses comparison for the three months ended September 30, 2025 and 2024*

*Provision for credit losses.* The provision for credit losses for the three months ended September 30, 2025 includes an asset-specific allowance of approximately \$596,000 related to the Opportunity South Carolina property loan. This asset-specific provision was partially offset by a decrease in our general allowance for credit losses from a decrease in the weighted average life of the remaining investment portfolio.

The decrease in the provision for credit losses for the three months ended September 30, 2024 is primarily due to GIL and property loan redemptions, a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in our model used to estimate the allowance for credit losses.

*Depreciation expense.* Depreciation expense for the three months ended September 30, 2025 and 2024 related to furniture and equipment owned by the Partnership.

*Interest expense.* The decrease in interest expense for the three months ended September 30, 2025 as compared to the same period in 2024 was due primarily to the following factors:

- A decrease of approximately \$1.9 million due to lower average interest rates on debt financing; and
- A decrease of approximately \$486,000 due to a decrease in the average outstanding principal of our debt financing instruments of approximately \$42.9 million.

*Net result from derivative transactions.* The net result from derivative transactions consists of realized and unrealized (gains) losses from our derivative financial instruments. Realized (gains) losses represent receipts or payments related to our interest rate swaps during the period. Unrealized (gains) losses are generally a result of changes in current and forward interest rates during the period. Increasing interest rates generally result in unrealized gains while decreasing interest rates generally result in unrealized losses. The following table summarizes the components of this line item for the three months ended September 30, 2025 and 2024 (dollar amounts in thousands):

|                                               | For the Three Months Ended September 30, |            |
|-----------------------------------------------|------------------------------------------|------------|
|                                               | 2025                                     | 2024       |
| Realized (gains) losses on derivatives, net   | \$ (814)                                 | \$ (1,798) |
| Unrealized (gains) losses on derivatives, net | 714                                      | 9,695      |
| Net result from derivative transactions       | \$ (100)                                 | \$ 7,897   |

Realized gains on derivatives, net, decreased during the three months ended September 30, 2025 as compared to the same period in 2024 due to generally decreasing spot interest rates during 2024 and 2025. Unrealized losses on derivatives, net, decreased during the three months ended September 30, 2025 as compared to the same period in 2024 due to generally more stable rates in 2025 as compared to 2024. See the "Executive Summary" section of this Item 2 for additional discussion.

*General and administrative expenses.* The decrease in general and administrative expenses for the three months ended September 30, 2025 as compared to the same period in 2024 was primarily due to a decrease of approximately \$281,000 in professional and consulting fees.

*Total Expenses comparison for the Nine Months Ended September 30, 2025 and 2024*

*Provision for credit losses.* The provision for credit losses for the nine months ended September 30, 2025 includes asset-specific allowances of approximately \$1.2 million related to the Opportunity South Carolina property loan and approximately \$8.7 million related

to The Park at Sondrio MRB and taxable MRB, The Park at Vietti MRB and taxable MRB, and the Windsor Shores Apartments MRB and taxable MRB. These asset-specific provisions were partially offset by a decline in expected credit losses primarily due to GIL and property loan redemptions and a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in our model used to estimate the allowance for credit losses.

The decrease in the provision for credit losses for the nine months ended September 30, 2024 is primarily due to GIL and property loan redemptions, a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in our model used to estimate the allowance for credit losses. The provision for credit losses for the nine months ended September 30, 2024 also includes the recovery of approximately \$169,000 of prior credit losses in connection with final settlement of the bankruptcy estate of the Provision Center 2014-1 MRB.

*Depreciation expense.* Depreciation expense for the nine months ended September 30, 2025 and 2024 related to furniture and equipment owned by the Partnership.

*Interest expense.* The decrease in interest expense for the nine months ended September 30, 2025 as compared to the same period in 2024 was due to the following factors:

- A decrease of approximately \$4.6 million due to lower average interest rates on debt financing, net of cash receipts received on interest rate derivatives; and
- An increase of approximately \$2.0 million due to higher average principal outstanding of approximately \$34.0 million.

*Net result from derivative transactions.* The net result from derivative transactions consists of realized and unrealized (gains) losses from our derivative financial instruments. Realized (gains) losses represent receipts or payments related to our interest rate swaps during the period. Unrealized (gains) losses are generally a result of changes in current and forward interest rates during the period. Increasing interest rates generally result in unrealized gains while decreasing interest rates generally result in unrealized losses. The following table summarizes the components of this line item for the nine months ended September 30, 2025 and 2024 (dollar amounts in thousands):

|                                               | For the Nine Months Ended September 30, |          |      |          |

| Net result from derivative transactions       | \$                                      | 4,315    | \$   | (256 )   |

Realized gains decreased during the nine months ended September 30, 2025 as compared to the same period in 2024 due to generally decreasing spot interest rates during 2024 and 2025. Unrealized losses on derivatives, net, increased during the nine months ended September 30, 2025 as compared to the same period in 2024 due to lower interest rates in 2025 and beyond as compared to forward market interest rates as of September 30, 2024. See the “Executive Summary” section of this Item 2 for additional discussion.

*General and administrative expenses.* The decrease in general and administrative expenses for the nine months ended September 30, 2025 as compared to the same period in 2024 was primarily due to decreases of approximately \$379,000 in employee compensation and benefits, and approximately \$543,000 in professional and consulting fees. These decreases were partially offset by an increase of approximately \$135,000 in administration fees paid to the General Partner due to higher assets under management.

*Income Tax Expense for the three and nine months ended September 30, 2025 and 2024*

A wholly owned subsidiary of the Partnership, the Greens Hold Co, is a corporation subject to federal and state income tax. The Greens Hold Co owns certain property loans and real estate assets. The Greens Hold Co sold its ownership interest in The 50/50 MF Property to an unrelated non-profit organization in December 2022 and deferred a gain on sale of approximately \$6.6 million. There was minimal taxable income for the Greens Hold Co for the three and nine months ended September 30, 2025 and 2024.

## Cash Available for Distribution - Non-GAAP Financial Measures

The Partnership believes that CAD provides relevant information about the Partnership's operations and is necessary, along with net income, for understanding its operating results. To calculate CAD, the Partnership begins with net income as computed in accordance with GAAP and adjusts for non-cash expenses or income consisting of depreciation expense, amortization expense related to deferred financing costs, amortization of premiums and discounts, fair value adjustments to derivative instruments, provisions for credit and loan losses, impairments on MRBs, GILs, real estate assets and property loans, deferred income tax expense (benefit) and restricted unit compensation expense. The Partnership also adjusts net income for the Partnership's share of (earnings) losses of investments in unconsolidated entities related to the Market-Rate Joint Venture Investments segment as such amounts are primarily depreciation expenses and development costs that are expected to be recovered upon an exit event. The Partnership also deducts Tier 2 income (see Note 22 to the Partnership's condensed consolidated financial statements) distributable to the General Partner as defined in the Partnership Agreement and distributions and accretion for the Preferred Units. Net income is the GAAP measure most comparable to CAD. There is no generally accepted methodology for computing CAD, and the Partnership's computation of CAD may not be comparable to CAD reported by other companies. Although the Partnership considers CAD to be a useful measure of the Partnership's operating performance, CAD is a non-GAAP measure that should not be considered as an alternative to net income calculated in accordance with GAAP, or any other measures of financial performance presented in accordance with GAAP.

The following table shows the calculation of CAD (and a reconciliation of the Partnership's net income, as determined in accordance with GAAP, to CAD) for the three and nine months ended September 30, 2025 and 2024 (all per BUC amounts are presented giving effect to the BUCs Distributions on a retroactive basis for all periods presented):

<sup>(1)</sup>The adjustments reflect the change in allowances for credit losses under the CECL standard which requires the Partnership to update estimates of expected credit losses for its investment portfolio at each reporting date. Credit losses are not reported within CAD until such losses are realized. The provision for credit loss includes asset-specific provisions for credit losses for affordable multifamily investments totaling approximately \$596,000 and \$9.9 million for the three and nine months ended September 30, 2025, respectively. In connection with the final settlement of the bankruptcy estate of the Provision Center 2014-1 MRB in July 2024, the Partnership recovered approximately \$169,000 of its previously recognized allowance credit loss which is not included as an adjustment to net income in the calculation of CAD for the nine months ended September 30, 2024.

<sup>(2)</sup>As described in Note 22 to the Partnership's condensed consolidated financial statements, Net Interest Income representing contingent interest and Net Residual Proceeds representing contingent interest (Tier 2 income) will be distributed 75% to the limited partners and BUC holders, as a class, and 25% to the General Partner. This adjustment represents 25% of Tier 2 income due to the General Partner. Tier 2 income for the nine months ended September 30, 2025 related to the gain on sale of Vantage at Helotes and the premium received upon redemption of the Companion at Thornhill Apartments MRB. There was no Tier 2 income for the three months ended September 30, 2025 and 2024 and the nine months ended September 30, 2024.

<sup>(3)</sup>The Partnership determined there was a recovery of previously recognized impairment recorded for the Live 929 Apartments Series 2022A MRB prior to the adoption of the CECL standard effective January 1, 2023. The Partnership is accreting the recovery of prior credit loss for this MRB into investment income over the term of the MRB consistent with applicable guidance. The accretion of recovery of value, net of adjustments, is presented as a reduction to current CAD as the original provision for credit loss was an addback for CAD calculation purposes in the period recognized.

<sup>(4)</sup>The Partnership declared the First Quarter 2024 BUCs Distribution payable in the form of additional BUCs equal to \$0.07 per BUC for outstanding BUCs as of the record date of March 28, 2024.

The following tables summarize occupancy and other information regarding the properties underlying our various investments. The narrative discussion that follows provides a brief operating analysis of each investment as of and for the nine months ended September 30, 2025 and 2024.

### Non-Consolidated Properties – Stabilized

The owners of the following properties either do not meet the definition of a VIE and/or we have evaluated and determined we are not the primary beneficiary of the VIE. As a result, we do not report the assets, liabilities and results of operations of these properties on a consolidated basis. These properties have met the stabilization criteria (see footnote 3 below the table) as of September 30, 2025. Debt service on our MRBs for the non-consolidated stabilized properties was current as of September 30, 2025. The amounts presented below were obtained from records provided by the property owners and their related property management service providers.

<sup>(1)</sup>Physical occupancy is defined as the total number of units occupied divided by total units at the date of measurement.

(2) Economic occupancy is defined as the net rental income received divided by the maximum amount of rental income to be derived from each property. This statistic is reflective of rental concessions, delinquent rents and non-revenue units such as model units and employee units. Physical occupancy is a point in time measurement while economic occupancy is a measurement over the period presented. Therefore, economic occupancy for a period may exceed the actual occupancy at any point in time.

(3) A property is considered stabilized once it reaches 90% physical occupancy for 90 days and an achievement of 1.15 times debt service coverage ratio on amortizing debt service for a period after construction completion or completion of the rehabilitation.

(4) The physical occupancy and economic occupancy amounts are based on the latest available occupancy and financial information, which is as of June 30, 2025.

(5) Physical and economic occupancy information is not available for the periods indicated as the related investment was recently acquired or is otherwise unavailable.

(6) The MRB is defeased and as such, the Partnership does not report property occupancy information.

(7) Village Point is a skilled nursing property with 120 beds in 92 units. Physical occupancy is based on the daily average of beds occupied during the last month of the period. Economic occupancy is not reported for skilled nursing properties.

#### *Comparison of the nine months ended September 30, 2025 and 2024*

Physical occupancy as of September 30, 2025 decreased from the same period in 2024 due primarily to occupancy declines at various properties located in Texas - primarily in San Antonio and Houston. These markets have experienced large increases in the supply of available multifamily units in recent periods. Overall higher vacancy levels in these markets is putting pressure on leasing at the properties related to our MRBs. We observed new construction starts in these markets declined sharply starting in late 2023 in San Antonio and mid-2024 in Austin and we expect that occupancy will recover once available units are absorbed and new supply deliveries decline in the near term. The overall physical occupancy for Texas properties as of September 30, 2025 is slightly lower than physical occupancy as of June 30, 2025 due to these market factors. The borrowers are still current on MRB debt service. If there are continuing declines in operating results of the properties such that the borrowers are unable to make contractual principal and interest payments on our MRBs, we may receive forbearance requests or experience MRB defaults. We may choose to provide support to the borrowers through supplemental property loans to prevent such MRB defaults, which will be considered on a case-by-case basis. We will continue to monitor results and discuss property operations with the individual borrowers.

Economic occupancy for the nine months ended September 30, 2025 decreased from the same period in 2024 due primarily to decreases in rental revenue at various properties in Texas as a result of the declines in physical occupancy noted above. The overall economic occupancy for Texas properties as of September 30, 2025 is lower than June 30, 2025 due to downward pressure on rental rates from high local competition. Elsewhere, Willow Run reported a large decline in economic occupancy due to significant bad debts recognized in the first quarter of 2025. Such declines were partially offset by improving economic occupancy at Live 929 Apartments as a result of higher physical occupancy.

Decatur Angle and Bruton Apartments continue to report low physical and economic occupancy, though Decatur Angle occupancy has improved during 2025. The properties are continuing to remove non-paying tenants now that local regulations permit tenant evictions. The removals have resulted in higher than historical bad debt write-offs, declines in physical occupancy, and high repairs and maintenance costs to ready units to be leased to new tenants. Bruton Apartments has also experienced an increase in local crime, which the borrower is actively working to deter. We continue to monitor and discuss property operations with the individual borrowers to assess progress towards resolving performance issues.

Restricted rents at affordable multifamily properties are tied to changes in AMI, which has generally been increasing in the United States as overall wages increased significantly in 2021 through 2024. AMI is updated on a one-year lag, so restricted rental rates will increase on a similar lag and is realized upon annual lease renewals. On an overall basis, we noted same-property maximum rental income amounts increased 5.8% during the nine months ended September 30, 2025 as compared to the same period in 2024, which is higher than average historical annual rent increases. However, we observed a decrease in same-property net rental revenue of 0.3% during the nine months ended September 30, 2025 as compared to the same period in 2024 due to lower physical occupancy.

## Non-Consolidated Properties - Not Stabilized

The owners of the following residential properties do not meet the definition of a VIE and/or we have evaluated and determined we are not the primary beneficiary of each VIE. As a result, we do not report the assets, liabilities and results of operations of these properties on a consolidated basis. As of September 30, 2025, these residential properties have not met the stabilization criteria (see footnote 3 below the table). As of September 30, 2025, debt service on the Partnership's MRBs and GILs for the non-consolidated, non-stabilized properties was current. The amounts presented below were obtained from records provided by the property owners and their related property management service providers.

<sup>(1)</sup>Physical occupancy is defined as the total number of units occupied divided by total units at the date of measurement.

<sup>(2)</sup>Economic occupancy is defined as the net rental income received divided by the maximum amount of rental income to be derived from each property. This statistic is reflective of rental concessions, delinquent rents and non-revenue units such as model units and employee units. Physical occupancy is a point in time measurement while economic occupancy is a measurement over the period presented. Therefore, economic occupancy for a period may exceed the actual occupancy at any point in time.

<sup>(3)</sup>The property is not considered stabilized as it has not met the criteria for stabilization. A property is considered stabilized once construction and/or rehabilitation is complete, it reaches 90% physical occupancy for 90 days, and it achieves 1.15 times debt service coverage ratio on amortizing debt service for a certain period.

<sup>(4)</sup>Physical and economic occupancy information is not available for the periods indicated as the related investment was under construction or rehabilitation, or was recently acquired.

<sup>(5)</sup>The physical occupancy and economic occupancy amounts are based on the latest available occupancy and financial information, which is as of June 30, 2025.

<sup>(6)</sup>Meadow Valley is a seniors housing property with 174 beds in 154 units.

As September 30, 2025, four MRB multifamily properties were under construction or recently acquired and have no operating metrics to report. Agape Helotes is continuing its conversion from market-rate units to rent-restricted units after purchase of the property by a non-profit entity in May 2025. The remaining nine MRB multifamily properties and one MRB seniors housing property are currently undergoing either or both rehabilitation and construction phases. Property manager changes have been implemented at The Park at Sondrio Apartments, The Park at Vietti Apartments and Windsor Shores Apartments in an effort to improve occupancy and overall performance in the near term.

As of September 30, 2025, Poppy Grove I, Poppy Grove II, and Poppy Grove III have substantially completed construction and are in lease-up. Sandy Creek Apartments stabilized and was redeemed in October 2025.

## JV Equity Investments

We are a noncontrolling equity investor in various unconsolidated entities formed for the purpose of constructing market-rate, multifamily real estate properties. The Partnership determined the JV Equity Investments are VIEs but that the Partnership is not the primary beneficiary. As a result, the Partnership does not report the assets, liabilities and results of operations of these properties on a consolidated basis. The one exception is Vantage at San Marcos, for which the Partnership is deemed the primary beneficiary and reports the entity's assets and liabilities on a consolidated basis. Our JV Equity Investments entitle us to shares of certain cash flows generated by the entities from operations and upon the occurrence of certain capital transactions, such as a refinance or sale. The amounts presented below were obtained from records provided by the property management service providers.

<sup>(1)</sup>Physical occupancy is defined as the total number of units occupied divided by total units at the date of measurement.

<sup>(2)</sup>Revenue is attributable to the property underlying the Partnership's equity investment and is not included in the Partnership's income.

<sup>(3)</sup>Valage Senior Living Carson Valley is a seniors housing property with 102 beds in 88 units.

<sup>(4)</sup>The property is reported as a consolidated VIE as of September 30, 2025 (see Note 3 to the Partnership's condensed consolidated financial statements).

Vantage at Hutto occupancy declined from the prior year due to the loss of a corporate tenant. The property management team is working to lease the now vacant units.

Vantage at McKinney Falls, Vantage at Loveland, Freestone Cresta Bella, Valage Senior Living Carson Valley, and Freestone Greenville have completed construction and commenced leasing activities in March 2024, May 2024, September 2024, April 2025, and April 2025, respectively. All properties achieving increasing occupancy during the third quarter.

The Jessam at Hays Farm and Freestone Ladera are nearing construction completion and began leasing activities in April 2025 and July 2025, respectively.

#### Affordable Multifamily Investments Segment

The Partnership's primary purpose is to acquire and hold as investments a portfolio of MRBs which have been issued to provide construction and/or permanent financing for residential properties and commercial properties in their market area. We have also invested in taxable MRBs, GILs, taxable GILs and property loans which are included within this segment. All "General and administrative expenses" on our condensed consolidated statements of operations are reported within this segment.

Our MRBs, taxable MRBs, GILs, taxable GILs and certain property loans are secured by a mortgage or deed of trust. Property loans related to multifamily properties are also included in this segment and may or may not be secured by a mortgage or deed of trust.

We report the Partnership's proportionate share of earnings from our Construction Lending JV within this segment. The first capital call and investment for the Construction Lending JV occurred in April 2025.

#### Comparison of the Three Months Ended September 30, 2025 and 2024

Total revenues decreased for the three months ended September 30, 2025 as compared to the same period in 2024 primarily due to:

- A decrease of approximately \$2.2 million in interest income due to MRB redemptions and principal repayments, offset by an increase of approximately \$1.6 million in interest income from recent MRB advances;
- A decrease of approximately \$3.0 million in interest income due to recent GIL redemptions, offset by an increase of approximately \$589,000 in interest income from recent GIL investments;
- An increase of approximately \$1.0 million in other interest income from higher average property loan, taxable MRB and taxable GIL investment balances of approximately \$53.4 million;
- A decrease of approximately \$328,000 in interest income due to lower interest rates on variable-rate MRBs; and
- A decrease of approximately \$169,000 in other interest income due to less interest earned on cash balances.

The provision for credit losses for the three months ended September 30, 2025 includes an asset-specific allowance of approximately \$596,000 related to the Opportunity South Carolina property loan. This asset-specific provision was partially offset by a decrease in our general allowance for credits losses from a decrease in the weighted average life of the remaining investment portfolio.

The decrease in the provision for credit losses for the three months ended September 30, 2024 is primarily due to GIL and property loan redemptions, a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in our model used to estimate the allowance for credit losses.

Total interest expense decreased for the three months ended September 30, 2025 as compared to the same period in 2024 primarily due to:

- A decrease of approximately \$1.5 million due to lower average interest rates on our debt financings; and
- An decrease of approximately \$778,000 due to an decrease in the average outstanding principal of our debt financing instruments of approximately \$51.6 million.

Net result from derivative transactions consists of realized and unrealized (gains) losses from our derivative financial instruments. Realized (gains) losses represent receipts or payments related to our interest rate swaps during the period. Unrealized (gains) losses are generally a result of changes in current and forward interest rates during the period. Increasing interest rates generally result in unrealized gains while decreasing interest rates generally result in unrealized losses. The following table summarizes the components of this line item for the three months ended September 30, 2025 and 2024 (dollar amounts in thousands):

|                                               | For the Three Months Ended September 30, |        |      |          |

| Realized (gains) losses on derivatives, net   | \$                                       | (724 ) | \$   | (1,622 ) |
| Unrealized (gains) losses on derivatives, net |                                          | 663    |      | 8,294    |
| Net result from derivative transactions       | \$                                       | (61 )  | \$   | 6,672    |

Realized gains on derivatives, net, decreased during the three months ended September 30, 2025 as compared to the same period in 2024 due to generally decreasing spot interest rates during 2024 and 2025. Unrealized losses on derivatives, net, decreased during the three months ended September 30, 2025 as compared to the same period in 2024 due to generally more stable market interest rates in 2025 as compared to 2024. See the “Executive Summary” section of this Item 2 for additional discussion.

The decrease in general and administrative expenses for the three months ended September 30, 2025 as compared to the same period in 2024 was primarily due to a decrease of approximately \$281,000 in professional and consulting fees.

Earnings (losses) from investments in unconsolidated entities represent our proportionate share of net loss of the Construction Lending JV for the period. The Construction Lending JV began activities in April 2025.

The following table summarizes the segment's net interest income, average principal balances, and related yields earned on interest-earning assets and incurred on interest-bearing liabilities, as well as other income included in total revenues for the three months ended September 30, 2025 and 2024. The average balances are based primarily on monthly averages during the respective periods. All dollar amounts are in thousands.

<sup>(1)</sup>Interest income includes \$1.1 million of discount accretion on the Southpark MRB upon redemption at par in the third quarter of 2024. Excluding this item, the average interest rate was 6.2%.

<sup>(2)</sup>Net interest spread equals interest income less interest expense, excluding amortization of deferred finance costs, and adjusted for realized (gains) losses on derivative instruments.

The following table summarizes the changes in interest income and interest expense for the three months ended September 30, 2025 and 2024, and the extent to which these variances are attributable to 1) changes in the volume of interest-earning assets and interest-bearing liabilities, and 2) changes in the interest rates of the interest-earning assets and interest-bearing liabilities. All dollar amounts are in thousands.

#### Comparison of the Nine Months Ended September 30, 2025 and 2024

Total revenues decreased for the nine months ended September 30, 2025 as compared to the same period in 2024 primarily due to:

- An increase of approximately \$6.0 million in interest income from recent MRB advances, offset by a decrease of approximately \$3.6 million in interest income due to MRB redemptions and principal repayments;
- A decrease of approximately \$7.7 million in interest income due to recent GIL redemptions, offset by an increase of approximately \$2.4 million in interest income from recent GIL investments and higher average interest rates;
- An increase of approximately \$1.1 million in other interest income from higher average property loan, taxable MRB and taxable GIL investment balances of approximately \$20.3 million;
- An increase of approximately \$774,000 in other income related to the receipt of non-refundable fees for the extension of various MRB and GIL maturity dates;
- An increase of approximately \$208,000 in contingent interest income related to a premium received upon redemption of the Companion at Thornhill Apartments MRB in June 2025;
- A decrease of approximately \$683,000 in interest income due to lower interest rates on variable-rate MRBs and accretion on certain MRBs; and
- A decrease of approximately \$800,000 in other interest income due to less interest earned on cash balances.

The provision for credit losses for the nine months ended September 30, 2025 includes an asset-specific allowance of approximately \$1.2 million related to the Opportunity South Carolina property loan and approximately \$8.7 million related to The Park at Sondrio MRB and taxable MRB, The Park at Vietti MRB and taxable MRB, and the Windsor Shores Apartments MRB and taxable MRB. These asset-specific provisions were partially offset by a decline in our general allowance for credit losses primarily due to GIL and property loan redemptions and a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in our model used to estimate the allowance for credit losses.

The decrease in the provision for credit losses for the nine months ended September 30, 2024 is primarily due to GIL and property loan redemptions, a decrease in the weighted average life of the remaining investment portfolio, and updates of market data used as quantitative assumptions in our model used to estimate the allowance for credit losses. The provision for credit losses for the nine months

ended September 30, 2024 also includes the recovery of approximately \$169,000 of prior credit losses in connection with final settlement of the bankruptcy estate of the Provision Center 2014-1 MRB.

Interest expense decreased for the nine months ended September 30, 2025 as compared to the same period in 2024 primarily due to:

- A decrease of approximately \$4.2 million due to lower average interest rates on debt financing, net of cash receipts received on interest rate derivatives; and
- An increase of approximately \$419,000 due to an increase in the average outstanding principal of our debt financing instruments of approximately \$4.9 million.

The net result from derivative transactions consists of realized and unrealized (gains) losses from our derivative financial instruments. Realized (gains) losses represent receipts or payments related to our interest rate swaps during the period. Unrealized (gains) losses are generally a result of changes in current and forward interest rates during the period. Increasing interest rates generally result in unrealized gains while decreasing interest rates generally result in unrealized losses. The following table summarizes the components of this line item for the nine months ended September 30, 2025 and 2024 (dollar amounts in thousands):

Realized gains decreased during the nine months ended September 30, 2025 as compared to the same period in 2024 due to generally decreasing spot interest rates during 2024 and 2025. Unrealized losses on derivatives, net, increased during the nine months ended September 30, 2025 as compared to the same period in 2024 due to lower market interest rates in 2025 and beyond as compared to forward market interest rates as of September 30, 2024. See the “Executive Summary” section of this Item 2 for additional discussion.

The decrease in general and administrative expenses for the nine months ended September 30, 2025 as compared to the same period in 2024 was primarily due to decreases of approximately \$379,000 in employee compensation and benefits, and approximately \$543,000 in professional and consulting fees. These decreases were partially offset by an increase of approximately \$135,000 in administration fees paid to the General Partner due to higher assets under management.

There was no gain on sale of mortgage revenue bond for the nine months ended September 30, 2025. The gain on sale of mortgage revenue bond for the nine months ended September 30, 2024 related to the sale of the Brookstone MRB in May 2024.

Earnings (losses) from investments in unconsolidated entities represent our proportionate share of net loss of the Construction Lending JV for the period. The Construction Lending JV began activities in April 2025.

The following table summarizes the segment's net interest income, average principal balances, and related yields earned on interest-earning assets and incurred on interest-bearing liabilities, as well as other income included in total revenues for the nine months ended September 30, 2025 and 2024. The average balances are based primarily on monthly averages during the respective periods. All dollar amounts are in thousands.

<sup>(1)</sup> Interest income includes \$1.1 million of discount accretion on the Southpark MRB upon redemption at par in the third quarter of 2024. Excluding this item, the average interest rate was 6.1%.

<sup>(2)</sup> Net interest spread equals interest income less interest expense, excluding amortization of deferred finance costs, and adjusted for realized gains (losses) on derivative instruments.

The following table summarizes the changes in interest income and interest expense for the nine months ended September 30, 2025 and 2024, and the extent to which these variances are attributable to 1) changes in the volume of interest-earning assets and interest-bearing liabilities, and 2) changes in the interest rates of the interest-earning assets and interest-bearing liabilities. All dollar amounts are in thousands.

### Operational Matters

The multifamily properties securing our MRBs were all current on contractual debt service payments on our MRBs and we have received no requests for forbearance of contractual debt service payments as of September 30, 2025. However, we have recorded asset-specific provisions for credit losses for affordable multifamily investments totaling approximately \$9.9 million for the nine months ended September 30, 2025. The provisions for credit losses related to The Park at Sondrio. The Park at Vietti, and the Windsor Shorts Apartments MRBs and taxable MRBs totaling approximately \$8.7 million. We also recorded an asset-specific provision for credit loss of approximately \$1.2 million for funds loaned to Opportunity South Carolina as property support loans for The Park at Sondrio and The Park at Vietti MRB properties. The underlying properties were acquired by Opportunity South Carolina, a non-profit entity, in December 2022 and January 2023. The properties underwent rehabilitation and converted from market rate operations under their previous ownership to rent-restricted affordable properties. The rehabilitation of each property has been completed, and each property is working to stabilize operations by the first quarter of 2026, which is the deadline for stabilization under the MRBs. Property operating results have not met the originally underwritten levels and collateral values are less than originally expected. We are in active discussions with the owners about opportunities to improve property operations and refinance the outstanding debt. In the event of a default on the MRBs, the Partnership may foreclose the properties and either continue operating under current rent restrictions or convert the properties back to market rate operations.

Our sole student housing property securing an MRB, Live 929 Apartments, was 92% occupied as of September 30, 2025, and is current on MRB debt service. The 2025-2026 academic year has begun and occupancy and rental rates are consistent with the prior year. The property leases exclusively to students, personnel and other tenants associated with the nearby Johns Hopkins University medical campus. The property is expected to pay all operating expenses and debt service from operating cash flows for the 2025-2026 academic year.

Construction is complete at three of the four properties securing our GILs and taxable GILs, with Poppy Grove III being nearly complete. All underlying affordable multifamily properties had commenced leasing operations as of September 30, 2025. The properties have not experienced any material supply chain disruptions for either construction materials or labor. The Sandy Creek Apartments GIL was redeemed at par in October 2025. Freddie Mac, through a servicer, has forward committed to purchase each GIL at maturity at par if the property has reached stabilization and other conditions are met. The Freddie Mac forward commitment includes a forward committed interest rate that was set at the original closing of the GIL, with many committed rates being well below current market interest rates. Such forward committed rates significantly reduce refinance risk and incentivize borrowers to convert to the Freddie Mac loan to realize interest savings.

We own various MRBs and taxable MRBs that finance the construction or rehabilitation of affordable multifamily properties. We regularly monitor construction progress at the underlying properties and have noted no material cost overruns or supply chain disruptions for either construction materials or labor. Borrowers for all such MRBs are current on debt service as of September 30, 2025. In many

instances, we have developer completion guaranties as well as capital contributed by LIHTC equity investors that will only receive their tax credits upon completion and stabilization of the projects, which create a strong disincentive to default.

### Seniors and Skilled Nursing Investments Segment

The Seniors and Skilled Nursing Investments segment provides acquisition, construction and permanent financing for seniors housing and skilled nursing properties and a property loan associated with a master lease of essential healthcare support buildings. Seniors housing consists of a combination of independent living, assisted living and memory care units.

As of September 30, 2025, we owned two MRBs with aggregate outstanding principal of \$65.5 million, with an outstanding commitment to provide additional funding of \$1.5 million on a draw-down basis during construction. The MRBs are secured by a new construction, combined independent living, assisted living and memory care property in Traverse City, MI, with 174 total beds and a skilled nursing facility in Monroe Township, NJ with 120 beds. As of September 30, 2025, the Partnership also had a property loan with a principal balance of \$7.3 million used to facilitate the purchase of a portfolio of nine essential healthcare support buildings located in eastern Pennsylvania. The loan is subordinate to the senior debt of the borrower and secured by a first priority security interest in master lease payments guaranteed by an investment grade healthcare system.

The following table compares the operating results for the Seniors and Skilled Nursing Investments segment for the periods indicated (dollar amounts in thousands):

#### Comparison of the Three Months Ended September 30, 2025 and 2024

Total revenues increased for the three months ended September 30, 2025 as compared to the same period in 2024 due to higher average principal balances of approximately \$9.0 million.

The recovery of provision for credit losses was minimal for the three months ended September 30, 2025 and 2024.

Interest expense decreased for the three months ended September 30, 2025 as compared to the same period in 2024 primarily due to:

- A decrease of approximately \$131,000 due to lower average interest rates on debt financing; and
- An increase of approximately \$127,000 due to an increase in the average outstanding principal of our debt financing instruments of approximately \$8.9 million.

The net result from derivative transactions consists of realized and unrealized (gains) losses from our derivative financial instruments. Realized (gains) losses represent receipts or payments related to our interest rate swaps during the period. Unrealized (gains) losses are generally a result of changes in current and forward interest rates during the period. Increasing interest rates generally result in unrealized gains while decreasing interest rates generally result in unrealized losses. The following table summarizes the components of this line item for the three months ended September 30, 2025 and 2024 (dollar amounts in thousands):

|                                               | For the Three Months Ended September 30, |                 |

| Net result from derivative transactions       | <u>\$ (39)</u>                           | <u>\$ 1,225</u> |

Realized gains on derivatives, net, decreased during the three months ended September 30, 2025 as compared to the same period in 2024 due to generally decreasing spot interest rates during 2024 and 2025. Unrealized losses on derivatives, net, decreased during the

three months ended September 30, 2025 as compared to the same period in 2024 due to generally more stable market interest rates in 2025 as compared to 2024. See the “Executive Summary” section of this Item 2 for additional discussion.

*Comparison of the Nine Months Ended September 30, 2025 and 2024*

Total revenues increased for the nine months ended September 30, 2025 as compared to the same period in 2024 due to higher average principal balances of approximately \$17.2 million.

The provision for credit losses for the nine months ended September 30, 2025 was minimal. The provision for credit losses for the nine months ended September 30, 2024 related to the initial allowance for credit loss for a new property loan investment during 2024.

Interest expense increased for the nine months ended September 30, 2025 as compared to the same period in 2024 primarily due to:

- An increase of approximately \$622,000 due to an increase in the average outstanding principal of our debt financing instruments of approximately \$14.5 million; and
- A decrease of approximately \$324,000 due to lower average interest rates on debt financing.

The net result from derivative transactions consists of realized and unrealized (gains) losses from our derivative financial instruments. Realized (gains) losses represent receipts or payments related to our interest rate swaps during the period. Unrealized (gains) losses are generally a result of changes in current and forward interest rates during the period. Increasing interest rates generally result in unrealized gains while decreasing interest rates generally result in unrealized losses. The following table summarizes the components of this line item for the nine months ended September 30, 2025 and 2024 (dollar amounts in thousands):

| Net result from derivative transactions       | <u>\$ 763</u>                           | <u>\$ 124</u> |

Realized gains decreased during the nine months ended September 30, 2025 as compared to the same period in 2024 due to generally decreasing spot interest rates during 2024 and 2025. Unrealized losses on derivatives, net, increased during the nine months ended September 30, 2025 as compared to the same period in 2024 due to lower market interest rates in 2025 and beyond as compared to forward market interest rates as of September 30, 2024. See the “Executive Summary” section of this Item 2 for additional discussion.

**Market-Rate Joint Venture Investments Segment**

The Market-Rate Joint Venture Investments segment consists of our noncontrolling joint venture equity investments in market-rate multifamily properties, also referred to as our JV Equity Investments. Our JV Equity Investments are passive in nature. Operational oversight of each property is controlled by our respective joint venture partners according to each respective entity’s operating agreement. The properties are predominantly managed by property management companies affiliated with our joint venture partners. Decisions on when to sell an individual property are made by our respective joint venture partners based on their views of the local market conditions and current leasing trends.

As noted in the “Executive Summary” section in this Item 2, because of the challenges in the market rate multifamily markets, we will be implementing a strategy to reduce our capital allocation to market rate multifamily JV Equity Investments going forward. We and the respective managing members will manage the remaining portfolio of market rate multifamily investments to maximize sales prices and returns to the extent possible, with our return of capital from the sale of these investments to be redeployed into primarily MRB investments.

We account for all our JV Equity Investments using the equity method and recognize our preferred returns during the hold period. Specifically for our Vantage JV Equity Investments, an affiliate of our Vantage joint venture partner provides a guaranty of our preferred returns for Vantage Properties through a date approximately five years after commencement of construction. Upon the sale of a property, net proceeds will be distributed according to the entity operating agreement. Sales proceeds distributed to us that represent previously unrecognized preferred return and gain on sale are recognized in net income upon receipt. Historically, the majority of our income from our JV Equity Investments is recognized at the time of sale. As a result, we may experience significant income recognition in those quarters when a property is sold and our equity investment is redeemed.

The following table compares operating results for the Market-Rate Joint Venture Investments segment for the periods indicated (dollar amounts in thousands):

*Comparison of the Three Months Ended September 30, 2025 and 2024*

The decrease in total revenues for the three months ended September 30, 2025 as compared to the same period in 2024 was primarily due to the following:

- A decrease of approximately \$723,000 of investment income due to certain investments meeting the maximum guaranteed preferred return during 2024 and 2025; and
- An increase of approximately \$439,000 in investment income related to preferred returns on equity contributions during 2024 and 2025.

Interest expense for the three months ended September 30, 2025 and 2024 is related to our General LOC that is primarily secured by the JV Equity Investments. The slight decrease in interest expense is primarily due to lower average outstanding balances.

Earnings (losses) on investments in unconsolidated entities is the Partnership's recognition of its proportionate share of earnings (losses) on investments in unconsolidated entities using the equity method of accounting. Such investments typically incur operating losses during development and lease-up, particularly from depreciation, consistent with development plans. The increase in losses for the three months ended September 30, 2025 as compared to the same period in 2024 is primarily due to general and administrative expenses at the Jessam at Hays Farm and non-capitalized interest expense at Freestone Greenville, Freestone Cresta Bella, and Freestone Ladera as the properties have begun operations.

*Comparison of the Nine Months Ended September 30, 2025 and 2024*

The increase in total revenues for the nine months ended September 30, 2025 as compared to the same period in 2024 was primarily due to the following:

- An increase of approximately \$1.9 million of investment income due to a preferred return distribution received from Vantage at Loveland in March 2025;
- An increase of approximately \$1.8 million of investment income related to preferred return recognized upon the sale of Vantage at Helotes in May 2025;
- An increase of approximately \$1.5 million in investment income related to preferred returns on equity contributions during 2024 and 2025; and
- A decrease of approximately \$2.2 million of investment income due to certain investments meeting the maximum guaranteed preferred return during 2024 and 2025.

Interest expense for the nine months ended September 30, 2025 and 2024 is related to our General LOC that is primarily secured by our JV Equity Investments. The increase in interest expense is primarily due to higher average outstanding balances.

The gain on sale for the nine months ended September 30, 2025 related to the sale of Vantage at Helotes in May 2025 for a gain of approximately \$163,000 and final settlement of the Vantage at O'Connor and Vantage at Coventry sales that occurred in July 2022 and January 2023, respectively. The gain on sale of investments in unconsolidated entities for the nine months ended September 30, 2024 related to final settlement of the Vantage at Coventry and Vantage at Westover Hills sales that occurred in January 2023 and May 2022, respectively.

Earnings (losses) on investments in unconsolidated entities is the Partnership's recognition of its proportionate share of earnings (losses) on investments in unconsolidated entities using the equity method of accounting. Such investments typically incur operating losses during development and lease-up, particularly from depreciation, consistent with development plans. The increase in losses for the nine months ended September 30, 2025 as compared to the same period in 2024 is primarily due to general and administrative expenses at Valage Senior Living Carson Valley and the Jessam at Hays Farm and non-capitalized interest expense at Freestone Greenville, Freestone Cresta Bella, and Freestone Ladera as the properties have begun operations.

#### *Sales Activity*

The leasing market pressures noted in the "Executive Summary" section of this Item 2 and further discussed below have made it more difficult for the respective managing members of our stabilized JV Equity Investments to sell stabilized properties, resulting in longer than expected investment holding periods and lower sales prices than in 2022 and 2023. In addition, less available and more expensive debt capital has had pronounced effects on capital markets, making property acquisitions by potential buyers harder to finance. Accordingly, we have observed increasing capitalization rates in recent periods resulting in lower property valuations. Historically, the majority of our income from our JV Equity Investments is recognized at the time of sale and is dependent on the sales prices of the related properties. There were no JV Equity Investment property sales in 2024 and we have recognized significantly less investment income and gains on sale of JV Equity Investments in 2025 as compared to 2022 and 2023. After the current peak in new supply peaks, we expect net rents and occupancy to increase, capitalization rates to decline, and property valuations to increase. Such a recovery is subject to various macroeconomic and local market conditions.

Though our returns on JV Equity Investments may be lower in the near-term, we have not recorded any impairment reserves or losses on our portfolio of JV Equity Investments to date based on our internal assessments of individual investments.

Recently, the Vantage at Loveland property located in Loveland, CO was publicly listed for sale at the direction of the property-owning entity's managing member. Consistent with past Vantage property sales, the managing member controls the listing and sales process under the terms of the property-owning entity's operating agreement, with the Partnership entitled to certain net proceeds upon the successful completion of the sale of the property.

Two of our JV Equity Investment properties were sold in 2025 by the respective managing members. In January 2025, the managing member of Vantage at Tomball sold the property to a third-party. We received gross proceeds of approximately \$14.2 million upon sale, inclusive of the return of our capital contributions and accrued preferred return. We did not recognize any gain or loss on the transaction in the first quarter. The return for Vantage at Tomball was lower than past JV Equity Investments due to rising insurance costs in the Houston metropolitan area as well as the higher interest rate environment in recent years.

In May 2025, the managing member of Vantage at Helotes sold the property to a non-profit entity that financed the purchase by issuing tax-exempt and taxable bonds. We received gross proceeds of approximately \$17.1 million, inclusive of the return of our capital contributions and accrued preferred return. We recognized investment income of approximately \$1.8 million and a gain on sale of approximately \$163,000 in the second quarter of 2025, before settlement of final proceeds and expenses. The Partnership purchased two MRBs for approximately \$12.8 million issued by the non-profit purchaser to finance the purchase of the property.

The managing members of Vantage at Hutto and Vantage at Fair Oaks each previously listed the properties for sale. However, neither sale has closed and the listings have been withdrawn due to recent uncertain multifamily market dynamics in Texas.

#### *Property Operations & Construction*

The "Portfolio Information" section in this Item 2 contains various occupancy and other operational information relating to the JV Equity Investments. Of our 11 current JV Equity Investments (inclusive of Vantage at San Marco), 7 have completed construction, 2 are under construction, and 2 are in the planning stage.

As noted in the "Executive Summary" section of this Item 2, current market dynamics related to our JV Equity Investments are challenging. The San Antonio, TX, Austin, TX, and Huntsville, AL markets experienced record new multifamily unit supply in recent years, peaking in 2024. Rental rates and occupancy have declined as these markets absorb new units, which is putting downward pressure on leasing velocity and net operating income for these properties. We expect rental rates and occupancy to remain under pressure throughout 2025, but expect this trend to reverse in 2026 due to very limited new construction starts in late 2024 and 2025.

We do not see these same challenges for market rate senior housing JV Equity Investments, like our investment in Valage Senior Living Carson Valley. We believe market rate seniors housing industry trends, potential resident demographics, and expected returns remain encouraging.

We have noted no material construction cost overruns for securing materials and labor needed to construct the properties underlying our JV Equity Investments, despite general supply chain constraints noted in recent years. In 2024, we contributed additional equity of \$1.0 million to Vantage at McKinney Falls to cover cost overages associated with delayed utility connections to the site by the local municipality, and the follow-on delays to vertical construction and incurred additional general conditions costs.

The construction loans associated with our JV Equity Investments typically have variable interest rates, so we regularly monitor interest costs in comparison to capitalized interest reserves in each property's development budget and available construction budget contingency balances. Though original development budgets were sized to incorporate potential interest rate increases, the pace of interest rate increases in 2023 and 2024 has caused actual interest costs during construction to exceed original budgets. We have noted that some properties that are complete or nearing construction completion are incurring interest costs that exceed capitalized interest reserves, and such properties have utilized construction contingencies and developers have deferred a portion of their developer fee payments. In addition, high levels of new unit supply and declining market rents in certain local markets has prolonged the lease-up phase of certain properties such that operating cash flows are insufficient to pay all debt service. Under the operating agreements, if additional capital is required, the parties to the JV Equity Investment will mutually agree on how to fund additional capital. From January 2024 through October 2025, we agreed to advance additional net equity totaling \$9.3 million across six JV Equity Investments to cover primarily additional interest costs and certain property taxes and operating expenses. We may advance additional equity to certain JV Equity Investments during the remainder of 2025 and in 2026 though the ultimate amount is uncertain. The amount of such additional funding, if any, will depend on various future developments, including, but not limited to, the pace of development, changes in interest rates, the pace of lease-up, and overall operating results of the underlying properties. We plan to contribute additional funds from unrestricted cash on hand or other currently available liquidity sources. Such additional equity may result in lower overall returns on our JV Equity Investments.

Between December 2024 and September 2025, the managing members of Vantage at McKinney Falls, Vantage at Hutto, and Vantage at Loveland refinanced the construction loans at each property, which resulted in lower variable interest rates of over 100 basis points for each loan. The Vantage at Loveland refinancing resulted in additional loan proceeds, of which approximately \$7.9 million were distributed to the Partnership. The distribution resulted in recognition of approximately \$2.2 million of investment income in the first quarter of 2025. In June 2025, the managing member of Freestone Greenville refinanced the construction loan at the property and distributed approximately \$1.8 million to the Partnership.

### **MF Properties Segment**

As of September 30, 2025, the Partnership did not own any MF Properties. The Partnership previously owned the Suites on Paseo MF Property until the property was sold in December 2023 and there is no continuing involvement with the property. The Partnership previously sold The 50/50 MF Property to an unrelated non-profit organization in December 2022 in exchange for a seller financing property loan which is included in the MF Properties Segment.

There was a gain on sale of real estate assets of approximately \$64,000 for the nine months ended September 30, 2024 related to final purchase price adjustments for the Suites on Paseo MF Property that was sold in December 2023. There was minimal income tax expense and no other operating results to report for the MF Properties segment for three and nine months ended September 30, 2025 and 2024.

### **Liquidity and Capital Resources**

We continually evaluate our potential sources and uses of liquidity, including current and potential future developments related to market interest rates and the general economic and geopolitical environment. The information below is based on our current expectations and projections about future events and financial trends, which could materially differ from actual results. See the discussion of Risk Factors in Item 1A of the Partnership's Form 10-K for the year ended December 31, 2024 for further information.

Our short-term liquidity requirements over the next 12 months will be primarily operational expenses; investment commitments (net of leverage secured by the investment assets); debt service (principal and interest payments) related to our debt financings; repayments of our secured lines of credit balances; and distribution payments to Unitholders. We expect to meet these liquidity requirements primarily using cash on hand, operating cash flows from our investments, proceeds from asset redemptions and sales in the normal course of business, and potentially additional debt financing issued in the normal course of business. In addition, we will consider the issuance of additional BUCs, Series A-1 Preferred Units, Series B Preferred Units, or other series of limited partnership interests in the Partnership based on needs and opportunities for executing our strategy.

Our long-term liquidity requirements will be primarily for maturities of debt financings, funding purchases of additional investment assets (net of leverage secured by the investment assets), and repayments of our secured lines of credit balances. We expect to meet these liquidity requirements primarily through refinancing of maturing debt financings with the same or similar lenders; contractual principal and interest payments from our investments; and proceeds from asset redemptions and sales in the normal course of business. In addition, we will consider the issuance of additional BUCs, Series A-1 Preferred Units, Series B Preferred Units, or other series of limited partnership interests in the Partnership based on needs and opportunities for executing our strategy.

## **Sources of Liquidity**

The Partnership's principal sources of liquidity consist of:

- Unrestricted cash on hand;
- Operating cash flows from investment assets;
- Secured lines of credit;
- Proceeds from the redemption or sale of assets;
- Proceeds from obtaining additional debt; and
- Issuances of debt securities, BUCs, Series A-1 Preferred Units, Series B Preferred Units, or other series of limited partnership interests.

### *Unrestricted Cash on Hand*

As of September 30, 2025, we reported unrestricted cash on hand of approximately \$36.2 million. There are no contractual restrictions on our ability to use unrestricted cash on hand. The Partnership has a financial covenant to maintain a minimum consolidated liquidity of \$6.3 million under the terms of our financing arrangements.

### *Operating Cash Flows from Investment Assets*

Cash flows from operations are primarily comprised of regular principal and interest payments received on our investment assets that provide consistent cash receipts throughout the year. All MRBs, taxable MRBs, GILs, taxable GILs and property loans are current on contractual debt service payments as of September 30, 2025. Investment receipts, net of interest expense on related debt financing and lines of credit, are available for our general use. We also receive distributions from JV Equity Investments if, and when, cash is available for distribution. In March 2025, we received approximately \$7.9 million of distributions from Vantage at Loveland from additional loan proceeds received by the property upon refinancing of its construction loan. In June 2025, we received approximately \$1.8 million of distributions from Freestone Greenville from additional loan proceeds received by the property upon refinancing of its construction loan.

Receipt of operating cash from our investments in MRBs, taxable MRBs, and JV Equity Investments is dependent upon the generation of net cash flows at multifamily properties that underlie these investments. These underlying properties are subject to risks usually associated with direct investments in multifamily real estate, which include (but are not limited to) reduced occupancy, tenant defaults, falling rental rates, and increasing operating expenses.

Receipt of operating cash from our investments in GILs, taxable GILs, and construction financing and mezzanine property loans is dependent on the availability of funds in the original development budgets. The elevated interest rate environment experienced in recent years continues to result in higher interest costs for properties with variable rate construction financing. We regularly monitor capitalized interest costs in comparison to capitalized interest reserves in the property's development budget, available construction cost contingencies balances, and the funding of certain equity commitments by the owners of the underlying property. The developers may also make cash payments to pay interest due to avoid claims under their payment and completion guaranties.

### *Secured Lines of Credit*

We maintain a General LOC with a commitment of up to \$50.0 million to purchase additional investments and to meet general working capital and liquidity requirements. We may borrow, prepay and reborrow amounts at any time through the maturity date, subject to the limitations of a borrowing base. The aggregate available commitment cannot exceed a borrowing base calculation, which is equal to 35% multiplied by the aggregate value of a pool of eligible encumbered assets. Eligible encumbered assets consist of 100% of our equity capital contributions to JV Equity Investments, subject to certain limits and restrictions. The General LOC is secured by first priority security interests in our JV Equity Investments. We have the ability to increase the total maximum commitment by an additional

\$10.0 million to \$60.0 million, subject to the identification of lenders to provide the additional commitment, the payment of certain fees, and other conditions. We will evaluate whether to increase the commitment based on the size of the borrowing base, liquidity needs and costs of such additional commitments. We are subject to various affirmative and negative covenants that, among others, require us to maintain consolidated liquidity of not less than \$6.3 million (which will increase up to a maximum of \$7.5 million if the maximum available commitment is fully increased to \$60.0 million) and maintain a consolidated tangible net worth of not less than \$200.0 million. We were in compliance with all covenants as of September 30, 2025. There was a balance of \$40.5 million outstanding on the General LOC and approximately \$9.5 million was available to be drawn as of September 30, 2025. The General LOC has a maturity date of June 2027, with options to extend for up to two additional years, subject to certain terms and conditions.

We maintain an Acquisition LOC with a commitment of up to \$80.0 million that may be used to fund purchases of MRBs, taxable MRBs, or loans issued to finance the acquisition, rehabilitation, or construction of affordable housing or which are otherwise secured by real estate or mortgage-backed securities (i.e., GILs, taxable GILs, and property loans), or master lease agreements guaranteed by investment grade tenants. Advances on the Acquisition LOC are generally due on the 270<sup>th</sup> day following the advance date but may be extended for up to an additional 270 days by making certain payments. Advances made for tax-exempt or taxable loans secured by master lease agreements guaranteed by investment grade tenants are due on the 45th day following such advance. The Acquisition LOC contains a covenant, among others, that our senior debt will not exceed a specified percentage of the market value of our assets to be consistent with the Leverage Ratio (as defined by the Partnership). We were in compliance with all covenants as of September 30, 2025. There was a balance of \$1.0 million outstanding on the Acquisition LOC and approximately \$79.0 million was available to be drawn as of September 30, 2025. The Acquisition LOC has a maturity date of June 2027, with two one-year extension options, subject to certain terms and conditions.

#### *Proceeds from the Redemption or Sale of Assets*

We may, from time to time, experience redemptions of or execute sales of our investments in MRBs, GILs, property loans, and JV Equity Investments consistent with our strategic plans. Borrowers on certain of our MRBs, GILs, and property loans have the right to prepay amounts outstanding prior to contractual maturity which would result in the return of our capital, net of repayment of the related leverage.

All GIL investments have maturity dates within the next 12 months, which are committed to be purchased by Freddie Mac, through a servicer, or repaid by the borrower on or before the maturity at prices equal to the principal outstanding plus accrued interest. Such proceeds will be primarily used to repay our related debt financing, with residual proceeds available to us for general use. For the period from January to October 2025, five GILs and one related property loan were redeemed at par plus accrued interest. These redemptions resulted in gross principal receipts of approximately \$136.8 million, of which \$114.3 million was used to repay the related debt financings. We regularly monitor the progress of the underlying properties and the likelihood of redemption upon maturity and currently have no concerns regarding repayment. Borrowers may request extensions of GIL maturity dates which are contingent upon our approval, payment of an extension fee, and obtaining an approval of Freddie Mac to extend the maturity date of the forward purchase commitment.

Our MRB portfolio is marked at a premium to cost, adjusted for paydowns, primarily due to higher stated interest rates when compared to current market interest rates for investments with similar terms. We may consider selling certain MRB investments in exchange for cash at prices that approximate our currently reported fair value. However, we are contractually prevented from selling the MRB investments included in our TEBS Financings.

Our ability to dispose of investment assets on favorable terms is dependent upon several factors including, but not limited to, the number of potential buyers and the availability of credit to such potential buyers to purchase investment assets at prices we consider acceptable. Recent volatility in market interest rates, recent inflation and the potential for an economic recession may negatively impact the potential prices we could realize upon the disposition of our various assets.

Our JV Equity Investments are passive in nature and decisions on when to sell an individual property are made by our joint venture partner based on its view of the local market conditions and current leasing trends. The completion of sale is dependent on the identification of a buyer and at a price deemed acceptable by the joint venture partner and the Partnership. Once a buyer is selected, the period for negotiation of the sales contract, buyer due diligence, and satisfaction of closing requirements can range from two to six months. We are entitled to proceeds upon the sales of JV Equity Investments in accordance with the terms of the entity operating agreement. In January 2025, Vantage at Tomball was sold by the managing member with gross proceeds to the Partnership totaling approximately \$14.2 million. In May 2025, Vantage at Helotes was sold by the managing member with gross proceeds to the Partnership totaling approximately \$17.1 million, before consideration of the Partnership's purchase of a portion of MRBs issued to finance the sale of the property.

### *Proceeds from Obtaining Additional Debt*

We hold certain investments that are not associated with our debt financings or secured lines of credit. We may obtain leverage for these investments by posting the investments as security. As of September 30, 2025, our primary unleveraged assets were certain MRBs and taxable MRBs with outstanding principal totaling approximately \$10.4 million.

### *Issuances of Debt Securities, BUCs, Series A-1 Preferred Units or Series B Preferred Units*

We may, from time to time, issue additional BUCs, Preferred Units, or debt securities, in one or more offerings, at prices or quantities that are consistent with our strategic goals. In December 2022, the Partnership's Shelf Registration Statement was declared effective by the SEC under which the Partnership may, from time to time, offer and sell BUCs, Preferred Units, or debt securities, in one or more offerings, with a maximum aggregate offering price of \$300.0 million. Debt securities issued under the Shelf Registration Statement may be senior or subordinate obligations of the Partnership. The Shelf Registration Statement will expire in December 2025. In October 2025, we filed a new Form S-3 shelf registration statement with the SEC, which will allow the Partnership to issue up to an aggregate of \$200.0 million of BUCs, Preferred Units, and debt securities from time to time, in one or more offerings. The new shelf registration statement has not yet become effective and, upon its effectiveness, will replace the existing Shelf Registration Statement.

In March 2024, we entered into a Sales Agreement with JonesTrading Institutional Services LLC and BTIG, LLC, as Agents, pursuant to which the Partnership may offer and sell, from time to time through or to the Agents, BUCs having an aggregate offering price of up to \$50.0 million. As of September 30, 2025, we have sold 92,802 BUCs for gross proceeds of \$1.5 million under the Sales Agreement to date.

We have one registration statement on Form S-3 covering the offering of Series B Preferred Units that has been declared effective by the SEC. The following table summarizes the Partnership's current Preferred Unit offering:

| Preferred Unit Series | Initial Registration Effectiveness Date | Expiration Date | Unit Offering Price | Distribution Rate | Optional Redemption Date | Units Issued as of October 31, 2025 | Remaining Units Available to Issue as of October 31, 2025 |
|-----------------------|-----------------------------------------|-----------------|---------------------|-------------------|--------------------------|-------------------------------------|-----------------------------------------------------------|
| Series B              | September 2024                          | September 2027  | \$ 10.00            | 5.75%             | Sixth anniversary        | 2,500,000                           | 7,500,000 <sup>(1)</sup>                                  |

<sup>(1)</sup> The Partnership is able to issue Series B Preferred Units so long as the aggregate market capitalization of the BUCs, based on the closing price on the trading day prior to issuance of the Series B Preferred Units, is no less than two times the aggregate book value of all Series A Preferred Units, Series A-1 Preferred Units and Series B Preferred Units, inclusive of the amount to be issued.

In March 2025, we issued 2,000,000 Series B Preferred Units to an existing investor for gross proceeds of \$20.0 million. In October 2025, we issued 500,000 Series B Preferred Units to a new investor for gross proceeds of \$5.0 million.

In April 2024, we commenced a registered offering of up to \$25.0 million of BUCs which are being offered and sold pursuant to the effective Shelf Registration Statement and a prospectus supplement filed with the SEC relating to this offering. As of the date of this filing, we have not issued any BUCs in connection with this offering.

We may also designate and issue additional series of preferred units representing limited partnership interests in the Partnership in accordance with the terms of the Partnership Agreement.

### **Uses of Liquidity**

Our principal uses of liquidity consist of:

- General and administrative expenses;
- Investment funding commitments;
- Debt service on debt financings, mortgage payable, and secured lines of credit;
- Distributions paid to holders of Preferred Units and BUCs;
- Redemptions of Preferred Units; and
- Other contractual obligations.

## General and Administrative Expenses

We use cash to pay general and administrative expenses of our operations. For additional details, see Item 1A, “Risk Factors” in the Partnership’s the Partnership’s Annual Report on Form 10-K for the year ended December 31, 2024 and the section captioned “Cash flows from operating activities” in the condensed consolidated statements of cash flows set forth in Item 1 of this Report. General and administrative expenses are typically paid from unrestricted cash on hand and operating cash flows.

## Investment Funding Commitments

Our overall strategy is to invest in quality multifamily properties through the acquisition of MRBs, GILs, property loans and JV Equity Investments in both existing and new markets. We evaluate investment opportunities based on many factors including, but not limited to, our market outlook, general economic conditions, development opportunities and long-term growth potential. Our ability to make future investments is dependent upon identifying suitable acquisition and development opportunities, access to long-term financing sources, and the availability of investment capital. We may commit to fund additional investments on a draw-down or forward basis. The following table summarizes our outstanding investment commitments as of September 30, 2025:

|                                              |                 |                              |                  | Projected Funding by Year <sup>(1)</sup>      |                   |               |               |                      |                                       |  |

<sup>(1)</sup> Projected fundings by year are based on current estimates and the actual funding schedule may differ materially due to, but not limited to, the pace of construction, adverse weather conditions, delays in governmental approvals or permits, the availability of materials and contractors, and labor disputes.

<sup>(2)</sup> We have securitized the indicated assets in TOB trust financing facilities that allow for additional principal proceeds as the remaining investment commitments are funded by us. See Note 13 for further details on debt financing.

<sup>(3)</sup> The borrower may elect to extend the maturity date for up to six months upon meeting certain conditions, which may include payment of a non-refundable extension fee.

<sup>(4)</sup> Upon stabilization, the MRB will resize to an amount not to exceed \$3.3 million and become subordinate to the other senior MRBs of the borrower. In December 2029, the interest rate will convert to a fixed rate of 10.0%.

<sup>(5)</sup> All draws to date were funded with proceeds from the Acquisition LOC. The Partnership expects to sell the related investment into the Construction Lending JV in the future.

<sup>(6)</sup> The property became a consolidated VIE effective during the fourth quarter of 2021.

<sup>(7)</sup> A development site has been identified, and land has been acquired for these properties. The Partnership’s joint venture partners are evaluating the highest and best use for the development sites as of September 30, 2025, which may include a sale of the land or the commencement of construction. The timing of any funding commitment is uncertain and the Partnership’s remaining funding commitment will be terminated if the land is sold.

We are also committed to fund 10% of the capital for the Construction Lending JV with the remainder to be funded by third-party investors with each party contributing its proportionate capital contributions upon funding of future investments. Our capital will be contributed on a draw-down basis over the term of the underlying investments of the Construction Lending JV. Our maximum remaining capital commitment to the Construction Lending JV is approximately \$14.7 million as of October 31, 2025. Our maximum commitment will increase if additional third-party capital commitments are obtained by the Construction Lending JV. In April 2025, the Partnership transferred the Natchitoches Thomas Apartments GIL, taxable GIL, and related future funding commitments to the Construction Lending JV at prices that approximated outstanding principal plus accrued interest.

In addition, we will consider providing additional financing to borrowers on our debt investments or additional equity to our JV Equity Investments above our original commitments if requested by the borrowers and managing members, respectively, on a case-by-case basis. When considering whether to fund such requests, we will consider various factors including, but not limited to, the economic return on additional investments in the entity, the impact to the Partnership's credit and investment risk from either funding or withholding funding, and the requesting entity's other available sources of funding. From January 2024 through October 2025, we advanced additional net equity totaling \$10.3 million across six JV Equity Investments. The additional capital was used to cover development cost overruns, primarily due to higher than anticipated interest costs, and certain operating expenses resulting from longer holding periods. We anticipate making additional investments in certain JV Equity Investments during 2025 and 2026, though the ultimate amount is uncertain. The amount of such additional funding will depend on various future developments, including, but not limited to, the pace of development, changes in interest rates, the pace of lease-up, and overall operating results of the underlying properties. The Partnership plans to contribute such additional funds from unrestricted cash on hand or other currently available liquidity sources.

#### *Debt Service on Debt Financings, Mortgage Payable and Secured Lines of Credit*

Our debt financing arrangements consist of various secured financing transactions to leverage our portfolio of MRB, taxable MRB, GIL, taxable GIL and certain property loan investment assets. The financing arrangements generally involve the securitization of these investment assets into trusts whereby we retain beneficial interests in the trusts that provide us certain rights to the underlying investment assets. The senior securities are sold to unaffiliated parties in exchange for debt proceeds. The senior securities require periodic interest payments that may be fixed or variable, depending on the terms of the arrangement, and scheduled principal payments. We are required to fund any shortfall in principal and interest payable to the senior securities of the TEBS Financings in the case of non-payment, forbearance or default of the borrowers' contractual debt service payments of the related MRBs, up to the value of our residual interests. In the case of forbearance or default on an underlying investment asset in a term TOB or TOB trust financing, we may be required to fund shortfalls in principal and interest payable to the senior securities, repurchase a portion of the outstanding senior securities, or repurchase the underlying investment asset and seek alternative financing. We anticipate that cash flows from the securitized investment assets will fund normal, recurring principal and interest payments to the senior securities and all trust-related fees.

When possible, we structure the debt financing maturity dates associated with our GIL, taxable GIL, and property loan investments to match the investment maturity dates such that investment redemption proceeds will redeem the outstanding debt financing.

Our debt financing arrangements include various fixed rate and variable rate debt arrangements. Recent increases in short-term interest rates have resulted in increases in the interest costs associated with our variable rate debt financing arrangements. We actively manage our portfolio of fixed rate and variable rate debt financings and our exposure to changes in market interest rates. The following table summarizes our fixed rate and variable rate debt financings as of September 30, 2025 and December 31, 2024:

<sup>(1)</sup>The securitized assets and related debt financing each have variable interest rates, though the variable rate indices may differ on individual transactions. As such, the Partnership is largely hedged against rising interest rates.

<sup>(2)</sup>The variable-rate debt financing is hedged through our interest rate swap agreements. Though the variable rate indices may differ, these interest rate swaps have effectively synthetically fixed the interest rate of the related debt financing. See further discussion of our interest rate hedging activities below.

<sup>(3)</sup>Approximately \$153.3 million of this amount relates to investment assets with maturity dates on or before April 2026.

The interest rate paid on our variable rate debt financings are generally determined by the senior securities remarketing agent as the rate necessary to remarket any senior securities tendered by holders thereof for remarketing that week at a price of par. Interest on the senior securities is either taxable or tax-exempt to the holders based on the structure of the debt financing. The senior securities rate on debt financings structured as tax-exempt to the senior securities holders are typically correlated to tax-exempt municipal short-term securities indices, such as SIFMA. The senior securities rate on debt financings structured as taxable to the senior securities holders are typically correlated to taxable short-term securities indices, such as SOFR.

We have hedged a portion of our overall exposure to changes in market interest rates on our variable rate debt financings through various interest rate swaps. Our interest rate swaps are subject to monthly settlements whereby we pay a stated fixed rate and our

counterparty pays a variable rate equal to the compounded SOFR rate for the settlement period. We are currently a net receiver on our portfolio of interest rate swaps and received net settlement proceeds totaling approximately \$814,000 and \$1.8 million during the three months ended September 30, 2025 and 2024, respectively, and approximately \$2.4 million and \$5.2 million during the nine months ended September 30, 2025 and 2024, respectively.

The majority of our variable rate debt financings that are hedged through interest rate swaps have interest that is tax-exempt to the senior securities holders. In order to account for the differential between our interest rate swaps which are indexed to SOFR (a taxable rate) and our debt financing rate (which is correlated to short-term tax-exempt municipal securities rates), we assume that, over the term of our debt financing, the tax-exempt senior securities interest rate will approximate 70% of the SOFR rate. This assumption aligns with common market assumptions and the historical correlation between taxable and tax-exempt municipal short-term securities rates. However, such ratio may not be accurate in the short term or long term in the future. We apply a 70% conversion ratio when determining the notional amount of our interest rate swaps such that, as an example, a \$7.0 million notional amount indexed to SOFR is the equivalent to \$10.0 million notional amount for tax-exempt debt financing. As such, the reported amount of variable debt financing in the table above exceeds the stated notional amount of the SOFR-indexed interest rate swaps as of September 30, 2025. The following table summarizes the average stated SOFR-denominated notional amount by year for our existing interest rate swaps as of September 30, 2025 (before applying our assumed 70% ratio of tax-exempt municipal securities rates to SOFR):

When we execute a TOB trust financing, we retain a residual interest that is pledged as our initial collateral under the ISDA master agreement with the lender based on the market value of the investment asset(s) at the time of initial closing. If the net aggregate value of our investment assets in TOB trust financings and our interest rate swap agreements decline below a certain threshold, then we are required to post additional collateral with our counterparties. We had approximately \$7.3 million of net cash collateral returned to us by Mizuho during the nine months September 30, 2025 due primarily to increases in the value of our fixed interest rate investment assets funded with TOB trusts resulting from generally declining market interest rates. Continuing volatility in market interest rates and potential deterioration of general economic conditions may cause the value of our investment assets to decline and result in the posting of additional collateral in the future. The valuation of our interest rate swaps generally change inversely with the change in valuation of our investment assets, so the change in valuation of our interest rate swaps partially offset the change in value of our investment assets when determining the amount of collateral posting requirements.

The 2024 PFA Securitization Transaction is secured by the cash flows on the senior custodial receipts associated with the 2024 PFA Securitization Bonds. The holders of the Affordable Housing Multifamily Certificates associated with the 2024 PFA Securitization Transaction are entitled to interest at a fixed rate of 4.10% per annum, payable monthly, and all principal payments from the 2024 PFA Securitization Bonds until the stated amount of the Affordable Housing Multifamily Certificates is reduced to zero, which will be no later than September 2039. The Partnership will also pay credit enhancement, servicing, and trustee fees related to the 2024 PFA Securitization Transaction totaling 0.80% per annum. The 2024 PFA Securitization Transaction is non-recourse to the Partnership, does not require mark-to-market collateral posting, and has a term that matches the term of the underlying MRBs. In August 2025, a paydown of approximately \$4.0 million was made from proceeds upon redemption of the Copper Gate MRB.

Our TEBS Residual Financing is secured by the cash flows from the residual certificates of our TEBS Financings and residual custodial receipts associated with the 2024 PFA Securitization Bonds. Interest due on the TEBS Residual Financing is at a fixed rate of 7.125% per annum and will be paid from receipts related to the TEBS Financing residual certificates. Future receipts of principal related to the TEBS Financing residual certificates will be used to pay down the principal of the TEBS Residual Financing. The TEBS Residual Financing is non-recourse financing to the Partnership and is not subject to mark-to-market collateral posting. In August 2025, a paydown of approximately \$717,000 was made from proceeds upon redemption of the Copper Gate MRB.

Our General LOC and Acquisition LOC require monthly interest payments on outstanding balances and certain quarterly commitment fees. Such obligations are paid primarily from operating cash flows. The Acquisition LOC requires principal payments as previously described in this Item 2. The General LOC does not require principal payments until maturity in June 2027, subject to extension options, so long as the outstanding principal does not exceed the borrowing base calculation.

The table below summarizes contractual maturities by year for our secured lines of credit, debt financings, and mortgages payable as of September 30, 2025. The reported maturities for each individual debt financing are based on the earlier of contractual payments of the underlying securitized assets or the stated maturity date of the debt financing.

#### *Distributions Paid to Holders of Preferred Units and BUCs*

Distributions to the holders of Series A-1 Preferred Units, if declared by the General Partner, are paid quarterly at an annual fixed rate of 3.0%. Distributions to the holders of Series B Preferred Units, if declared by the General Partner, are paid quarterly at an annual fixed rate of 5.75%. The Series A-1 Preferred Units and Series B Preferred Units are non-cumulative, non-voting and non-convertible.

On September 16, 2025, we announced that the Board of Managers of Greystone Manager, which is the general partner of the General Partner, declared a quarterly cash distribution of \$0.30 per BUC to unitholders of record on September 30, 2025 and payable on October 31, 2025.

The Partnership and its General Partner continually assess the level of distributions for the Preferred Units and BUCs based on cash available for distribution, financial performance and other factors considered relevant.

#### *Redemptions of Preferred Units*

Our outstanding Series A-1 and Series B Preferred Units are subject to optional redemption by the holders or the Partnership upon the sixth anniversary of issuance and on each anniversary thereafter. The earliest optional redemption dates for the currently outstanding Preferred Units range from April 2028 to October 2031.

#### *Other Contractual Obligations*

We are subject to various guaranty obligations in the normal course of business, and, in most cases, do not anticipate these obligations to result in significant cash payments.

### **Cash Flows**

In the nine months ended September 30, 2025, we generated cash of \$18.3 million, which was the net result of \$28.9 million provided by operating activities, \$99.4 million provided by investing activities, and \$110.0 million used in financing activities.

Cash provided by operating activities totaled \$28.9 million for the nine months ended September 30, 2025, as compared to \$13.3 million generated for the nine months ended September 30, 2024. The change between periods was due to the following factors:

- A decrease of \$13.0 million in net income;
- An increase of \$11.5 million related to changes in the preferred return receivable from unconsolidated entities;
- A total increase of \$10.4 million in non-cash provisions for credit loss and loan loss; and
- An increase of \$1.4 million related to the amortization of bond premium, discount and origination fees;

- An increase of \$1.0 million related to the adjustment for the gain on sale of mortgage revenue bond that is considered cash from investing activities;
- An increase of \$2.3 million related to an increase in the Partnership's net losses from investments in unconsolidated entities;
- An increase of \$1.9 million related to reduction in the unrealized gain on interest rate derivatives.

Cash provided by investing activities totaled \$99.4 million in the nine months ended September 30, 2025, as compared to cash used of \$38.6 million in the nine months ended September 30, 2024. The change between periods was primarily due to the following factors:

- A net increase of \$62.1 million of cash due to lower advances on MRBs, taxable MRBs, GILs, taxable GILs and property loans;
- A net increase of \$38.6 million of cash due to overall higher paydowns and redemptions of MRBs, taxable MRBs, GILs, taxable GILs and property loans;
- An increase of \$17.6 million of cash due to lower contributions to unconsolidated entities;
- An increase of \$24.1 million of cash due to greater proceeds from the sale of investments in unconsolidated entities;
- An increase of \$2.4 million of cash due to greater proceeds from the return of investments in unconsolidated entities;
- An increase of \$1.4 million of cash due to proceeds from the sale of land held for development; and
- A decrease of \$8.2 million of cash due to the sale of an MRB.

Cash used in financing activities totaled \$110.0 million in the nine months ended September 30, 2025, as compared to cash provided of \$25.3 million in the nine months ended September 30, 2024. The change between periods was primarily due to the following factors:

- An increase of \$15.0 million of cash related to proceeds from the issuance of Preferred Units;
- An increase of \$10.0 million of cash related to the redemption of Preferred Units in 2024;
- An increase of approximately \$589,000 of cash due to lower distributions paid;
- An increase of approximately \$559,000 of cash due to lower debt financing costs paid;
- A net decrease of \$38.4 million of cash due to higher paydowns on the secured lines of credit;
- A decrease of \$1.4 million due to principal payments on mortgages payable;
- A decrease of \$1.5 million in net cash proceeds from the sale of BUCs; and
- A net decrease of \$120.2 million of cash due to less proceeds from debt financing.

We believe our cash balance and cash provided by the sources discussed herein will be sufficient to pay, or refinance, our debt obligations and to meet our liquidity needs over the next 12 months.

### **Leverage Ratio**

We set target constraints for each type of financing utilized by us. Those constraints are dependent upon several factors, including the assets being leveraged, the tenor of the leverage program, whether the financing is subject to mark-to-market collateral calls, and the liquidity and marketability of the financed collateral. We use target constraints for each type of financing to manage to an overall 80% maximum Leverage Ratio, as established by the Board of Managers. The Board of Managers retains the right to change the maximum Leverage Ratio in the future based on the consideration of factors the Board of Managers considers relevant. We calculate our Leverage Ratio as total outstanding debt divided by total assets using cost adjusted for paydowns for MRBs, GILs, property loans, taxable MRBs and taxable GILs, and initial cost for deferred financing costs and real estate assets. As of September 30, 2025, our overall Leverage Ratio was approximately 73%.

### **Off Balance Sheet Arrangements**

As of September 30, 2025 and December 31, 2024, we held MRB, GIL, taxable MRB, taxable GIL and certain property loan investments that are secured by affordable multifamily and seniors housing properties, which are owned by entities that are not controlled by us. We have no equity interest in these entities and do not guarantee any obligations of these entities.

As of September 30, 2025, we own noncontrolling equity interests in various unconsolidated entities for the development of market rate multifamily and seniors housing properties, and for the Construction Lending JV. We account for these equity interests using the equity method of accounting and the assets, liabilities, and operating results of the underlying entities are not included in our condensed consolidated financial statements.

We have entered into various financial commitments and guaranties. For additional discussions related to commitments and guaranties, see Note 16 to the condensed consolidated financial statements.

We do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market, or credit risk that could arise if we had engaged in such relationships.

We do not have any relationships or transactions with persons or entities that derive benefits from their non-independent relationships with us or our related parties, other than those disclosed in Note 19 to the condensed consolidated financial statements.

### **Critical Accounting Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The most significant estimates and assumptions include those used in determining (i) the fair value of MRBs and taxable MRBs; (ii) investment impairments; and (iii) allowance for credit losses.

The Partnership's critical accounting estimates are the same as those described in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2024.

### **Recently Issued Accounting Pronouncements**

For a discussion of recently issued accounting pronouncements, see Note 2 to the Partnership's condensed consolidated financial statements.

### **Community Investments**

The Partnership has invested and intends to invest in assets which are and will be purchased in order to support underlying community development activities targeted to low- and moderate-income individuals, such as affordable housing, small business lending, and job creating activities in areas of the United States. These investments may be eligible for regulatory credit under the CRA and available for allocation to holders of our Preferred Units (see Note 17 to Partnership's condensed consolidated financial statements).

The following table sets forth the assets of the Partnership the General Partner believes are eligible for regulatory credit under the CRA and are available for allocation to Preferred Unit investors as of November 5, 2025:

(1) The date reflects the stated contractual maturity of the Partnership's senior debt investment in the property. For various reasons, including, but not limited to, call provisions that can be exercised by both the borrower and the Partnership, such debt investments may be redeemed prior to the stated maturity date. The Partnership may also elect to sell certain debt investments prior to the contractual maturity, consistent with its strategic purposes.

(2) The Partnership committed to provide total funding of MRBs up to \$79.0 million and a taxable MRB up to \$9.4 million during the construction and lease-up of the property on a draw-down basis. The taxable MRB has a maturity date of 12/1/2025 with an option to extend the maturity six months if stabilization has not occurred. Upon stabilization of the property, the MRBs will be partially repaid and the maximum balance of the MRBs after stabilization will not exceed \$35.3 million and will have a maturity date of 12/1/2040.

(3) The Partnership committed to provide total funding of MRBs up to \$64.0 million and a taxable MRB up to \$8.0 million during the acquisition and rehabilitation phase of the property on a draw-down basis. The taxable MRB has a maturity date of 4/1/2026. Upon stabilization of the property, the MRB will be partially repaid and the maximum balance of the MRB after stabilization will not exceed \$44.1 million and will have a maturity date of 3/31/2040.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The primary components of our market risk as of September 30, 2025 are related to interest rate risk and credit risk. Our exposure to market risks relates primarily to our investments in MRBs, GILs, property loans and our debt financing and mortgage payable. We seek to actively manage these and other risks and to acquire and hold assets that we believe justify bearing those risks, and to maintain capital levels consistent with those risks.

The recent changes in U.S. and international trade policies, the volatility in the U.S. equity and credit markets, the current interest rate environment, and the risk of overall slower economic growth or a potential recession have contributed to heightened market risk. See the information under “Quantitative and Qualitative Disclosures about Market Risk” in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2024 for additional information.

#### Interest Rate Risk

The Federal Reserve reduced the federal funds rate by 25 basis points in September and October 2025, resulting in the current target range for the federal funds rate being 3.75-4.00%. It is uncertain if additional federal funds rate reductions will occur in the near-term. The Federal Reserve continues to evaluate economic data in assessing whether to make further changes to the federal funds rate, which in turn, influences market expectations for current and future interest rate levels. Changes in short-term interest rates will generally result in similar changes in the interest cost associated with our variable debt financing arrangements, though such changes are expected to be offset by changes in net receipts on our interest rate swap portfolio.

Interest rates are highly sensitive to many factors, including governmental, tariff, monetary and tax policies, domestic and international economic and political considerations, and other factors beyond our control. The nature of our MRB, GIL, and property loan investments and the debt used to finance these investments, exposes us to financial risk due to fluctuations in market interest rates. The majority of our investments bear interest at fixed rates.

We regularly hedge our exposure to changes in interest rates where we have financed fixed rate investment assets with variable rate debt financing by executing SOFR-denominated interest rate swaps. Though the variable rate indices of our debt financing and interest rate swaps may differ, the interest rate swaps have effectively synthetically fixed the interest rate of the related debt financing. The majority of our variable-rate debt financings that are hedged through interest rate swaps have interest that is tax-exempt to the senior securities holders. In order to account for the differential between our interest rate swaps which are indexed to SOFR (a taxable rate) and our debt financing rate (which is correlated to short-term tax-exempt municipal securities rates), we assume that, over the term of our debt financing, the tax-exempt senior securities interest rate will approximate 70% of the SOFR rate. This assumption aligns with common market assumptions and the historical correlation between taxable and tax-exempt municipal short-term securities rates. However, such ratio may not be accurate in the short term or long term in the future.

The following table sets forth information regarding the impact on our net interest income assuming various changes in short-term interest rates as of September 30, 2025:

<sup>(1)</sup>The net interest income impact per BUC calculated based on 23,171,226 BUCs outstanding as of September 30, 2025.

The interest rate sensitivity table above (the “Table”) represents the change in interest income from investments, net of interest on debt and settlement payments for interest rate derivatives over the next twelve months, assuming an immediate parallel shift in the SOFR yield curve and the resulting implied forward rates are realized as a component of this shift in the curve. The table does not reflect any non-cash unrealized (gains) losses on interest rate swaps caused by the assumed changes in interest rates. Assumptions include anticipated interest rates; relationships between different interest rate indices such as SOFR and SIFMA; and outstanding investment, debt financing and interest rate derivative positions. No assurance can be made that the assumptions included in the Table presented herein will occur or that other events will not occur that will affect the outcomes of the analysis. Furthermore, the results included in the Table assume we do not act to change our sensitivity to the movement in interest rates. As the above information incorporates only those material positions or exposures that existed as of September 30, 2025, it does not consider those exposures or positions that have arisen or could arise after that date. The ultimate economic impact of these market risks will depend on the exposures that arise during the period, our risk mitigation strategies at that time and the overall business and economic environment.

We employ leverage to finance the acquisition of many of our fixed income assets. Approximately 68% of our leverage bears interest at short term variable interest rates. Our remaining 32% of leverage has fixed interest rates. Of those assets funded with short term variable rate debt facilities, approximately 5% bear interest at a variable rate as well. While there is some basis risk between the interest cost associated with our debt financing arrangements and the short-term interest rate indices on our variable rate assets, this portion of our portfolio is substantially match funded with rising short term interest rates having a minimal impact on our net interest income.

For those fixed rate assets where we have variable rate financing, hedging instruments such as interest rate caps and interest rate swaps have been utilized to hedge some, but not all, of the potential increases in our funding cost that would result from higher short-term interest rates. In some cases, these positions have been hedged to their expected maturity date. In other cases, a shorter-term hedge has been executed due to uncertainty regarding the time period over which the individual fixed rate asset might be outstanding.

For information on our debt financing and interest rate derivatives see Notes 13 and 15, respectively.

#### *Credit Risk*

Our primary credit risk is the risk of default on our investment in MRBs, GILs and property loans collateralized by multifamily residential, seniors housing and skilled nursing properties. The MRB and GIL investments are not direct obligations of the governmental authorities that issue the MRB or GIL and are not guaranteed by such authorities or any issuer. In addition, the MRB, GIL and the associated property loan investments are non-recourse obligations of the property owner. As a result, the primary sources of principal and interest payments on our MRB, GIL, and the property loan investments are the net operating cash flows generated by these properties or the net proceeds from a sale or refinance of these properties. Affiliates of the borrowers of our GIL and construction financing property loan investments have full-to-limited guaranties of construction completion and payment of principal and accrued interest on the GIL and property loan investments, so we may have additional recourse options for these investments. Similarly, we typically require affiliates of the borrowers of our MRB investments to provide full-to-limited guaranties during the construction and pre-stabilization period, if applicable. We do not typically have recourse guarantees to non-profit borrowers during the construction or rehabilitation period.

If a property is unable to sustain net rental revenues and net operating cash flows at a level necessary to pay current debt service obligations on our MRB, GIL or property loan investments, a default may occur. A property's ability to generate net operating cash flows is subject to a variety of factors, including rental and occupancy rates of the property and the level of its operating expenses. Occupancy rates and rents are directly affected by the supply of, and demand for, multifamily residential, single-family rentals, seniors housing and skilled nursing properties in the market area where the property is located. This is affected by several factors such as local or national economic conditions, the amount of new apartment construction and the affordability of single-family homes. In addition, factors such as government regulation (e.g. zoning laws and permitting requirements), inflation, insurance availability and cost, real estate and other taxes, labor issues, and natural disasters can affect the economic operations of a multifamily residential property. Rental rates for set-aside units at affordable multifamily properties are typically tied to certain percentages of AMI. Increases in AMI are not necessarily correlated to inflationary increases in property operating expenses or market rents. A significant mismatch between AMI growth and increased property operating expenses could negatively impact net operating cash flows available to pay debt service. If AMI declines on a year-over-year basis, rents could need to be reduced.

Certain MRB, GIL, and construction financing property loan investments that fund the construction of new affordable multifamily properties may have variable interest rates. Since there are little to no operating cash flows during the construction and lease-up periods for new properties, borrowers utilize capitalized interest reserves to fund debt service prior to stabilization. Increases in market interest rates will cause an increase in debt service costs where variable rate financing is used. If interest rate increases are large enough, such capitalized interest reserves and other budgeted contingencies may be insufficient to pay all debt service through stabilization. Such cost overruns may cause defaults on our construction financing investments if other funding sources are not available to the borrowers or if related guarantors fail to meet their obligations.

Defaults on our MRB, GIL, or property loan investments may reduce the amount of future cash available for distribution to Unitholders. In addition, if a property's net operating cash flow declines, it may affect the market value of the property, which may result in net proceeds from the ultimate sale or refinancing of the property to be insufficient to repay the entire principal balance of our MRB, GIL or property loan investment. In the event of a default, we will have the right to foreclose on the mortgage or deed of trust on the property securing the investment. If we take ownership of the property securing a defaulted MRB or GIL investment, we will be entitled to all net operating cash flows generated by the property and will be subject to risks associated with ownership of multifamily real estate. If such an event occurs, these investments will not provide tax-exempt income. In the event of default, we will likely be required to repay debt financing secured by our investment using available liquidity or arrange alternative financing, if available, which is likely to be at less favorable terms. Such occurrences will negatively impact our overall available liquidity and results of operations.

We actively manage the credit risks associated with our MRB, GIL, and property loan investments by performing a comprehensive due diligence and underwriting process of the sponsors, owners and the properties securing these investments prior to investing. In addition, we carefully monitor the on-going performance of the properties underlying these investments. For those investments where Freddie Mac has provided a forward commitment to purchase our GILs, the investment has also passed Freddie Mac's required underwriting requirements.

Credit risk is also present in the geographical concentration of the properties securing our MRB investments. We have significant geographic concentrations in Texas, California, and South Carolina. The table below summarizes the geographic concentrations in these states as a percentage of the total MRB principal outstanding:

|                | September 30, 2025 | December 31, 2024 |
|----------------|--------------------|-------------------|
| California     | 31 %               | 30 %              |
| Texas          | 27 %               | 25 %              |
| South Carolina | 15 %               | 18 %              |

Our GIL and taxable GIL investments are also geographically concentrated, with \$153.0 million of such investments related to Poppy Grove I, Poppy Grove II, and Poppy Grove III, which are three contiguous properties located in Elk Grove, CA.

#### *Mortgage Revenue Bonds Sensitivity Analysis*

Third-party pricing services are used to value our MRB investments. The pricing service uses a discounted cash flow and yield to maturity or call analysis which encompasses judgment in its application. The key assumption in the yield to maturity or call analysis is the range of effective yields of the individual MRB investments. The effective yield analysis for each MRB considers the current market yield of similar securities, specific terms of each MRB, and various characteristics of the property collateralizing the MRB such as debt service coverage ratio, loan to value, and other characteristics. The effective yield for each MRB has historically trended with, although is not directly influenced by, medium and long-term interest rate movements. Our valuation service provider uses tax-exempt and taxable housing curves published by Municipal Market Data to estimate the value of our MRB investments. Our valuation service provider primarily uses the A rated Tax Exempt Housing Sector Yield Curve, which increased by an average of 8 basis points across the curve as of September 30, 2025 compared to December 31, 2024. The 10 year United States Treasury yield decreased 42 basis points and the 30 year United States Treasury yield decreased 5 basis points during the first nine months of 2025. The 5 year and 10 year SOFR swap rate decreased 65 and 41 basis points, respectively, during the first nine months of 2025. These interest rate changes have a direct effect on the market value of our MRB portfolio, but do not directly impact a borrower's ability to meet its obligations as our MRB investments have predominantly fixed interest rates.

We completed a sensitivity analysis which is hypothetical and is as of a specific point in time. The results of the sensitivity analysis may not be indicative of actual changes in fair value and should be used with caution. The table below summarizes the sensitivity analysis metrics related to our MRB investments as of September 30, 2025:

| Description            | Estimated Fair Value (in 000's) | Range of Effective Yields used in Valuation | Range of Effective Yields if 10% Adverse Applied | Additional Unrealized Losses with 10% Adverse Change (in 000's) |
|------------------------|---------------------------------|---------------------------------------------|--------------------------------------------------|-----------------------------------------------------------------|
| Mortgage Revenue Bonds | \$ 1,005,398                    | 2.4%- 9.9%                                  | 2.6%-10.9%                                       | \$ 22,985                                                       |

#### *Real Estate Valuation Risk*

Our JV Equity Investments fund the construction, stabilization and sale of market-rate multifamily real estate. The realizable property values for such investments are primarily dependent upon the value of a property to prospective buyers at the time of its sale, which may be impacted by market capitalization rates, the operating results of the property, local market conditions and competition, and interest rates on mortgage financing. We have noticed market capitalization rates are trending upward due to, though not limited to, the current economic environment and elevated market interest rates. We have also noted that rental rates may be decreasing in certain markets, which would lower property operating results leading to a reduction in property valuations. Operating results of real estate properties may be affected by many factors, such as the number of tenants, the rental and fee rates, insurance availability and cost, operating expenses, the cost of repairs and maintenance, taxes, debt service requirements, competition from other similar multifamily rental properties and general and local economic conditions. In addition, all outstanding financing directly secured by such real estate

properties must be repaid upon sale. Lower sales proceeds may prevent us from collecting our accrued preferred return or the return of our original investment equity, which would result in realized losses on our investments.

#### *Reinvestment Risk*

MRB investments may have optional call features that may be exercised by either the borrower or the Partnership that are earlier than the contractual maturity. These optional call features may be at either par or premiums to par. In addition, our GIL and most property loan investments are prepayable at any time without penalty. Borrowers may choose to redeem our investments if prevailing market interest rates are lower than the interest rate on our investment asset or for other reasons. In order to maintain or grow our investment portfolio size and earnings, we must reinvest repayment proceeds in new investment assets. New MRB, GIL and property loan investment opportunities may not generate the same returns as our current investments such that our reported operating results may decline over time. In addition, elevated interest rates and construction costs could limit the ability of developers to initiate new projects for us to finance with MRB, GIL, and property loan investments.

Similarly, we are subject to reinvestment risk on the return of capital from sales of JV Equity Investments. Our strategy involves making JV Equity Investments for the development, stabilization and sale of market-rate multifamily rental properties. Our initial equity contributions are returned upon sale of the underlying properties, at which time we will look to reinvest the capital into new JV Equity Investments or other investments. Fewer new investment opportunities may result from negative changes in various economic factors and those new investments that we do make may not generate the same returns as our prior investments due to factors including, but not limited to, increasing competition in the development of market-rate multifamily rental properties, elevated interest rates on construction loans and increasing construction costs. We have observed declining availability of credit and tighter credit underwriting standards for certain banks that provide construction financing for our JV Equity Investments, which may result in lower loan proceeds and higher rates on construction loans in the near-term such that new investment profitability is negatively impacted or more difficult to originate. Lower returns on new investment opportunities will result in declining operating results over time.

#### **Item 4. Controls and Procedures.**

*Evaluation of disclosure controls and procedures.* The Chief Executive Officer and the Chief Financial Officer have reviewed and evaluated the effectiveness of the Partnership's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of the end of such period, the Partnership's disclosure controls and procedures were effective in ensuring that (i) information required to be disclosed by the Partnership in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and (ii) information required to be disclosed by the Partnership in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Partnership's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

*Changes in internal control over financial reporting.* There were no changes in the Partnership's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the most recent quarter ended September 30, 2025 that have materially affected, or are reasonably likely to materially affect, the Partnership's internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1A. Risk Factors.

The risk factors affecting the Partnership are described in Item 1A “Risk Factors” in the Partnership’s Annual Report on Form 10-K for the year ended December 31, 2024, which is incorporated by reference herein. There have been no material changes from these previously disclosed risk factors for the nine months ended September 30, 2025.

### Item 5. Other Information.

#### Trading Plans

During the quarter ended September 30, 2025, no Manager or executive officer of the Partnership (as defined in Rule 16a-1(f) under the Exchange Act) adopted or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

**GREYSTONE HOUSING IMPACT INVESTORS LP**  
**(A Delaware Limited Partnership)**  
**Series B Preferred Units Representing Limited Partnership Interests**

**SUBSCRIPTION AGREEMENT**

THIS SUBSCRIPTION AGREEMENT (the “Agreement”) is effective as of the date set forth on the signature page of the Subscription Acceptance hereof (the “Effective Date”), between the undersigned subscriber (the “Subscriber”), and Greystone Housing Impact Investors LP, a Delaware limited partnership (the “Partnership”).

**Recitals**

WHEREAS, the Partnership is offering for sale 10,000,000 Series B Preferred Units representing limited partnership interests of the Partnership (the “Series B Preferred Units”) at a price of \$10.00 per unit (the “Offering”), with a minimum investment requirement of \$5,000,000 (500,000 Series B Preferred Units) per subscriber, unless otherwise approved by the General Partner in its sole discretion; and

WHEREAS, the Partnership has filed, in accordance with the provisions of the Securities Act of 1933, as amended (the “Securities Act”) and the rules and regulations thereunder (the “Securities Act Regulations”), with the Securities and Exchange Commission (“Commission”) a registration statement on Form S-3 (File No. 333-282185), covering the Series B Preferred Units to be issued from time to time by the Partnership, which was declared effective by the Commission on September 27, 2024 (the “Registration Statement”); and

WHEREAS, the Partnership has prepared a prospectus dated September 27, 2024 specifically relating to the Series B Preferred Units, which is included as part of the Registration Statement, pursuant to which the Series B Preferred Units are being offered by the Partnership in the Offering, which prospectus may be supplemented from time to time to add, update, or change information contained therein (the prospectus, including all documents incorporated therein by reference, included in the Registration Statement, as it may be supplemented from time to time by any prospectus supplement, in the form in which such prospectus and/or prospectus supplement have most recently been filed by the Partnership with the Commission pursuant to Rule 424(b) under the Securities Act Regulations, together with any then issued free writing prospectus, is referred to herein as the “Prospectus”); and

WHEREAS, all capitalized terms not otherwise defined herein shall have the meanings set forth in the Prospectus.

NOW, THEREFORE, in consideration of the promises made by the parties herein, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows.

**Agreement**

Section 1. **Subscription for Series B Preferred Units.** Subject to the terms and conditions of this Agreement, as of the Effective Date the Subscriber hereby subscribes for, and the Partnership agrees to issue to the Subscriber, that number of Series B Preferred Units of the Partnership set forth on the Subscriber’s signature page hereto. The closing of the purchase and sale of the Series B Preferred Units described herein shall occur at such time and location as the parties shall mutually agree (the “Closing,” and the date of the Closing, the “Closing Date”).

**Section 2. Closing Deliveries.** At the Closing, the Subscriber shall deliver or cause to be delivered to the Partnership the aggregate amount of the Subscriber's amount of subscription, as set forth on the Subscriber's signature page hereto, by wire transfer of immediately available funds to the account as specified by the Partnership. Upon the Closing, the Partnership shall deliver or cause to be delivered to the Subscriber the originally executed: (i) Confidential Subscriber Questionnaire completed by the Subscriber and accompanying this Agreement (the "Confidential Subscriber Questionnaire"); (ii) this Agreement; (iii) counterpart signature page to the Partnership Agreement, as countersigned by the General Partner; and (iv) such other evidence of the Subscriber's record ownership of the Series B Preferred Units as may be reasonably requested by the Subscriber and mutually agreed to by the General Partner.

**Section 3. Representations and Warranties.** The Subscriber understands that the Partnership is relying upon the representations and agreements contained in this Agreement (and any supplemental information) for the purpose of determining whether to accept the Subscriber's subscription for Series B Preferred Units. Accordingly, the Subscriber hereby represents and warrants to the Partnership, and intends that the Partnership rely upon these representations and warranties for the purpose of establishing the acceptability of this Agreement, as follows:

(a) **Subscriber Information.** The address of the Subscriber in the Confidential Subscriber Questionnaire is the true and correct address of the domicile and residency of the Subscriber, and the Subscriber has no present intention of changing such address to another state or jurisdiction. The Subscriber agrees to promptly notify the Partnership if the information contained in this Agreement, the accompanying Confidential Subscriber Questionnaire, or any other document is or becomes incorrect.

(b) **Investment Intent.** The Subscriber is subscribing for the Series B Preferred Units for its own account and for investment purposes only, and not with a view to the distribution or resale thereof, in whole or in part, to anyone else.

(c) **Liquidity.** The Subscriber is in such a financial condition that it has no need for liquidity with respect to a subscription in the Series B Preferred Units and no need to dispose of any portion of the Series B Preferred Units subscribed for hereby to satisfy any existing or contemplated undertaking or indebtedness. The Subscriber hereby represents that, at the present time, the Subscriber could afford a complete loss of its subscription in the Series B Preferred Units.

(d) **No Governmental Approvals of Offering.** The Subscriber understands that no federal or state governmental agency or authority has passed upon the Series B Preferred Units or made any finding or determination concerning the fairness, advisability, or merits of the Offering or this subscription.

(e) **Availability of Prospectus and Other Information.** The Subscriber has received (or otherwise had made available to the Subscriber by the filing by the Partnership of an electronic version thereof with the Commission) the Prospectus which is a part of the Registration Statement, and the documents incorporated by reference therein, prior to or in connection with the execution of this Agreement. The Subscriber acknowledges that the Partnership has made available to it and its management the opportunity to ask questions and receive answers concerning the Partnership, the Partnership Agreement, and the Series B Preferred Units, and to obtain any additional information which the Partnership or General Partner possesses or can acquire without unreasonable effort or expense and has received any and all information requested.

(f) **Independent Evaluation of Subscription.** No representations or warranties have been made to the Subscriber concerning the Partnership, its business, the General Partner, or the

Series B Preferred Units by the Partnership, the General Partner, any affiliate of the Partnership or the General Partner, or any agent, officer, or employee of any of them, or by any other person, other than as set forth in this Agreement, and in entering into this Agreement the Subscriber is not relying on any information other than the representations and warranties of the Partnership set forth herein and the results of the Subscriber's own independent investigation and due diligence. In this regard, the Subscriber has made its own inquiry and analysis (on its own or with the assistance of others) with respect to the Partnership and its business, the General Partner, the Series B Preferred Units, the Partnership Agreement, and other material factors affecting the Series B Preferred Units. Based on such information and analysis, the Subscriber has been able to make an informed decision to subscribe for the Series B Preferred Units.

(g) **Sophistication of Subscriber.** The Subscriber has such knowledge and experience in financial and business matters that the Subscriber is capable of evaluating the merits and risks of a subscription in the Series B Preferred Units. To the extent necessary, the Subscriber has retained, at its own expense, and relied upon, appropriate professional advice regarding the investment, tax, and legal merits and consequences of this subscription and ownership of the Series B Preferred Units. The Subscriber understands that nothing in this Agreement, the Prospectus, the Registration Statement, or any other materials presented to the Subscriber in connection with the purchase and sale of the Series B Preferred Units constitutes legal, tax, regulatory, or investment advice.

(h) **No Public Market for the Series B Preferred Units.** The Subscriber understands that there is no public market for the Series B Preferred Units, the Partnership does not intend for a public market in the Series B Preferred Units to develop, and such a public market is unlikely ever to develop.

(i) **State of Domicile.** The Subscriber's state of domicile, both at the time of the initial offer of the Series B Preferred Units to the Subscriber and at the present time, was and is within the state set forth in the Subscriber's address disclosed on this Agreement below.

(j) **Organization and Authority; Subscriber Status.** The Subscriber is duly organized, validly existing, and in good standing under the laws of the jurisdiction of its organization with the full right, corporate or partnership power, and authority to enter into and to consummate the transactions contemplated by this Agreement and to otherwise carry out its obligations hereunder. The execution, delivery, and performance by the Subscriber of the transactions contemplated by this Agreement have been duly authorized by all necessary corporate or similar action on the part of the Subscriber. The Subscriber's governing instruments permit, and it is duly qualified to make, this subscription for the Series B Preferred Units. This Agreement and the Confidential Subscriber Questionnaire have been duly executed by the Subscriber, and when delivered by the Subscriber in accordance with the terms hereof, will constitute the valid and legally binding obligation of the Subscriber, enforceable against it in accordance with its terms. By executing this Agreement, the Subscriber hereby represents that the representations and warranties of the Subscriber set forth in the Confidential Subscriber Questionnaire attached to this Agreement, including the representations and warranties regarding the legal status of the Subscriber, are true and correct.

(k) **Tax Consequences of Subscription.** The Subscriber hereby acknowledges that there can be no assurance regarding the tax consequences of a subscription for the Series B Preferred Units, nor can there be any assurance that the Internal Revenue Code of 1986, as amended, or the regulations promulgated thereunder, or other applicable laws and regulations, will not be amended at some future time. In making this subscription for the Series B Preferred Units,

the Subscriber hereby represents that it is relying solely upon the advice of the Subscriber's tax advisor with respect to the tax aspects of a subscription for the Series B Preferred Units.

**(l) Anti-Money Laundering Provisions.** Neither the Subscriber nor (i) any person controlling or controlled by the Subscriber, (ii) any person having a beneficial interest in the Subscriber, or (iii) any person for whom the Subscriber is acting as agent or nominee in connection with this investment, is a person or entity with which the Partnership would be prohibited from engaging in a transaction under the rules and regulations administered by the U.S. Treasury Department's Office of Foreign Assets Control. No funds the Subscriber will use for the purchase of Series B Preferred Units either now or for any future capital contributions, if any, were, and are not directly or indirectly derived from, activities that contravene U.S. federal, state, local, or international laws and regulations applicable to the Subscriber, including U.S. anti-money laundering laws and regulations. The Subscriber agrees to promptly notify the Partnership if any of the foregoing representations in this Section 3(l) cease to be true and accurate regarding the Subscriber. The Subscriber also agrees to provide the Partnership and the General Partner with any additional information regarding the Subscriber that the Partnership or General Partner deems necessary or convenient to ensure compliance with the foregoing representations. The Subscriber understands and agrees that if at any time it is discovered that any of the foregoing representations are incorrect, or if otherwise required by applicable law or regulation related to money laundering or similar activities, the Partnership may undertake appropriate actions to ensure compliance with applicable laws or regulations, including, but not limited to, segregation and/or redemption of the Subscriber's investment in the Series B Preferred Units. The Subscriber further understands that the Partnership may release confidential information about the Subscriber and, if applicable, any underlying beneficial owners of the Subscriber, to the proper authorities if the General Partner, in its sole discretion, determines that it is in the best interests of the Partnership in light of the foregoing described anti-money laundering rules.

**(m) No Right to Require Registration Upon Resale.** The Subscriber understands that the Subscriber has no right to require the Partnership to register the further resale of the Subscriber's Series B Preferred Units under federal or state securities laws at any time.

**Section 4. Representations and Warranties of the Partnership.** The Partnership understands that the Subscriber is relying upon the representations and agreements contained in this Section 4 for the purpose of determining whether to enter into this Agreement for the subscription for the Series B Preferred Units. Accordingly, the Partnership hereby represents and warrants to the Subscriber, and intends that the Subscriber rely upon these representations and warranties for the purpose of establishing the acceptability of this Agreement, as follows:

**(a) Organization.** The Partnership is duly organized, validly existing as a limited partnership, and in good standing under the laws of the State of Delaware. The Partnership is duly licensed or qualified as a foreign limited partnership for transaction of business and in good standing under the laws of each other jurisdiction in which its ownership or lease of property or the conduct of its business requires such license or qualification, and has all limited partnership power and authority necessary to own or hold its properties and to conduct its business as described in the Registration Statement and the Prospectus, except where the failure to be so qualified or in good standing or have such power or authority would not, individually or in the aggregate, have a material adverse effect on or affecting the assets, business, operations, earnings, properties, condition (financial or otherwise), prospects, partners' equity or results of operations of the Partnership or prevent or materially interfere with consummation of the transactions contemplated hereby (a "Material Adverse Effect").

(b) **Registration Statement.** The Registration Statement has heretofore become effective under the Securities Act; no order of the Commission preventing or suspending the use of the Prospectus or any prospectus supplement related thereto has been issued, no stop order suspending the effectiveness of the Registration Statement has been issued, and no proceedings for such purpose have been instituted or, to the Partnership's knowledge, are contemplated by the Commission.

(c) **Authorization of Series B Preferred Units.** The Series B Preferred Units, when issued and delivered pursuant to the terms approved by the Board of Managers of the general partner of the General Partner of the Partnership, against payment therefor as provided herein, will be duly and validly authorized and issued and fully paid and nonassessable, free and clear of any pledge, lien, encumbrance, security interest or other claim, including any statutory or contractual preemptive rights, resale rights, rights of first refusal or other similar rights. The Series B Preferred Units, when issued, will conform in all material respects to the description thereof set forth in or incorporated into the Prospectus.

(d) **Authorization; Enforceability.** The Partnership has full legal right, power, and authority to enter into this Agreement and perform the transactions contemplated hereby. This Agreement has been duly authorized, executed, and delivered by the Partnership and is a legal, valid, and binding agreement of the Partnership enforceable in accordance with its terms, except to the extent that enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium, or similar laws affecting creditors' rights generally and by general equitable principles.

(e) **Title to Real and Personal Property.** The Partnership has good and valid title in fee simple to all items of real property and good and valid title to all personal property described in the Registration Statement or Prospectus as being owned by it that are material to the business of the Partnership, in each case free and clear of all liens, encumbrances and claims, except those that (i) do not materially interfere with the use made and proposed to be made of such property by the Partnership, or (ii) would not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect. Any real property described in the Registration Statement or Prospectus as being leased by the Partnership is held by it under valid, existing, and enforceable leases, except those that (x) do not materially interfere with the use made or proposed to be made of such property by the Partnership, or (y) would not be reasonably expected to have a Material Adverse Effect.

#### Section 5. **Closing Conditions.**

(a) **Conditions to the Partnership's Obligations.** The Partnership's obligation to sell the Series B Preferred Units and to take the other actions required to be taken by the Partnership at the Closing is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be waived by the Partnership, in whole or in part):

(i) the accuracy in all material respects as of the date hereof and at the Closing of the representations and warranties by the Subscriber contained herein and in the Confidential Subscriber Questionnaire; and

(ii) the delivery by the Subscriber of the Purchase Price to the Partnership for the Series B Preferred Units as set forth herein on the Closing Date.

(b) **Conditions to the Subscriber's Obligations.** The Subscriber's obligation to purchase the Series B Preferred Units and to take the other actions required to be taken by the

Subscriber at the Closing is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be waived by the Subscriber, in whole or in part):

(i) the accuracy in all material respects as of the date hereof and at the Closing of the representations and warranties by the Partnership contained herein;

(ii) the delivery by the Partnership to the Subscriber of the closing deliveries described in Section 2 hereof; and

(iii) at the time of the Closing, no stop order with respect to the effectiveness of the Registration Statement shall have been issued under the Securities Act or proceedings initiated under Section 8(d) or 8(e) of the Securities Act.

**Section 6. Other Covenants.**

(a) **Governing Law.** The Subscriber agrees that, notwithstanding the place where this Agreement may be executed by any of the parties hereto, all the terms and provisions hereof shall be construed in accordance with and governed by the laws of the State of Delaware, without regard to principles of conflicts of laws. The Subscriber hereby irrevocably agrees that any suit, action, or proceeding with respect to this Agreement and any or all transactions relating hereto shall be brought in the local courts in New Castle County, Delaware or in the U.S. District Court for the District of Delaware, as the case may be.

(b) **Indemnification of the Partnership and Others.** The Subscriber agrees to hold the Partnership, the General Partner, and its officers, managers, and controlling persons (as defined in the Securities Act), and any persons affiliated with any of them or with the issuance of the Series B Preferred Units, harmless from all expenses, liabilities, and damages (including reasonable attorneys' fees) deriving from a disposition of the Series B Preferred Units by the Subscriber in a manner in violation of the Securities Act, or of any applicable state securities law or which may be suffered by any such person by reason of any breach by the Subscriber of any of the representations contained herein.

(c) **Use of Proceeds.** The Partnership will use the proceeds from the Offering as described in the Prospectus.

**Section 7. Amendments.** Neither this Agreement nor any term hereof may be amended, changed, or revised without the prior written consent of all the parties hereto.

**Section 8. Execution and Counterparts.** This Agreement may be executed in any number of counterparts, each of which shall be an original but all of which taken together shall constitute one and the same Agreement, it being understood that the parties need not sign the same counterpart. In the event that any signature on this Agreement or any instrument pursuant to Section 7 hereof is delivered by e-mail delivery of a ".pdf" format data file, such signature shall create a legally valid and binding obligation of the executing party (or on whose behalf such signature is executed) with the same force and effect as if such ".pdf" signature page was an original thereof.

**Section 9. Entire Agreement.** This Agreement and the Confidential Subscriber Questionnaire contain the entire agreement and understanding of the parties with respect to its subject matter and supersedes all prior agreements and understandings between the parties with respect to their subject matter.

Section 10. **Severability.** If any term, provision, covenant, or restriction of this Agreement is held by a court of competent jurisdiction to be invalid, illegal, void, or unenforceable, the remainder of the terms, provisions, covenants, and restrictions set forth herein shall remain in full force and effect and shall in no way be affected, impaired, or invalidated, and the parties hereto shall use their commercially reasonable efforts to find and employ an alternative means to achieve the same or substantially the same result as that contemplated by such term, provision, covenant, or restriction.

Section 11. **WAIVER OF JURY TRIAL.** IN ANY ACTION, SUIT, OR PROCEEDING IN ANY JURISDICTION BROUGHT BY ANY PARTY AGAINST ANY OTHER PARTY, EACH PARTY HEREBY KNOWINGLY AND INTENTIONALLY, TO THE GREATEST EXTENT PERMITTED BY APPLICABLE LAW, ABSOLUTELY, UNCONDITIONALLY, IRREVOCABLY, AND EXPRESSLY WAIVES FOREVER TRIAL BY JURY.

Section 12. **Miscellaneous.** This Agreement is not transferable or assignable by the Subscriber without the prior written consent of the Partnership. All notices or other communications to be given or made hereunder to the Subscriber shall be in writing and may be hand delivered or sent by fax, certified or registered mail, postage prepaid, e-mail, or by a private overnight delivery service to the Subscriber's address set forth below. The headings herein are for convenience only, do not constitute a part of this Agreement, and shall not be deemed to limit or affect any of the provisions hereof. This Agreement shall be binding upon and inure to the benefit of the parties and their permitted successors and assigns. This Agreement is intended for the benefit of the parties hereto and their respective permitted successors and assigns and is not for the benefit of, nor may any provision hereof be enforced by, any other person, except as set forth in Section 6(b) of this Agreement. The representations, warranties, and covenants contained herein shall survive the Closing and the delivery of the Series B Preferred Units.

Certification of CEO pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, Kenneth C. Rogozinski, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Greystone Housing Impact Investors LP;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusion about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
